Ross, 2020-06-30 This path breaking book reveals how Hollywood became Hollywood and what that meant for the politics of America and American film *Working Class Hollywood* tells the story of filmmaking in the first three decades of the twentieth century a time when going to the movies could transform lives and when the cinema was a battleground for control of American consciousness Steven Ross documents the rise of a working class film movement that challenged the dominant political ideas of the day Between 1907 and 1930 worker filmmakers repeatedly clashed with censors movie industry leaders and federal agencies over the kinds of images and subjects audiences would be allowed to see The outcome of these battles was critical to our own times for the victors got to shape the meaning of class in twentieth century America Surveying several hundred movies made by or about working men and women Ross shows how filmmakers were far more concerned with class conflict during the silent era than at any subsequent time Directors like Charlie Chaplin D W Griffith and William de Mille made movies that defended working people and chastised their enemies Worker filmmakers went a step further and produced movies from *A Martyr to His Cause* 1911 to *The Gastonia Textile Strike* 1929 that depicted a unified working class using strikes unions and socialism to transform a nation J Edgar Hoover considered these class conscious productions so dangerous that he assigned secret agents to spy on worker filmmakers Liberal and radical films declined in the 1920s as an emerging Hollywood studio system pressured by censors and Wall Street investors pushed American film in increasingly

conservative directions Appealing to people s dreams of luxury and upward mobility studios produced lavish fantasy films that shifted popular attention away from the problems of the workplace and toward the pleasures of the new consumer society While worker filmmakers were trying to heighten class consciousness Hollywood producers were suggesting that class no longer mattered Working Class Hollywood shows how silent films helped shape the modern belief that we are a classless nation     The Gathering and The Event MH Anderson,2014-07-19 A group of Christians in northern Minnesota begin to sort through a Biblical framework to deal with events taking place in the country and the world As events transpire they make radical lifestyle changes to be a step ahead of what unfolds It is an action packed novel placing you in the middle of global intrigue and Biblical prophesy     **Kaiju Unleashed** Shawn Pryor,2024-10-29 Celebrate the world of movie monsters and beasts with Kaiju Unleashed a complete reference guide to strange creatures in film and how they came to be Kaiju Japanese for strange creature is a film genre that emerged in Japan in the early 50s The movies center on giant monsters battling humans machines or other beasts This film category has stomped its way back into mainstream culture This comprehensive guide features A thorough discussion of monster movies Gamera Rodan Destroy All Monsters Insight into how kaiju has impacted international films Ant Man 50 Foot Woman Jurassic Park Stunning movie posters and film stills plus fan made tributes to some of the kaiju classics Godzilla King Kong Mothra Pacific Rim And more If you are a kaiju fan or are interested in kaiju s cultural influence worldwide this volume provides the perfect general introduction to the genre reference to its film highlights and celebration of its practitioners trends and stories     *The Eagle Has Landed* Neil Clarke,2019-07-18 In celebration of the 50th anniversary of the Apollo 11 landing the endlessly mysterious moon is explored in this reprint short science fiction anthology from award winning editor and anthologist Neil Clarke Clarkesworld The Best Science Fiction of the Year On July 20 1969 mankind made what had only years earlier seemed like an impossible leap forward when Apollo 11 became the first manned mission to land on the moon and Neil Armstrong the first person to step foot on the lunar surface While there have only been a handful of new missions since the fascination with our planet s satellite continues and generations of writers and artists have imagined the endless possibilities of lunar life From adventures in the vast gulf of space between the earth and the moon to journeys across the light face to the dark side to the establishment of permanent residences on its surface science fiction has for decades given readers bold and forward thinking ideas about our nearest interstellar neighbor and what it might mean to humankind both now and in our future The Eagle Has Landed collects the best stories written in the fifty years since mankind first stepped foot on the lunar surface serving as a shining reminder that the moon is and always has been our most visible and constant example of all the infinite possibility of the wider universe Table of Contents Introduction Bagatelle by John Varley The Eve of the Last Apollo by Carter Scholz The Lunatics by Kim Stanley Robinson Griffin s Egg by Michael Swanwick A Walk in the Sun by Geoffrey A Landis Waging Good by Robert Reed How We Lost the Moon by Paul McAuley People Came From Earth by Stephen Baxter Ashes and

**Cinema Treasures** Ross Melnick, Andreas Fuchs, 2004 More than 100 years after the first movie delighted audiences movie theaters remain the last great community centers and one of the few amusements any family can afford While countless books have been devoted to films and their stars none have attempted a truly definitive history of those magical venues that have transported moviegoers since the beginning of the last century In this stunningly illustrated book film industry insiders Ross Melnick and Andreas Fuchs take readers from the nickelodeon to the megaplex and show how changes in moviemaking and political social and technological forces e g war depression the baby boom the VCR have influenced the way we see movies Archival photographs from archives like the Academy of Motion Picture Arts and Sciences and movie theater ephemera postcards period ads matchbooks and even a barf bag sourced from private collections complement Melnick s informative and engaging history Also included throughout the book are Fuchs profiles detailing 25 classic movie theaters that have been restored and renovated and which continue to operate today Each of these two page spreads is illustrated with marvelous modern photographs many taken by top architectural photographers The result is a fabulous look at one way in which Americans continue to come together as a nation A timeline throughout places the developments described in a broader historical context We ve had a number of beautiful books about the great movie palaces and even some individual volumes that pay tribute to surviving theaters around the country This is the first book I can recall that focuses on the survivors from coast to coast and puts them into historical context Sumptuously produced in an oversized format on heavy coated paper stock this beautiful book offers a lively history of movie theaters in America an impressive array of photos and memorabilia and a heartening survey of the landmarks in our midst from the majestic Fox Tucson Theatre in Tucson Arizona to the charming jewel box that is the Avon in Stamford Connecticut I don t know why but I never tire of gazing at black they evoke the era of moviemaking and moviegoing I care about the most and this book is packed with them Cinema Treasures is indeed a treasure and a perfect gift item for the holiday season Leonard MaltinHumble or grandiose stand alone or strung together movie theaters are places where dreams are born Once upon a time they were treated with the respect they deserve In their heyday historian Ross Melnick and exhibitor Andreas Fuchs write in Cinema Treasures openings of new motion picture pleasure palaces that would have dazzled Kubla Khan received enormous attention in newspapers around the country On top of the publicity they generated their debuts were treated like the gala openings of

