COMPUTERS and Science Douglas J Alford, 2021-03-09 This book is the Science of Computers for 3rd to 6th Grade Teachers We see the Science inside the billions of digital devices that we use daily With Science we look at how bits and opposites link into worldwide networks We answer Where have computers come from How do we will better understand our emerging future with computers A Selection from the Parables of the New Testament, paraphrased in familiar verse for the use of children. With notes from various commentators Mary Anne Davis, 1836 **The Message of the Book of Revelation** Charles T. Chapman, 1995 Perhaps no book in the history of the world has been as misunderstood and misappropriated as the Book of Revelation Those people versed in the methods of scholarly interpretation exegesis may understand the symbolism of this work but what about the general reader How is he or she to know whether this book is being soundly interpreted or misinterpreted Father Chapman writes for the general reader for the many who need to understand the truth of The Message of the Book of Revelation both its historical message and its message for Christians today He explains phrase by phrase in clear direct terms what has been learned about the genre of writings called apocalyptic literature of which Revelation is a part and how that knowledge can be properly used to interpret the images and symbols of Revelation Faithful to the teaching of the Church this explanation of Revelation reveals this biblical book to be an inspiring hope filled poetic portrayal of the triumph of Christ and his followers over the powers of evil The Rev Charles T Chapman Jr was raised and educated as a Southern Baptist He joined the Episcopal Church in 1980 and was ordained priest in 1987 He holds degrees from Union University and The Southern Baptist Theological Seminary with further training at the Episcopal Theological Seminary of the Southwest With Bible teaching and writing among his principle interests Fr Chapman offers this commentary in the hopes that reason and scholarship can shed light on a biblical work where baseless extravagant imagination has long cast its shadow **Liv's Alone** Liv Thorne, 2021-08-19 When Liv Thorne was in her twenties and single she would joke to friends that if Mr Right didn t come along she d have to take matters into her own hands and have a child on her own When she was still single in her thirties it stopped being a joke and she started researching sperm banks and fertility clinics Liv s Alone is an honest and hopeful memoir that captures the joy and the challenge that is parenting alone by choice From dismantling the fairy tale story that we re fed from a young age and grieving the life you thought you were going to have to buying sperm from Denmark and bringing a baby into the world Guiding readers through the highs and lows with warmth humour and understanding Liv wants her book to be a little beacon of optimism for women who are in the same position she was in late 30s single and longing for a baby This is Liv Herb s story but hopefully a version of it will be yours *In Theaters Everywhere* Brian Hannan, 2019-01-09 Conflicts among Hollywood studios and exhibitors have been going on for years At their heart are questions about how films should be released where when and at what speed Both sides of this disagreement are losers with exhibitors using the law via various Consent Decrees and studios retaliating by tightly

controlling output In the Silent Era movies were not released nearly as widely as they are now This book tells the story of how the few became the many It explores the contraction of the release cycle the maximization of the marketing dollar and the democratization of consumer access It also offers a comprehensive list of wide releases and rebuts much of what previous scholars have found **Science Enlights!** Douglas J Alford,2020-03-12 Science ideas open our minds They explain how our everyday items work This book personalizes Science by making it practical fun and easy to understand With urgency and energy we see the Science inside elements objects and ourselves Circle the Wagons!
