Seventeenth century Lincolnshire VII:

Seventeenth-century New England, 1984 Chambers's Cyclopædia of English Literature: 7th-17th century Robert Chambers, 1927 **Pettyfoggers and Vipers of the Commonwealth** C. W. Brooks, 2004-06-24 This work charts the huge growth of the lower branches of the legal profession in sixteenth century England **English Church Polyphony** Roger Bowers, 2024-10-28 The theme of the essays in this volume is the identification of the resources which between c 1320 and 1642 the English church saw fit to provide for the performance of the music of its liturgy Individual essays describe the music and the choirs of Canterbury and Lincoln Cathedrals Winchester Cathedral Priory and the private chapel of Cardinal Wolsey while the personnel of the chapels of Edward III the Black Prince and John of Gaunt emerge from study of the texts of compositions of the 14th century From the alignment of contemporary musical and archival sources there arises a web of conclusions relating to the size of ensemble vocal scoring and sounding pitch envisaged by its composers for English church polyphony of the period c 1320 1559 These essays thus encompass the two most profound of the revolutions to which the music of the English church was subject at this period the inauguration and widespread adoption of choral polyphony in the years c 1455 85 and the liturgical and doctrinal Reformation of 1547 to 1563 Henry VII's New Men and the Making of Tudor England Steven J. Gunn, 2016 Reconstructs the lives of Henry VII's new men low born ministers with legal financial political and military skills who enforced the king's will as he sought to strengthen government after the Wars of the Roses examining how they exercised power gained wealth and spent it to sustain their new found status **The Common Peace** Cynthia B. Herrup, 1987 The Common Peace traces the attitudes behind the enforcement of the criminal law in early modern England Focusing on five stages in prosecution arrest bail indictment conviction and sentencing the book uses a variety of types of sources court records biographical information state papers legal commentaries popular and didactic literature to reconstruct who actually enforced the criminal law and what values they brought to its enforcement A close study of the courts in eastern Sussex between 1592 and 1640 allows Dr Herrup to show that an amorphous collection of modest property holders participated actively in the legal process These yeomen and husbandmen who appeared as victims constables witnesses and jurors were as important to the credibility of the law as were the justices and judges The uses of the law embodied the ideas of these middling men about not only law and order but also religion and good government By arguing that legal administration was part of the routine agenda of obligation for middling property holders Dr Herrup shows how the expectations produced by legal activities are important for understanding the decades immediately before the outbreak of the English Civil War As the first book to use early seventeenth century legal records outside of Essex The Common Peace adopts an explicitly comparative framework attempting to trace the ways that social conditions influenced legal process as well as law enforcement in various counties By blending social history legal history and political history this volume offers a complement to more conventional studies of legal records and of local government The Estates of the English Crown,

1558-1640 R. W. Hoyle, 2002-08-08 This collection of essays is the first full account of the largest estate in early modern England against which the fortunes of all other estates may be judged Previous accounts have tended to regard the Crown lands as a resource to be plundered by successive monarchs in times of need much of the monastic land confiscated by Henry VIII had been sold by the time of his death and the estates had mostly been liquidated to meet the demands of expenditure by 1640 It is not denied in these essays that the estates suffered from the attrition of periodic sale but the estates are also seen as a continuing enterprise of complexity and sophistication Each essay is concerned with the dialogue between the Exchequer and its local administrators and tenants The success and failure of initiatives launched by the Exchequer is illustrated by examples drawn from many communities throughout England **The Reigns of Charles II and James VII & II** Lionel K.J. Glassey, 1997-03-10 British history in the period from the restoration of 1660 to the revolution of 1688 no less than in other periods has been subject to revisionism This volume examines and analyses some of the challenging new theories relating to politics society religion and culture that have attracted attention in recent years It provides both a wide ranging survey of the principal themes of the post restoration era and a series of insights derived from the detailed research of individual contributors **A History of Lincoln Minster** Dorothy Owen, 1994-04-14 This is an illustrated volume of specially commissioned studies of the history of the cathedral foundation of Lincoln which traces its historical development architectural evolution and musical history from its post Norman foundation to the present day The book synthesises the findings of modern scholarship and presents an important and comprehensible interdisciplinary survey for anyone interested in English cathedral history and architecture and above all for anyone who visits or frequents this great landmark of England's heritage **Revolutionary England, c.1630-c.1660** George Southcombe, Grant Tapsell, 2020-04-22 Revolutionary England c 1630 c 1660 presents a series of cutting edge studies by established and rising authorities in the field providing a powerful discourse on the events crises and changes that electrified mid seventeenth century England The descent into civil war killing of a king creation of a republic fits of military government written constitutions dominance of Oliver Cromwell abolition of a state church eruption into major European conflicts conquest of Scotland and Ireland and efflorescence of powerfully articulated political thinking dazzled bewildered or appalled contemporaries and has fascinated scholars ever since Compiled in honour of one of the most respected scholars of early modern England Clive Holmes this volume considers themes that both reflect Clive's own concerns and stand at the centre of current approaches to seventeenth century studies the relations between language ideas and political actors the limitations of central government and the powerful role of religious belief in public affairs Centred chronologically on Clive Holmes seventeenth century heartland this is a focused volume of essays produced by leading scholars inspired by his scholarship and teaching Investigative and analytical it is valuable reading for all scholars of England's revolutionary period *Charles I and the Aristocracy, 1625-1642* Richard Cust, 2013-06-13 This is a major study of Charles I's relationship with the English aristocracy Rejecting the traditional

emphasis on the Crisis of the Aristocracy Professor Richard Cust highlights instead the effectiveness of the King and the Earl of Arundel's policies to promote and strengthen the nobility He reveals how the peers reasserted themselves as the natural leaders of the political nation during the Great Council of Peers in 1640 and the Long Parliament He also demonstrates how Charles deliberately set out to cultivate his aristocracy as the main bulwark of royal authority enabling him to go to war against the Scots in 1639 and then build the royalist party which provided the means to fight parliament in 1642 The analysis is framed throughout within a broader study of aristocratic honour and the efforts of the heralds to stabilise the social order
