Praying for Freedom Laurie Cassidy,2024-04-15 Why do the Spiritual Exercises not change us as deeply as we hope This is the haunting question that was raised at the recent general congregation of the Jesuits about Ignatius s Spiritual Exercises and the question the contributors to this book explore and attempt to answer in the context of ongoing racial injustice in the United States All of us who love and are engaged in Ignatian spirituality must also ask ourselves this same question Contributors explore this question by examining how color blindness racism determines our interpretation of the Spiritual Exercises in the United States Animated by the grace of Ignatius s conversion experience these spiritual directors theologians and leaders in Jesuit ministries offer insightful scholarly and creative pastoral engagement of The Spiritual Exercises for the ongoing journey of conversion from racism and white supremacy in the United States **Military Chaplains' Review** ,1975 **The British National Bibliography** Arthur James Wells,2002 **Writing Beyond Race** bell hooks,2013 What are the conditions needed for our nation to bridge cultural and racial divides By writing beyond race noted cultural critic bell hooks models the constructive ways scholars activists and readers can challenge and change systems of domination In the spirit of previous classics like *Outlaw Culture* and *Reel to Real* this new collection of compelling essays interrogates contemporary cultural notions of race gender and class From the films *Precious* and *Crash* to recent biographies of Malcolm X and Henrietta Lacks hooks offers provocative insights into the way race is being talked about in this post racial era **Peace, Decolonization, and the Practice of Solidarity** Rob Skinner,2023-10-05 This book shows that the connected histories of decolonization and globalization concern the practices of individuals and movements as much as they do the ideologies of states institutions and organizations Viewing decolonization through non state activist practices and setting anti colonial solidarity in the context of the methods of contemporary global peace movements it argues that seemingly marginal histories can illuminate aspects of the end of empire that are not readily apparent in studies centred on state diplomacy and nationalist movements Focusing on a group of British and American activists including the pacifist campaigner A J Muste the anti apartheid priest Michael Scott and the civil rights organiser Bayard Rustin Skinner explores connected global histories of anti nuclear peace campaigns anti colonialism and decolonization to illuminate new perspectives on the end of empire and the Cold War Studying a failed attempt to infiltrate the French atom bomb test site in southern Algeria and a mass march across the border between Tanganyika and Northern Rhodesia that never took place these stories provide valuable insights into the interactions between local and global scales of historical experience In presenting these histories this book demonstrates how global and transnational histories can challenge and disrupt rather

than reinforce hierarchies of power and privileges In doing so it also contributes to ongoing debates surrounding the nature of decolonization as a historical phenomenon by focusing on the practices of activism that shaped and were shaped by the political and intellectual structures of decolonization
