## **Seventy Light Years A Life In The Movies:**

*The Dynamic Frame* Patrick Keating, 2019-02-19 The camera's movement in a film may seem straightforward or merely technical. Yet skillfully deployed pans, tilts, dollies, cranes, and zooms can express the emotions of a character, convey attitude, and irony, or even challenge an ideological stance. In *The Dynamic Frame*, Patrick Keating offers an innovative history of the aesthetics of the camera that examines how camera movement shaped the classical Hollywood style. In careful readings of dozens of films, including *Sunrise*, *The Grapes of Wrath*, *Rear Window*, *Sunset Boulevard*, and *Touch of Evil*, Keating explores how major figures such as F. W. Murnau, Orson Welles, and Alfred Hitchcock used camera movement to enrich their stories and deepen their themes. Balancing close analysis with a broader poetics of camera movement, Keating uses archival research to chronicle the technological breakthroughs and the changing division of labor that allowed for new possibilities, as well as the shifting political and cultural contexts that inspired filmmakers to use technology in new ways. An original history of film techniques and aesthetics, *The Dynamic Frame* shows that the classical Hollywood camera moves not to imitate the actions of an omniscient observer but rather to produce the interplay of concealment and revelation that is an essential part of the exchange between film and viewer. [Authorship and Aesthetics in the Cinematography of Gregg Toland](#) Philip

Cowan, 2022-10-03 In this three-part book-length study of the work of Gregg Toland, Philip Cowan explores approaches to co-authorship in collaborative filmmaking to propose new ways of identifying, attributing, and evaluating the creative work of cinematographers. In the first part of the study, Cowan challenges the dominant director-centered auteur approach to film studies, critiquing the historical development of authorship theory and providing a contemporary analysis of the cinematographer's authorial role in creating images that communicate meaning through content and construction. By synthesizing and updating the work of previous film theorists to define the complexities of composition, movement, and lighting, in the second part of the study, Cowan develops a new comprehensive taxonomy of functional and aesthetic elements of the moving image. Finally, by using the co-author approach and the analytical tools developed in part two of the book, Cowan provides an in-depth re-examination of Toland's work, highlighting the historical neglect of the cinematographer's artistic contribution to filmmaking and developing a fresh approach to the analysis of contemporary cinematography in film.

[Empire of Dreams](#) Scott Eyman, 2010-09-07 BEST KNOWN AS THE DIRECTOR of such spectacular films as *The Ten Commandments* and *King of Kings*, Cecil B. DeMille lived a life as epic as any of his cinematic masterpieces. As a child, DeMille learned the Bible from his father, a theology student and playwright who introduced Cecil and his older brother William to the theater. Tutored by impresario David Belasco, DeMille discovered how audiences responded to showmanship, sets, lights, costumes, etc. He took this knowledge with him to Los Angeles in 1913, where he became one of the movie pioneers in partnership with Jesse Lasky and Lasky's brother-in-law, Samuel Goldfish, later Goldwyn. Working out of a barn on streets fragrant with orange blossom and pepper trees, the Lasky company turned out a string of successful silents, most of them

directed by DeMille who became one of the biggest names of the silent era With films such as *The Squaw Man* *Brewster's Millions* *Joan the Woman* and *Don't Change Your Husband* he was the creative backbone of what would become Paramount Studios In 1923 he filmed his first version of *The Ten Commandments* and later a second biblical epic *King of Kings* both enormous box office successes Although his reputation rests largely on the biblical epics he made DeMille's personal life was no morality tale He remained married to his wife Constance for more than fifty years but for most of the marriage he had three mistresses simultaneously all of whom worked for him He showed great loyalty to a small group of actors who knew his style but he also discovered some major stars among them Gloria Swanson Claudette Colbert and later Charlton Heston DeMille was one of the few silent era directors who made a completely successful transition to sound In 1952 he won the Academy Award for Best Picture with *The Greatest Show on Earth* When he remade *The Ten Commandments* in 1956 it was an even bigger hit than the silent version He could act too in Billy Wilder's classic film *Sunset Boulevard* DeMille memorably played himself In the 1930s and 1940s DeMille became a household name thanks to the Lux Radio Theater which he hosted But after falling out with a union he gave up the program and his politics shifted to the right as he championed loyalty oaths and Sen Joseph McCarthy's anticommunist witch hunts As Scott Eyman brilliantly demonstrates in this superbly researched biography which draws on a massive cache of DeMille family papers not available to previous biographers DeMille was much more than his clichéd image A gifted director who worked in many genres a devoted family man and loyal friend with a highly unconventional personal life a pioneering filmmaker DeMille comes alive in these pages a legend whose spectacular career defined an era

