## Services Trade In The Balkans:

**Services Trade in the Balkans** Constantine Michalopoulos,Vasileios Panousopoulos,2013 *Services Trade in the Balkans* Constantine Michalopoulos,Vasileios Panousopoulos,2002 This study aims at providing an overview of policies affecting services trade in seven countries of the Balkan region and stresses the growing importance of services trade The service sectors particularly tourism and transport play an important role in the economies of the Balkan countries The paper finds that on average the countries involved are committed to a liberal trade regime for services and that they have made more commitments to liberalize services in the World Trade Organization WTO than developing countries at comparable levels of development For the future the paper encourages further liberalization at the regional level on a Most Favoured Nation MFN basis as well as policy harmonization with the European Union *Deeper Integration and Trade in Services in the Euro-Mediterranean Region* Daniel Müller-Jentsch,2005 This publication examines the importance of trade in services for the integration of non EU members into the European Single Market Further liberalisation is found to be a critical factor to deeper integration with the enlarged EU which accounts for a quarter of global GDP and foreign direct investment The planned Euro Mediterranean free trade area for goods is judged as a positive first step but additional measures are needed for deeper integration including liberalisation of services trade The study gives a detailed assessment of individual sectors including core services relating to transport telecommunication financial markets and electricity as well other markets such as tourism IT and distribution services *Western Balkan Integration and the EU* Sanjay Kathuria,2008-01-01 This title explores ways for the Western Balkan countries to improve growth prospects through deepening of regional integration and improving selected elements of their investment climate It analyzes areas relating to trade in goods and services regional integration and selected aspects of the investment climate It suggests that countries in the region could reap sustained growth payoffs by focusing on deepening regional integration improving human capital reducing telecommunication costs and pre empting energy shortages **Western Balkan Economies in Transition** Reiner Osbild,Will Bartlett,2018-08-23 This book explores the economic and social development of the Western Balkan region a group of six countries that are potential candidates for EU membership It focuses on the key economic issues facing these countries including the challenge of promoting economic growth limiting public deficits and debt and fostering international trade relations Given the severe impact of the recent economic crisis on social welfare in the region it also investigates the nature and extent of social exclusion a factor likely to produce future political instabilities if not effectively addressed by a return to sustainable economic growth The contributions explore these issues in light of the major influence of EU policy instruments and advice which are currently guiding the economies along an accession trajectory to future EU membership **Lifting Growth in the Western Balkans** Mr.Nadeem Ilahi,Mrs.Armine Khachatryan,William Lindquist,Ms.Nhu Nguyen,Ms.Faezeh Raei,Jesmin Rahman,2019-11-12 In the past 25 years exports have contributed strongly to growth and economic convergence in many

small open economies However the Western Balkan WB region consisting of small emerging market economies has not fully availed itself of this driver of growth and convergence A lack of openness reliance on low value products and weak competitiveness largely explain the insignificant role of trade and exports in the region s economic performance This paper focuses on how the countries in the WB could lift exports through stronger integration with global value chains GVCs and broadening of services exports The experience of countries that joined the European Union in or after 2004 shows that participation in GVCs can help small economies accelerate export and income growth WB countries are not well integrated into Europe s vibrant GVCs Trade within the region is also limited it tends to be bilateral and not cluster like Our analysis shows that by improving infrastructure and labor skills and adopting trade policies that ensure investor protection and harmonize regulations and legal provisions the region can greatly enhance its engagement with GVCs Services exports are an increasingly important part of global trade and they offer an untapped source of growth The magnitude of services exports from the WB region compares favorably with that of peers in Europe particularly in travel services where several of these countries have a revealed comparative advantage But there is significant room for growth in tourism exports and an untapped potential in business and information technology services exports that these countries can materialize through policy efforts that increase openness and enhance connectivity and labor skills Serbia offers a good example of how decisive efforts including education policies to ensure a sustained supply of skilled labor can help information technology services exports to take off

#### **Competitiveness and Private Sector Development Western Balkans Competitiveness Outlook**

**2024: Albania** OECD,2024-06-26 Inclusive and sustainable economic growth in the six Western Balkan WB6 economies depends on greater economic competitiveness Although the gap is closing gradually the standards of living in WB6 are well below those of the OECD and EU Accelerating the rate of socio economic convergence will require a holistic and growth oriented approach to policy making This is the fourth study of the region formerly under the title Competitiveness in South East Europe and it comprehensively assesses policy reforms in the WB6 economies across 15 policy areas key to strengthening their competitiveness It enables WB6 economies to compare economic performance against regional peers as well as EU OECD good practices and standards and to design future policies based on rich evidence and actionable policy recommendations The regional profile presents assessment findings across five policy clusters crucial to accelerating socio economic convergence of the WB6 by fostering regional co operation business environment skills infrastructure and connectivity digital transformation and greening Economy specific profiles complement the regional assessment offering each WB6 economy an in depth analysis of their policies supporting competitiveness They also track the implementation of the previous 2021 study s recommendations and provide additional ones tailored to the economies evolving challenges These recommendations aim to inform structural economic reforms and facilitate the region s socio economic convergence towards the standards of the EU and OECD

