Conn,2013-01-28 Combining advocacy and memoir with

social and cultural history this book offers a comparative cross cultural survey of the whole history of adoption that is grounded in the author's personal experience *Widows and Orphans First* S. J. Kleinberg, 2010-10-01 The experiences of widows and their children during the Progressive Era and the New Deal depended on differences in local economies and values How did these widely varied experiences impact the origins of the welfare state S J Kleinberg delves into the question by comparing widows' lives in three industrial cities with differing economic, ethnic and racial bases Government in Fall River Massachusetts saw employment as a solution to widows' poverty and as a result drastically limited public charity In Pittsburgh widows received sympathetic treatment Few jobs existed for them or their children indeed the jobs for men were concentrated in widowmaking industries like steel and railroading With a large African American population and a diverse economy that relied on inexpensive child and female labor Baltimore limited funds for public services African Americans adapted by establishing their own charitable institutions A fascinating comparative study *Widows and Orphans First* offers a one of a kind look at social welfare policy for widows and the role of children in society during a pivotal time in American history **Bowling Alone: Revised and Updated** Robert D. Putnam, 2001-08-01 Once we bowled in leagues usually after work but no longer This seemingly small phenomenon symbolizes a significant social change that Robert Putnam has identified in this brilliant volume *Bowling Alone* which *The Economist* hailed as a prodigious achievement Drawing on vast new data that reveal Americans changing behavior Putnam shows how we have become increasingly disconnected from one another and how social structures whether they be PTA, church or political parties have disintegrated Until the publication of this groundbreaking work no one had so deftly diagnosed the harm that these broken bonds have wreaked on our physical and civic health nor had anyone exalted their fundamental power in creating a society that is happy, healthy and safe Like defining works from the past such as *The Lonely Crowd* and *The Affluent Society* and like the works of C Wright Mills and Betty Friedan Putnam's *Bowling Alone* has identified a central crisis at the heart of our society and suggests what we can do

Boys and their Toys Roger Horowitz, 2013-10-18 Negotiating the divide between respectable manhood and rough manhood this book explores masculinity at work and at play through provocative essays on labor unions, railroads, vocational training programs and NASCAR racing *The Tender Years : Toward Developmentally Sensitive Child Welfare Services for Very Young Children* Center for Social Services Research and Associate Adjunct Professor Jill Duerr Berrick Director, School of Social Welfare, Child Welfare Research Center Barbara Needell Senior Research Analyst, School of Social Welfare all at University of California Richard P. has stood apart from the world of work By bringing the factory or office home homework challenges this division Home to Work restores the voices of homeworking women to the century long debate over their labour It provides a historical context to the Reaganite lifting of New Deal bans Where once men s right to contract inhibited regulation now women s right to employment undermined prohibition Economic and political justice whether based on rights to homework or rights as workers will depend on homeworkers becoming visible as workers who happen to mother *In the Web of Class* Eric C. Schneider,1993-08 An analytic overview of the history of social welfare and juvenile justice in Boston Schneider traces cogently the origins development and ultimate failure of Protestant and Catholic reformers efforts to ameliorate working class poverty and juvenile delinquency ChoiceAnyone who wants to understand why America s approach to juvenile justice doesn t work should read *In the Web of Class* Michael B Katz University of Pennsylvania **Social Issues in America** James Ciment,2015-03-04 More than 150 key social issues confronting the United States today are covered in this eight volume set from abortion and adoption to capital punishment and corporate crime from obesity and organized crime to sweatshops and xenophobia *The History of Special Education* Robert L. Osgood,2007-11-30 Osgood examines the history of the school lives of children placed in formal or informal special education settings in American public schools during the last 120 years As the public school system in the United States grew throughout the 20th century special education became a recognized and dependable but marginalized arm of public schooling Throughout the 1900s special education emerged as its own world in many ways developing policies practices structures and an identity that became more diverse and inclusive This work describes and interprets the nature and characteristics of special education It examines carefully the human aspects of identification and placement the nature of work and play in the classroom the relationship among students teachers administrators and parents involved in the process the status and relation of children with disabilities to their non disabled peers in various school settings and the impact of school experiences on the lives of these children beyond school *The Practice of U.S. Women's History* S. J. Kleinberg,Eileen Boris,Vicki Ruíz,2007 In the last several decades U S women s history has come of age Not only have historians challenged the national narrative on the basis of their rich explorations of the personal the social the economic and the political but they have also entered into dialogues with each other over the meaning of women s history itself In this collection of seventeen original essays on women s lives from the colonial period to the present contributors take the competing forces of race gender class sexuality religion and region into account Among many other examples they examine how conceptions of gender shaped government officials attitudes towards East Asian immigrants how race and gender inequality pervaded the welfare state and how color and class shaped Mexican American women s mobilization for civil and labor rights *Conflicting Paths* Harvey J. Graff,1995 We grow up so simple it just seems to happen and yet there are endless variations in the way we do it What part does culture play in the process How much do politics and economics have to do with it As the nation has matured have the ways people grow up changed too This book

traces the many paths to adulthood that Americans have pursued over time Spanning more than two centuries of intense transformation in the lives of individuals and the life of a nation *Conflicting Paths* is an innovative history of growing up in America Harvey J Graff a distinguished social historian mines more than five hundred personal narratives for what they can tell us about the passage from childhood to maturity Drawing on diaries memoirs autobiographies and letters he builds a penetrating complex firsthand account of how childhood adolescence and youth have been experienced and understood as functions of familial and social relations as products of biology and physiology and as cultural and political constructs These first person testimonies cross the lines of time and space gender and class ethnicity age and race In these individual stories and the larger story they constitute Graff exposes the way social change including institutional developments and shifting attitudes expectations and policy and personal experience intertwine in the process of growing up Together these narratives form a challenging subtle guide to historical experiences and to the epochal remaking of growing up The most socially inclusive and historically extensive of any such research Graff's work constitutes an important chapter in the story of the family the formation of modern society and the complex interweaving of young people tradition and change **Fostering on the Farm** Megan Birk, 2015-06-15

From 1870 until after World War I reformers led an effort to place children from orphanages asylums and children's homes with farming families The farmers received free labor in return for providing room and board Reformers meanwhile believed children learned lessons in family life citizenry and work habits that institutions simply could not provide Drawing on institution records correspondence from children and placement families and state reports Megan Birk scrutinizes how the farm system developed and how the children involved may have become some of America's last indentured laborers Between 1850 and 1900 up to one third of farm homes contained children from outside the family Birk reveals how the nostalgia attached to misplaced perceptions about healthy family based labor masked the realities of abuse overwork and loveless upbringings endemic in the system She also considers how rural people cared for their own children while being bombarded with dependents from elsewhere Finally Birk traces how the ills associated with rural placement eventually forced reformers to transition to a system of paid foster care adoptions and family preservation
