Seven Secrets To Raising A Happy And Healthy Child The Ayurvedic Approach To Parenting:

Seven Secrets to Raising a Happy and Healthy Child Joyce Golden Seyburn, 2003-05-01 A timeless collection of wisdom that's nurturing to both the child and the caregiver Seven Secrets to Raising a Happy and Healthy Child is a heartfelt eye opener based on the 5 000 year old preventive health care system from ancient India Ayurveda the science of life Joyce Golden Seyburn guides you through simple practices to be performed from conception through childhood that include centering yourself while calming your baby baby massage and determining your baby's mind body type dosha in Sanskrit after birth This book has no age boundaries and can be easily applied to any child **The Indigo Children Ten Years**

Later Lee Carroll, Jan Tober, 2009-01-15 Join the original authors of The Indigo Children ten years later for a profound and frank discussion these special children why they do what they do and what we can do to help them The Indigo Children Oh yeah I know about them Wasn't there a movie about that They're those special kids who do psychic things and who have dark blue auras right If that's your take on the Indigos then you really need to read this book The Indigo Children are not super psychic kids with dark blue auras In fact the Indigo moniker has nothing to do with auras or being psychic Some of these teenagers are actually the ones who are strapping on bombs and bringing guns to school so you can see that the subject here is far more profound than the sensational hype that often accompanies it This book is all about the children of our planet what really might be happening with them why they do what they do and what we can do to help them and our educators survive all this In addition the Indigos are slowly beginning to join the work force gasp After all this time what do some in higher education say about these kids What do industry leaders say Humanity is evolving so you should definitely be aware of what these individuals are saying It's time to stop the circus that has been created around this subject and get down to finding out how to help these children survive an earth they don't understand or perhaps it's just you they don't understand Join the leaders of education and industry who speak out in this book for a peek into the real issues surrounding the Indigos and perhaps the future of humanity The Wisdom of Your Child's Face Jean Haner, 2010-06-15 People joke that your

children don't come with a user's manual but they're wrong It's written in their faces and all you have to do is learn to read them The secrets of your children's inner nature and personal potential are eloquently inscribed in the curve of their cheeks the shape of their eyes the contour of their brows and the unique language of their original design Chinese face reading is based on ancient Taoist principles that teach that each child is born with a soul's intent a blueprint that is theirs and theirs alone and this inner architecture is reflected in their outer design When you can read your children's faces you can discover their true nature You can understand what their special gifts are see where their personal challenges will be and how to guide them through these issues You'll be able to recognize what they need from you in order to feel safe and loved and you'll be empowered as a parent to raise them with less stress more joy and the confidence that you're helping them fulfill their special purpose in the world The Male Herbal James Green, 2011-03-02 In this long awaited second edition of THE MALE
