

Seven Rules of Hillel (Hebrew Hermeneutics)

- **Kal Vahomer (*Light and heavy*)** - what applies in a less important case will certainly apply in a more important case
- **G'zerah Shavah (*Equivalence of expressions*)** - An analogy is made between two separate texts on the basis of a similar phrase, word or root
- **Binyan ab mikathub echad (*Building up a "family" from a single text*)** - A principle is found in several passages: A consideration found in one of them applies to all.
- **Binyan ab mishene kethubim (*Building up a "family" from two or more texts*)** - A principle is established by relating two texts together: The principle can then be applied to other passages.
- **Kelal uferat (*The general and the particular*)** - A general principle may be restricted by a particularization of it in another verse – or, conversely, a particular rule may be extended into a general principle.
- **Kayotze bo mimekom akhar (*Analogy made from another passage*)** - Two passages may seem to conflict until compared with a third, which has points of general though not necessarily verbal similarity.
- **Davar hilmad me'anino (*Explanation obtained from context*)** - The total context, not just the isolated statement must be considered for an accurate exegesis.

Seven Hermeneutical Rules:

Seven Hermeneutical Rules Yaelle Sagidwa, 1978-07-01 *The Restoration of the Jews: Early Modern Hermeneutics, Eschatology, and National Identity in the Works of Thomas Brightman* Andrew Crome, 2014-05-07 This book offers the first detailed examination of the life and works of biblical commentator Thomas Brightman 1562-1607 analysing his influential eschatological commentaries and their impact on both conservative and radical writers in early modern England. It examines in detail the hermeneutic strategies used by Brightman and argues that his method centred on the dual axes of a Jewish restoration to Palestine and the construction of a strong English national identity. This book suggests that Brightman's use of conservative modes of literal exegesis led him to new interpretations which had a major impact on early modern English eschatology. A radically historicised mode of exegesis sought to provide interpretations of the Old Testament that would have made sense to their original readers leading Brightman and those who followed him to argue for the physical restoration of the Jews to the Holy Land. In doing so the standard Reformed identification of Old Testament Israel with elect Christians was denied. This book traces the evolution of the controversial idea that Israel and the church both had separate unfulfilled scriptural promises in early modern England and shows how early modern exegetes sought to re-construct a distinctly English Christian identity through reading their nation into prophecy. In examining Brightman's hermeneutic strategies and their influence this book argues for important links between a literal hermeneutic ideas of Jewish restoration and national identity construction in early modern England. Its central arguments will be of interest to all those researching the history of biblical interpretation the role of religion in constructing national identity and the background to the later development of Christian Zionism. This important study provides a new examination of Thomas Brightman's hermeneutical method particularly his ideas on the restoration of the Jews. The author's thorough analysis of Brightman's approach also has more general and wider implications for understanding the development of English apocalyptic interpretation into the later seventeenth century. Dr Warren Johnston Associate Professor of History Algoma University. Andrew Crome's ground breaking study of Thomas Brightman offers a new and sometimes surprising account of the development of millennial thinking in and beyond early modern England. This masterly account demonstrates the extent to which an emerging Zionism supported an emerging English nationalism while outlining the historical roots of some of the most important of contemporary geopolitical themes. Professor Crawford Gribben Professor of Early Modern British History Queen's University Belfast. This important study provides a new examination of Thomas Brightman's hermeneutical method particularly his ideas on the restoration of the Jews. The author's thorough analysis of Brightman's approach also has more general and wider implications for understanding the development of English apocalyptic interpretation into the later seventeenth century.
