Faith-Based Inefficiency Bob Wineburg, 2007-01-30 On January 29 2001 President Bush established the White House Office of Faith Based and Community Initiatives Its stated mission is to fight society s ills by rallying the armies of compassion inside America s churches In *Faith Based Inefficiency* Bob Wineburg argues that beneath the compassionate camouflage lies a five star war plan to demolish government programs mobilize and increase the size of the evangelical Christian voting block shift government money to churches and other faith based organizations in the conservative led culture war and develop a smoke screen of convincing media images and baffling words to confuse detractors This largely understated relationship between the plan s politics and its service delivery has been overlooked until now Wineburg untangles the web of motives and complex activities in this newest dimension of the ongoing culture war to capture America s soul He identifies the parties religious extremists social engineers and politicians and shows how they work to further the agenda of the core constituency of compassionate conservatism His analysis clearly explains this initiative and exposes the naivete of the Administration s approach to fixing the serious and complex problems of persistent poverty In addition Wineburg illustrates through first hand examples what is required for effective services and he shows how local communities can develop plans to produce more skills for coping with local problems He addresses complex issues like worker displacement illiteracy child abuse substance abuse and prison reentry while offering workable options for small churches to participate in partnerships with government and other local nonprofits to prevent solve and manage such problems

Pluralism and Freedom Stephen V. Monsma, 2012 Faith based organizations play a major role in providing a host of health educational and social services to the public Nearly all these efforts however have been accompanied by intense debate and numerous legal challenges The right of faith based organizations to hire based on religion the presence of religious symbols and icons in rooms where government subsidized services are provided and the enforcement of gay civil rights to which some faith based organizations object all continue to be subjects of intense debate and numerous court cases In *Pluralism and Freedom* Stephen V Monsma explores the question of how much autonomy should faith based organizations retain when they enter the public realm He contends that pluralism and freedom demand their religious freedom be

respected but that freedom of all religious traditions and of the general public and secular groups be equally respected ideals that neither the left nor the right live up to In response Monsma argues that democratic pluralism requires a genuine authentic but also a limited autonomy for faith based organizations providing public services and offers practical concrete public policy applications of this framework in practice **Megachurches and Social Engagement** Mark J.

Religion and Intimate Partner Violence Nancy Nason-Clark, Barbara Fisher-Townsend, Catherine Holtmann, Stephen McMullin, 2018 Intimate partner violence is a complex ugly fear inducing reality for large numbers of women around the world When violence exists in a relationship safety is compromised shame abounds and peace evaporates Violence is learned behavior and it flourishes most when it is ignored minimized or misunderstood When it strikes the homes of deeply religious women they are more vulnerable more likely to believe that their abusive partners can and will change less likely to leave a violent home temporarily or forever often reluctant to seek outside sources of assistance and frequently disappointed by the

response of the religious leader to their call for help These women often believe they are called by God to endure the suffering to forgive and to keep on forgiving their abuser and to fulfill their marital vows until death do us part Concurrently many batterers employ explicitly religious language to justify the violence towards their partners and sometime they manipulate spiritual leaders who try to offer them help Religion and Intimate Partner Violence seeks to navigate the relatively uncharted waters of intimate partner violence in families of deep faith The program of research on which it is based spans over twenty five years and includes a wide variety of specific studies involving religious leaders congregations battered women men in batterer intervention programs and the army of workers who assist families impacted by abuse including criminal justice workers therapeutic staff advocacy workers and religious leaders The authors provide a rich and colorful portrayal of the intersection of intimate partner violence and religious beliefs and practices that inform and interweave throughout daily life Such a focus on lived religion enables readers to isolate examine and evaluate ways in which religion both augments and thwarts the journey towards justice accountability healing and wholeness for women and men caught in the web of intimate partner violence

