**Trying to Get Over** Keith Corson,2016-03-22 From 1972 to 1976 Hollywood made an unprecedented number of films targeted at black audiences But following this era known as blaxploitation the momentum suddenly reversed for black filmmakers and a large void separates the end of blaxploitation from the black film explosion that followed the arrival of Spike Lee s She s

Gotta Have It in 1986 Illuminating an overlooked era in African American film history Trying to Get Over is the first in depth study of black directors working during the decade between 1977 and 1986 Keith Corson provides a fresh definition of blaxploitation lays out a concrete reason for its end and explains the major gap in African American representation during the years that followed He focuses primarily on the work of eight directors Michael Schultz Sidney Poitier Jamaa Fanaka Fred Williamson Gilbert Moses Stan Lathan Richard Pryor and Prince who were the only black directors making commercially distributed films in the decade following the blaxploitation cycle Using the careers of each director and the twenty four films they produced during this time to tell a larger story about Hollywood and the shifting dialogue about race power and access Corson shows how these directors are a key part of the continuum of African American cinema and how they have shaped popular culture over the past quarter century Updike and Politics Scott Dill,Matthew Shipe,2019-06-27 Presenting the first interdisciplinary consideration of his political thought Updike and Politics New Considerations establishes a new scholarly foundation for assessing one of the most recognized and significant American writers of the post 1945 period This book brings together a diverse group of American and international scholars including contributors from Japan India Israel and Europe Like Updike himself the collection canvases a wide range of topics including Updike s too often overlooked poetry and his single play Its essays deal with not only political themes such as the traditional aspects of power rights equality justice or violence but also the more divisive elements in Updike s work like race gender imperialism hegemony and technology Ultimately the book reveals how Updike s immense body of work illuminates the central political questions and problems that troubled American culture during the second half of the twentieth century as well as the opening decade of the new millennium **Happy Days** Benjamin L. Alpers,2024-01-12 After the techno futurism of the 1950s and the utopian 1960s vision of a great society the 1970s saw Americans turning to the past as a source for both nostalgic escapism and serious reflection on the nation s history While some popular works like Grease presented the relatively recent past as a more innocent time far away from the nation s post Vietnam post Watergate malaise others like Roots used America s bicentennial as an occasion for deep soul searching Happy Days investigates how 1970s popular culture was obsessed with America s past but often offered radically different interpretations of the same historical events and icons Even the figure of the greaser once an icon of juvenile delinquency was made family friendly by Henry Winkler s Fonzie at the same time that he was being appropriated in more threatening ways by punk and gay subcultures The cultural historian Benjamin Alpers discovers similar levels of ambivalence toward the past in 1970s neo noir films representations of America s founding and neo slave narratives by Alex Haley and Octavia Butler By exploring how Americans used the 1970s to construct divergent representations of their shared history he identifies it as a pivotal moment in the nation s ideological fracturing *The Nature and Origins of Mass Opinion Reconsidered* Jeffrey Friedman,2016-02-05 In the Nature and Origins of Mass Opinion 1992 John Zaller set out one of the most influential models of opinion formation he presented the public as a

pliable instrument of political elites who are able to garner support simply by sending cues through the mass media telling Republicans or Democrats for example what the Republican or Democratic position is on a given issue Contributors to this volume critically examine Zaller's model and its implications empirical and normative The introduction contrasts two different strands in Zaller's book one of which confines the impact of media messages to politicians cues the other of which emphasizes the impact of journalists interpretive frames Other chapters examine whether elite domination of public opinion is desirable and assess how well Zaller's model has withstood two decades of research Zaller himself contributes a long retrospective in which he modifies some claims defends others and sets out a bold new research agenda This book was published as a special issue of *Critical Review A Journal of Politics and Society*      *A Dangerous Mind* W. Marshall

Johnston, Daniel J. Crosby, 2015-06-30 *A Dangerous Mind* is a celebration of the ideas and influence of Delbert L Wiens It contains tributes to him essays inspired by him and some of his unpublished works This effort has been brought together by his students colleagues and friends at the fiftieth anniversary of the publication of his *New Wineskins for Old Wine* which hoped to guide the Mennonite Brethren as they faced the challenges of modernity it has proven useful for other denominations facing similar transitions This year also marks the sixtieth anniversary of Delbert's foundation of the Mennonite mission in Vietnam In addition to celebrating his ideas and influence through our writing we have also endeavored to capture the spirit of his work through art illustrating each section of this volume      **Taking the Air** Paul

Kopas, 2007-12-01 Natural resource management is a major area of Canadian policy as recent literature reveals Yet analysts have devoted little attention to the management of parks and protected areas In *Taking the Air* Paul Kopas takes a comprehensive approach to this aspect of policy debate He scrutinizes the policy making process for national parks since the mid 1950s and interrogates the rationale and policies that have governed their administration Kopas argues that national parks and park policy reflect not only environmental concerns but also the political and social attitudes of bureaucrats citizens interest groups Aboriginal peoples and legal authorities He explores how the goals of each group have been shaped by the historical context of park policy influencing the shape and weight of their contributions      **Progressive Library**

**Organizations** Alfred Kagan, 2015-04-09 This work presents the history and impact of the seven most important progressive library organizations worldwide in Austria Germany South Africa Sweden United Kingdom and two in the United States Each organization is considered within its national context and in fact the English word organization does not quite fit the nature of all of the groups The South African organization LIWO was transitional in that it helped bring South African librarianship from apartheid to majority rule and then disbanded The other organizations or their successors are still working in one form or another Some of the organizations have had or continue to have vibrant local chapters though many of the original activists have recently retired or died The author has interviewed many of them at a time when they were assessing their life work and handing off to new generations      Progressive and Conservative Religious Ideologies Richard Lints, 2016-04-15

This book explores the surprisingly disruptive role of religion for progressive and conservative ideologies in the tumultuous decade of the 1960s. Conservative movements were far more progressive than the standard religious narrative of the decade alleges and the notoriously progressive ethos of the era was far more conservative than our collective memory has recognized. Lints explores how the themes of protest and retrieval intersect each other in ironic ways in the significant concrete controversies of the 1960s: the Civil Rights Movement, Second Feminist Movement, The Jesus Movements and the Anti War Movements and in the conceptual conflicts of ideas during the era: The Death of God Movement, the end of ideology controversy and the death of foundationalism. Lints argues that religion and religious ideologies serve both a prophetic function as well as a domesticating one and that neither conservative nor progressive movements have cornered the market in either direction. In the process, Lints helps us better understand the complex role of religion in cultural formation.

**Transforming Parish Ministry** Jay P. Dolan, 1989      Oklahoma Librarian, 1979      **Yudhoyono Presidency** Edward Aspinall, 2016-04-29

The presidency of Susilo Bambang Yudhoyono 2004-14 was a watershed in Indonesia's modern democratic history. Yudhoyono was not only the first Indonesian president to be directly elected but also the first to be democratically re-elected. Coming to office after years of turbulent transition, he presided over a decade of remarkable political stability and steady economic growth. But other aspects of his rule have been the subject of controversy. While supporters view his presidency as a period of democratic consolidation and success, critics view it as a decade of stagnation and missed opportunities. This book is the first comprehensive attempt to evaluate both the achievements and the shortcomings of the Yudhoyono presidency. With contributions from leading experts on Indonesia's politics, economy and society, it assesses the Yudhoyono record in fields ranging from economic development and human rights to foreign policy, the environment and the security sector.