#### **The Europeanisation of the Western Balkans** Jelena Džankić, Soeren Keil, Marko

Kmezić,2018-09-21 This volume casts a fresh look on how the political spaces of the Western Balkan states Croatia Bosnia and Herzegovina Serbia Montenegro Kosovo Macedonia and Albania are shaped governed and transformed during the EU accession process The contributors argue that EU conditionality in the Western Balkans does not work effectively in terms of social change because rule transfer remains a contested business due to veto players on the ground and strong legacies of the past The volume examines specific policy areas salient in the enlargement process and to a different degree incorporated in the accession criteria as well as EU foreign policy in the spheres of post conflict stabilisation democratization and the rule of law promotion *Information Service* ,1928 *Editorial Information Service* ,1927 Competitiveness and Private Sector Development Western Balkans Competitiveness Outlook 2024: Regional Profile OECD,2024-06-26 Inclusive and sustainable economic growth in the six Western Balkan WB6 economies depends on greater economic competitiveness Although the gap is closing gradually the standards of living in WB6 are well below those of the OECD and EU Accelerating the rate of socio economic convergence will require a holistic and growth oriented approach to policy making This is the fourth study of the region formerly under the title Competitiveness in South East Europe and it comprehensively assesses policy reforms in the WB6 economies across 15 policy areas key to strengthening their competitiveness It enables WB6 economies to compare economic performance against regional peers as well as EU OECD good practices and standards and to design future policies based on rich evidence and actionable policy recommendations The regional profile presents assessment findings across five policy clusters crucial to accelerating socio economic convergence of the WB6 by fostering regional co operation business environment skills infrastructure and connectivity digital transformation and greening Economy specific profiles complement the regional assessment offering each WB6 economy an in depth analysis of their policies supporting competitiveness They also track the implementation of the previous 2021 study s recommendations and provide additional ones tailored to the economies evolving challenges These recommendations aim to inform structural economic reforms and facilitate the region s socio economic convergence towards the standards of the EU and OECD

**Medieval Trade in Central Europe, Scandinavia, and the Balkans (10th-12th Centuries)** Piotr Pranke,Milos Źečević,2020-08-10 In the historiography of trade in the Middle Ages there is a wide current of theoretical consideration referring to the ways contemporaries perceived trade The present work pays specific attention to how trade functioned within the range of the influence of the Ottonian Empire and Byzantium from the 10th to 12th centuries This book attempts to verify these concepts in the extensive available source The manner of circulation of goods and the phenomenon of accumulating goods is a significant product of the present book demonstrating how imperial influences that perceived through the prism of generative centres on the peripheries of Europe This volume is the English translation of Handel interregionalny od X do XII wieku Europa rodkowa rodkowo Wschodnia P wysep Skandynawski i P wysep Ba ka ski Studium Por wnawcze Wydawnictwo Naukowe Uniwersytetu Miko aja Kopernika Torun 2016 *Western Balkans and the Future of*

