Serving Students At Metropolitan Universities:

Serving Students at Metropolitan Universities: The Unique Opportunities and Challenges Larry H. Dietz, Vicky L. Triponey, 1997-10-04 Among the distinctive characteristics of U S postsecondary education are access choice and variety Students in this country have a diversity of choices as they seek college admission The possibilities boggle the mind especially as college administrators contemplate how to meet the service needs of diverse student populations with differing needs abilities and aspirations It becomes an even greater challenge when one realizes that most institutions are confronted with students who fit into not one but several of these life situation categories Thus the challenge becomes one of how an institution should plan program and budget to meet the diverse and changing demands for services and resources This challenge is faced by student affairs administrators regardless of the type of institution but it is particularly demanding in a metropolitan university setting A paucity of research is available about students who choose to attend metropolitan universities and little opportunity exists for sharing ideas and expertise on how to meet the needs of these less than traditional students

book series contributes a unique discussion of how service learning functions as a critical cornerstone of outreach scholarship. The sections and chapters of this book marshal evidence in support of the idea that undergraduate service learning infused throughout the curriculum and coupled with outreach scholarship is an integral means through which higher education can engage people and institutions of the communities of this nation in a manner that perpetuate civil society. "To Serve a Larger Purpose" John Saltmarsh, Matthew Hartley, 2011-05-20. To Serve a Larger Purpose calls for the reclamation of the original democratic purposes of civic engagement and examines the requisite transformation of higher education required to achieve it. The contributors to this timely and relevant volume effectively highlight the current practice of civic engagement and point to the institutional change needed to realize its democratic ideals. Using multiple perspectives, To Serve a Larger Purpose explores the democratic processes and purposes that reorient civic engagement to what the editors call democratic engagement. The norms of democratic engagement are determined by values such as inclusiveness, collaboration, participation, task sharing, and reciprocity in public problem solving, and an equality of respect for the knowledge and experience that everyone contributes to education, knowledge generation, and community building.
