It encourages young poets recognizes the importance of change and growth in the poetry of America and believes that poetry is not for poets only This anthology was compiled on this basis Fifty Years Of American Poetry is not only educational but also inspirational hopefully imbuing everyone who reads it with a sense of the dynamic and development of American poetry in the last half century The Academy of American Poets is the only institution which could compile such a unique anthology because it is the only group which has consistently played a large part in the American poetry scene through its patronage to poets and its mission to make poetry an accessible and vital part of the American literary landscape The School of Freedom Anthony O'Hear, Marc Sidwell, 2013-11-26 Liberal education is not a theory It is the tradition by which Western civilisation has preserved and enriched its inheritance for two and a half thousand years Yet liberal education is a term that has fallen from use in Britain its traditional meaning now freely confused with its opposite This book is intended to correct that misapprehension through the presentation of original source material from the high points in the liberal education tradition with particular focus on the British experience Section 1 Origins c 450 BC to c 450 AD Section 2 The British Tradition c 750 to 1950 Section 3 After Tradition 1950 onward Section 4 Liberal Education Redux America University of California Union Catalog of Monographs Cataloged by the Nine Campuses from 1963 Through 1967: Authors & titles University of California (System).