Faith Communities and the Fight for Racial Justice Robert Wuthnow, 2023-11-14 The communities congregations and faith based coalitions that have been working for racial justice over the past fifty years Have progressive religious organizations been missing in action in recent struggles for racial justice In Faith Communities and the Fight for Racial Justice Robert Wuthnow shows that contrary to activists accusations of complacency Black and White faith leaders have fought steadily for racial and social justice since the end of the Civil Rights movement of the 1950s and 1960s Wuthnow introduces us to the communities

congregations and faith based coalitions that have worked on fair housing school desegregation affirmative action criminal justice and other issues over many years Often overshadowed by the Religious Right these progressive faith based racial justice advocates kept up the fight even as media attention shifted elsewhere Wuthnow tells the stories of the faith based affordable housing project in St Louis that sparked controversy in the Nixon White House a pastor s lawsuit in North Carolina that launched the nation s first busing program for school desegregation the faith outreach initiative for Barack Obama s presidential campaign and church mobilized protests following the deaths of Trayvon Martin Freddie Gray and George Floyd Drawing on extensive materials from denominations journalists and social scientists Wuthnow offers a detailed and frank discussion of both the achievements and the limitations of faith leaders roles He focuses on different issues that emerged at different times tracing the efforts of Black and White faith leaders who sometimes worked cooperatively and more often tackled problems in complementary ways Taken together these stories provide lessons in what faith communities have done and how they can better advocate for racial justice in the years ahead *Engage!* Dana Horrell,2019-04-02 Author Dana Horrell has called on his years of experience in community action to create this practical guide to help congregations reach out to their local communities Church leaders often want to do more to engage their community contexts but when it comes to the actual how to do it they find themselves blocked Engage provides practical and proven tools to help leaders develop methods and strategies to get started and break through these barriers These tools twenty six in all are drawn from a variety of sources including congregations church consultants researchers and nonprofit organizations Some of these tools have a long history of use and may seem quite familiar while others may seem new and untested yet intriguing These tools represent best practices and have been tried somewhere and found a degree of success *Living Faith* Susan Crawford Sullivan,2012-03-15 Scholars have made urban mothers living in poverty a focus of their research for decades These women s lives can be difficult as they go about searching for housing and decent jobs and struggling to care for their children while surviving on welfare or working at low wage service jobs and sometimes facing physical or mental health problems But until now little attention has been paid to an important force in these women s lives religion Based on in depth interviews with women and pastors Susan Crawford Sullivan presents poor mothers often overlooked views Recruited from a variety of social service programs most of the women do not attend religious services due to logistical challenges or because they feel stigmatized and unwanted at church Yet she discovers religious faith often plays a strong role in their lives as they contend with and try to make sense of the challenges they face Supportive religious congregations prove important for women who are involved she finds but understanding everyday religion entails exploring beyond formal religious organizations Offering a sophisticated analysis of how faith both motivates and at times constrains poor mothers actions Living Faith reveals the ways it serves as a lens through which many view and interpret their worlds *The Oxford Handbook of Mission Studies* Kirsteen Kim,Knud Jørgensen,Alison Fitchett-Climenhaga,2022-04-18 The Oxford Handbook of Mission Studies represents more than a

century of scholarship related to the theology history and methodology of the propagation of Christian faith and the engagement of Christians with cultures religions and societies worldwide It contains more than 40 articles by experts from different disciplinary and ecclesial perspectives who are from all continents It not only offers a broad overview of key approaches and issues in mission studies but it also highlights current trends and suggests future developments The Handbook builds on renewed interest in mission studies this century generated by recent key statements on mission from ecumenical evangelical Catholic and Orthodox sources and by a spate of academic works on the topic Western church leaders now apply insights from foreign missions such as inculturation liberation interfaith work and power encounter to today s multicultural societies Meanwhile there are new initiatives in mission from the Majority World where most Christians live so that sending is not only from the west to the rest but from everywhere to everywhere Therefore this volume aims to reflect the voices of the receivers of mission as well as its protagonists and to raise awareness of new movements In a time of growing recognition of religions more generally this work examines and theorizes the missional dimensions of the world s largest religion its agendas growth outreach role in public life effect on cultures relevance for development and its approaches to other communities
