linked to the actual and more familiar story of how the airplane evolved The book touches on all the major theorists and their contributions and most important the historical context in which they worked to move the science of aerodynamics forward Von Hardesty Smithsonian Institution From the reviews Something of the unexpected quality of this book can be inferred from its full title A History of Aerodynamics and Its Impact on Flying Machines Pilots tend to suppose that the science of aerodynamics began empirically somewhere around the time of Lilienthal and the Wrights and that aerodynamics and manned flight are roughly coeval It is therefore surprising to come upon a photograph of the Wright Flyer as late as page 242 of the 478 page volume Peter Garrison Flying This book successfully straddles the boundary that separates a text book from a history book It is of equal interest to both the aerodynamicist and the layman The textual balance achieved by the author has resulted in a book that is enjoyable and educational Earl See American Aviation Historical Society Newsletter The Secret Rescue Cate Lineberry, 2013-05-07 The exciting true story of a downed cargo plane and a group of stranded U S Army medical personnel fighting to survive in Nazi occupied Albania The Bowling Green Daily News A Wall Street Journal Bestseller An Edgar Award Finalist and Anthony Award Finalist for Best Critical or Non Fiction Work When twenty six Army nurses and medics part of the 807th Medical Air Evacuation Transport Squadron boarded a cargo plane for transport in November 1943 they never anticipated the crash landing in Nazi occupied Albania that would lead to a months long struggle for survival In a drama that captured the attention of the American public the group and its flight crew dodged bullets and battled blinding winter storms as they climbed mountains and fought to stay alive aided by courageous villagers who risked death at Nazi hands to help them A mesmerizing tale of the heroism of ordinary people The Secret Rescue tells a story of endurance kept secret for decades and of the daring rescue attempts by clandestine American and British organizations amid the tumultuous landscape of the war Combines all of the elements that draw us to WWII stories the daring of The Guns of Navarone the suspense of The Great Escape and the bravery reminiscent of Ill Met by Moonlight It s the inclusion of so many women though that makes this story unique The Daily Beast An amazing WWII survival and rescue story Booklist
