**The Seven Day Circle** Eviatar Zerubavel, 1989-03-15 Days months and years were given to us by nature but we invented the week for ourselves There is nothing inevitable about a seven day cycle or about any other kind of week it represents an arbitrary rhythm imposed on our activities unrelated to anything in the natural order But where the week exists and there have been many cultures where it doesn't it is so deeply embedded in our experience that we hardly ever question its rightness or think of it as an artificial convention for most of us it is a matter of second nature

The Seven-day Rhythms of Life Dr. G. Kenneth Greenaway, Have you ever wondered why the entire earth operates on a seven day cycle Have you thought about how even some of the smallest animals seem to follow a weekly schedule This is NOT a coincidence Our amazing God having created this world in seven days has implanted in living things a very tiny yet powerful gland that transfers information within our bodies or even between species by biochemical neurological or photonic means The pineal gland is the rhythm maker of our bodies and is a testament to the Sabbath created by God in Eden This seal of our Creator is non changing and anchored in time As you explore the various aspects of these biological rhythms in humans animals birds and even in insects and plants you will see how there is a larger purpose to these circadian rhythms The seven day cycle is a gift from our Creator our Redeemer of the world to accept His invitation to come to Him and find the REST He desires for us in these troubled times Congratulations Dr Kenneth Greenaway for bringing together the evidences for the biological origins of Seven day Rhythms in this succinct yet enlightening manuscript As we grasp for a greater understanding of our origins may this work lead searchers for truth to an eureka moment Dr George S Daniel M Sc Ph D