studies of war and strife to some of literature's greatest high comedies and domestic dramas Lean imbued all of his films with his unique creative vision Few directors can match Lean's ability to combine narrative sweep and psychological detail and Phillips goes beyond Lean's epics to reveal this unifying characteristic in the director's body of work Beyond the Epic is a vital assessment of a great director's artistic process and his place in the film industry The British monarchy on screen Mandy Merck,2016-02-28 This electronic version has been made available under a Creative Commons BY NC ND open access license Moving images of the British monarchy are almost as old as the moving image itself dating back to an 1895 American drama The Execution of Mary Queen of Scots And from 1896 actual British monarchs appeared in the new animated photography led by Queen Victoria Half a century later the 1953 coronation of Elizabeth II was a milestone in the adoption of television watched by 20 million Britons and 100 million North Americans At the century's end Princess Diana's funeral was viewed by 2.5 billion worldwide In the first book length examination of film and television representations of this enduring institution distinguished scholars of media and political history analyze the screen representations of royalty from Henry VIII to William and Kate Seventeen essays by Ian Christie Elisabeth Bronfen Andrew Higson Karen Lury Glynn Davies Jane Landman and other international commentators examine the portrayal of royalty in the actuality picture the early extended feature amateur cinema the movie melodrama the Commonwealth documentary New Queer Cinema TV current affairs the big screen ceremonial and the post historical boxed set A long overdue contribution to film and television studies this book will be essential reading for scholars and students of British media and political history The Routledge Companion to British Cinema History I.Q. Hunter,Laraine Porter,Justin Smith,2017-01-12 Over 39 chapters The Routledge Companion to British Cinema History offers a comprehensive and revisionist overview of British cinema as on the one hand a commercial entertainment industry and on the other a series of institutions centred on economics funding and relations to government Whereas most histories of British cinema focus on directors stars genres and themes this Companion explores the forces enabling and constraining the film's production distribution exhibition and reception contexts from the late nineteenth century to the present day The contributors provide a wealth of empirical and archive based scholarship that draws on insider perspectives of key film institutions and illuminates aspects of British film culture that have been neglected or marginalized such as the watch committee system the Eady Levy the rise of the multiplex and film festivals It also places emphasis on areas where scholarship has either been especially productive and influential such as in early and silent cinema or promoted new approaches such as audience and memory studies **Destination London** Tim Bergfelder,Christian Cargnelli,2008-08-01 The legacy of emigrants in the British film industry from the silent film era until after the Second World War has been largely neglected in the scholarly literature Destination London is the first book to redress this imbalance Focusing on areas such as exile genre technological transfer professional training and education cross cultural exchange and representation it begins by mapping the reasons for this neglect before examining the contributions made to British cinema

**British Cinema of the 1950s** Sue Harper, Vincent Porter, 2003-09-11 In this definitive and long awaited history of 1950s British cinema Sue Harper and Vincent Porter draw extensively on previously unknown archive material to chart the growing rejection of post war deference by both film makers and cinema audiences Competition from television and successive changes in government policy all forced the production industry to become more market sensitive The films produced by Rank and Ealing many of which harked back to wartime structures of feeling were challenged by those backed by Anglo Amalgamated and Hammer The latter knew how to address the rebellious feelings and growing sexual discontents of a new generation of consumers Even the British Board of Film Censors had to adopt a more liberal attitude The collapse of the studio system also meant that the screenwriters and the art directors had to cede creative control to a new generation of independent producers and film directors Harper and Porter explore the effects of these social cultural industrial and economic changes on 1950s British cinema