Europe Aleksandar Stojkov,Thierry Warin,2025-05-12 One of the main questions addressed in this book is whether the EU enlargement fatigue has resulted in broken promises leading to a commitment fatigue among the EU candidate states from Western Balkans Until recently political and business leaders from Western Balkans almost without exception have repeatedly highlighted their aspirations for joining the Union The discussions about future of Europe would be incomplete without investigating the relations between EU and Western Balkans This book addresses academic researchers policy makers and higher education students **Information Service** Foreign Policy Association,1927 [Economic Growth, Prosperity and Sustainability in the Economies of the Balkans and Eastern European Countries](#) Maria Mavri,Patricia Ikouta Mazza,Anastasios Karasavoglou,Persefoni Polychronidou,2024-08-07 This book features a selection of papers presented at the 15th International Conference Economies of the Balkan and Eastern European Countries EBEEC held at the University of the Aegean in Chios Greece May 12 14 2023 The EBEEC conference serves as an annual meeting of policy makers from Eastern European and Balkan countries as well as scientists More than 300 researchers and students attended the conference and presented their work in parallel sessions This volume deals with various aspects of economic growth prosperity and environmental social and economic sustainability of countries in the region in the context of globalization and digitalization It also examines topics such as consumer behavior towards new products and services human capital teleworking the food market international trade and foreign direct investment In turn the book proposes frameworks and solutions to help countries deal with and manage the complex local and global environment **Integrating the Western Balkans into the EU** Milica Uvalić,2023-07-25 Among the main stumbling blocks of European Union Western Balkan integration are the differences in perceptions on both sides Today the gap between what the Western Balkan politicians and citizens think about the European Union and what the politicians and citizens in the EU member states think about the Western Balkans is probably wider than ever This volume offers fresh insights about these misperceptions and how to possibly bridge the gap It examines perceptions about the region s European perspectives both on the side of the six Western Balkan countries Albania Bosnia and Herzegovina Kosovo Montenegro North Macedonia and Serbia and the key European Union member states Italy Germany Croatia international donors USA An analysis of the diverse views regarding the prospects of EU Western Balkan integration is today highly relevant in view of the current uncertainties regarding European Union s enlargement policy particularly after the attack of Russia on Ukraine and candidate status granted to Ukraine and Moldova *Competitiveness and Private Sector Development Western Balkans Competitiveness Outlook 2024: Kosovo* OECD,2024-06-26 Inclusive and sustainable economic growth in the six Western Balkan WB6 economies depends on greater economic competitiveness Although the gap is closing gradually the standards of living in WB6 are well below those of the OECD and EU Accelerating the rate of socio economic convergence will require a holistic and growth oriented approach to policy making This is the fourth study of the region formerly under the title Competitiveness in South East Europe and it

comprehensively assesses policy reforms in the WB6 economies across 15 policy areas key to strengthening their competitiveness. It enables WB6 economies to compare economic performance against regional peers as well as EU OECD good practices and standards and to design future policies based on rich evidence and actionable policy recommendations. The regional profile presents assessment findings across five policy clusters crucial to accelerating socio-economic convergence of the WB6 by fostering regional co-operation, business environment, skills, infrastructure and connectivity, digital transformation and greening. Economy-specific profiles complement the regional assessment, offering each WB6 economy an in-depth analysis of their policies supporting competitiveness. They also track the implementation of the previous 2021 study's recommendations and provide additional ones tailored to the economies' evolving challenges. These recommendations aim to inform structural economic reforms and facilitate the region's socio-economic convergence towards the standards of the EU and OECD.

*Economies in Transition* G. Roland, 2011-12-13 The twentieth anniversary of the fall of the Berlin Wall saw many reflect on the political, economic and social changes of recent years. The legacy of communism and the economic prospects of post-communist countries are rigorously analysed in this stimulating study of the long-term consequences of transition.

**Golden Growth** Indermit S. Gill, Martin Raiser, 2012-04-25 The public debt crisis in Europe has shaken the confidence not just in the Euro but in the European model. Aging and uneconomical Europeans are being squeezed between innovative Americans and efficient Asians, it is said. With debt and demographics dragging them down, one hears that European economies will not grow much unless radically new ways are discovered. The end of complacency in Europe is a good thing, but this loss of confidence could be dangerous. The danger is that in a rush to rejuvenate growth, the attractive attributes of the European development model could be abandoned along with the weak. In fact, the European growth model has many strong points and enviable accomplishments. One can say without exaggeration that Europe had invented a convergence machine, taking in poor countries and helping them become high-income economies. World Bank research has identified 27 countries that have grown from middle income to high income since 1987, a few thanks to the discovery and exploitation of massive natural resources, e.g. oil in Oman and Trinidad and Tobago, several others like Japan, Hong Kong, Singapore, Taiwan and South Korea embracing aggressive export-led strategies which involved working and saving a lot, postponing political liberties and looking out only for themselves. But half of the countries that have grown from middle income to high income – Croatia, Cyprus, Czech Republic, Estonia, Greece, Hungary, Latvia, Malta, Poland, Portugal, Slovak Republic and Slovenia – are actually in Europe. This is why the European model was so attractive and unique and why, with some well-designed efforts, it ought to be made right again.

**SME Policy Index: Western Balkans and Turkey 2022**

**Assessing the Implementation of the Small Business Act for Europe** OECD, 2022-07-08 Small and medium-sized enterprises (SMEs) are essential drivers of sustainable economic growth in the Western Balkans and Turkey, where they make up 99% of all firms, generate 65% value added and account for 75% of employment. Nevertheless, SMEs across the region

continue to face obstacles such as difficulties accessing financing low levels of digital uptake regulatory barriers and relatively low participation in international trade
