K. Agarwal,2013-12 The origin of world civilization can be traced to the Indus Valley cradle where brilliant and original thinkers made groundbreaking discoveries The history of these discoveries is recorded in the vast Sanskrit literature In this study author M K Agarwal explores the cultural and historical significance of the region He explores Indus Valley culture which encouraged creative thought as opposed to the Abrahamic faiths which herded followers into dogmatic thinking He holds that these religions prospered because of their unfettered hatred of the Vedic Hindu Buddhist peoples who were demonized as pagans to be murdered tortured raped enslaved and robbed He also considers the achievements of that culture such as the creation of the most affluent most scientifically advanced and most spiritual of all societies with archeological moorings that can be traced back to 8000 BC No other region can even come close to transforming people and culture like the Indus Valley but the world s Vedic roots have been ignored shunned and covered up Uncover the history that has been lost and develop a deeper appreciation for the true cradle of human civilization with The Vedic Core of Human History *The Astrological and Numerological Keys to The Secret Doctrine, Volume 2* Bodo Balsys,2021-02-01 This volume continues with a detailed explanation of the nature of the ageless wisdom and its codification via astrological and numerological means It starts with happenings upon the higher mental plane and then the process of the materialisation of phenomena right through to the dense physical plane The subjective happenings underlying the formation of a world sphere are described as well as the great Lives involved The focus is upon the genesis of our earth and of the incarnation of humanity upon it Much more information is given concerning the activities of the twelve Creative Hierarchies than previously plus the mode of the manifestation of phenomena as it condenses from the subtle planes of perception to appear as dense substance Our empirical scientists begin their investigations here hence omitting the vast subjective processes and associated laws causing objective phenomena Blavatsky s genius is revealed in her masterful incorporation of the vast esoteric philosophy via the most economic means where each word chosen produces an astounding revelatory vision once properly decoded Those not familiar with this philosophy will be astounded by its overall completeness and breadth of detail They will be led to an ocean of discovery as to what actually constitutes the nature of the content of an enlightened Mind Hopefully this will lead many to seek the way to likewise become enlightened beings Epic Mythology Edward Washburn
