Service Quality In Leisure And Tourism:

Service Quality in Leisure and Tourism Christine Williams, **Service Quality in Leisure, Events, Tourism and Sport** John Buswell, Christine Williams, Keith Donne, Carley Sutton, 2016 Service Quality in Leisure and Tourism Andrea Krauz, 2016-09-15 Tourism has been one of the world's fastest growing industries and there are large societies entirely dependent upon the visitor for their sustenance. The quality of service in hotel industry is an important factor of successful business. The existing trend of complete quality management in hotel industry ensures the achievement of competitive advantage of hotel companies and is therefore the subject of contemporary research into service quality in hotel industry. Much of the attention given to service quality is motivated by the premise that it will increase customer satisfaction and ultimately lead to better financial performance. The quality of products and services has also been related to external indicators of customer satisfaction such as complaints, warranty litigation and market share. Satisfied customers often lead to loyal customers who continuously repurchase the product or service. However, all organizations are dependent upon repeat purchases that lead to higher profitability. Empirical evidence suggests that customer satisfaction mediates the relationship between service quality and firm performance. *Service Quality in Leisure and Tourism* aims to develop an awareness of the underpinning theories of quality as applicable to leisure and tourism. It deals with the impact of service quality in tourism and customer satisfaction, presents the theoretical model of the research indicating the dimensions of quality in tourism. It shows that such dimensions as Quality of accessibility, accommodation, venue and their components contribute directly in satisfaction of tourists, their intent to return and eventually development of tourism industry in a region. Delivering high quality service within the hospitality industry positively influences a customer's perception of value. Tourist satisfaction is the result of the interaction between a tourist's experience in the destination area and his or her previous expectations about the destination. Satisfying the tourist is critical because it has an effect on the expectations and intentions for the customer's next destination purchasing decision. Practitioners and educators alike will find this book to be invaluable in their businesses and in preparing students for the business world. Service Quality in Leisure, Events, Tourism and Sport, 2nd Edition John Buswell, Christine Williams, Keith Donne, Carley Sutton, 2016-12-20 Service quality is at the forefront of how the leisure, events, tourism and sport LETS sectors operate. An important consideration for any business and therefore any student of the subject, this new edition of a successful textbook addresses the key points and principles of managing service quality across the industry sector. Considering the underpinning theory of service quality, this book informs the reader of the practical application of service quality management tools and techniques in an industry with distinctive features and challenges. An invaluable read for students within the LETS sectors, it also provides a useful refresher for practitioners working in the industry. *Service Quality Management in Hospitality, Tourism, and Leisure* Connie Mok, Beverley Sparks, Jay Kadampully, 2013-01-11 Does your staff deliver the highest quality service possible?