new operas or exhibits with critics weighing in on everything from the interior and exterior design to the orchestra. Handsomely produced and extensively illustrated, *Cinema Treasures* is detailed without being dull and thoroughly at home with this often neglected subject matter. Its title would have you believe it is a celebration of the golden age of movie theaters. But this book is something completely different: an examination of the history of movie exhibition, which the authors accurately call a vastly under-researched topic. *Los Angeles Times*

**The History of American Literature on Film**  
Thomas Leitch, 2019-06-13 From William Dickson's *Rip Van Winkle* films (1896) to Baz Luhrmann's big budget production of *The Great Gatsby* (2013) and beyond, cinematic adaptations of American literature participate in a rich and fascinating history. Unlike previous studies of American literature and film, which emphasize particular authors like Edith Wharton and Nathaniel Hawthorne, particular texts like *Moby-Dick*, particular literary periods like the American Renaissance, or particular genres like the novel, this volume considers the multiple functions of filmed American literature as a cinematic genre in its own right, one that reflects the specific political and aesthetic priorities of different national and historical cinemas, even as it plays a decisive role in defining American literature for a global audience.

*Iron Sky - The book based on the movie* Ilsa von Braunfels, 2012-12-14 Just before the end of World War II, the Nazis managed to reach the moon aboard huge flying disks, the so-called Reichsflugscheiben, and settled on the dark side of the moon. When they are discovered by an American moon landing in 2018, the Nazis decide that the time has come to reach out for world domination once more. The destiny of humankind rests on the shoulders of Renate Richter, a teacher who is deeply committed to Nazi ideology. However, after she arrives on Earth, Renate soon realizes that her entire life has been blinded by a lie. How is she supposed to stop her power-hungry fiancé Klaus Adler and his gigantic space ship, the *Götterdämmerung*?

**Historic Theaters of New York's Capital District**  
John A. Miller, 2018-05-14 Experience the architecture and colorful history of the Historic Theaters of New York's Capital District as author John A. Miller charts the entertaining history. For generations, residents of New York's Capital District have flocked to the region's numerous theaters. The history behind the venues is often more compelling than the shows presented in them. John Wilkes Booth brushed with death on stage while he and Abraham Lincoln were visiting Albany. The first exhibition of broadcast television was shown at Proctor's Theater in Schenectady, although the invention ironically contributed to the downfall of theaters across the nation. A fired manager of the Green Street Theatre seized control of the theater with a group of armed men, but Albany police stormed the building and the former manager regained control.

**Alien Contact** Marty Halpern, 2011-11-01 Are we alone? From *War of the Worlds* to *Invasion of the Body Snatchers*, *ET* to *Close Encounters*, creators of science fiction have always eagerly speculated on just how the story of alien contact would play out. Editor Marty Halpern has gathered together some of the best stories of the last 30 years by today's most exciting genre writers, weaving a tapestry that covers a broad range of scenarios, from the insidious to the violent to the transcendent.

The ABC Movie of the Week Michael McKenna, 2013-08-22 On September 23, 1969, five years after the first made-for-

television movie premiered the ABC network broadcast *Seven in Darkness*. This was the first television film for an anthology show called the Tuesday Night Movie of the Week. Dedicating ninety minutes of weekly airtime to a still emerging genre was a financial risk for the third place network, a risk that paid off. The films were so successful that in 1972 the network debuted *The Wednesday Movie of the Week*. Although most of the movies are no longer remembered, a handful are still fondly recalled by viewers today, including *Duel*, *Brian's Song*, and *The Night Stalker*. The series also showcased pilot films for many eventual series such as *Alias Smith and Jones*, *The Six Million Dollar Man*, and *Starsky and Hutch*. By the end of both shows' regular runs in the spring of 1975, the network had broadcast more than 200 made-for-television films. In *The ABC Movie of the Week: Big Movies for the Small Screen*, Michael McKenna examines this programming experiment that transformed the television landscape and became a staple of broadcast programming for several years. The author looks at how the revolving films showcased the right mixture of romantic comedy, action, horror, and social relevance to keep viewers interested week after week. McKenna also chronicles how the ratings success led to imitations from the other networks, resulting in a saturation of television movies. As a cultural touchstone for millions who experienced the first run and syndicated versions of these films, *The ABC Movie of the Week* is a worthy subject of study. Featuring a complete filmography of all 240 movies with credit information and plot summaries, a chronology, and a list of pilots both failed and successful, this volume will be valuable to television historians and scholars as well as to anyone interested in one of the great triumphs of network programming.

Highlighting the great films set in the Big Apple since the dawn of cinema to the present, *Cinematic Cities: New York City* is both a trove of information—including behind-the-scenes stories and trivia—and a practical guide full of tips on where to go, eat, drink, shop, and sleep to follow along the path of your favorite films set in NYC. Organized by neighborhood and featuring photographs and illustrated maps throughout, this is a love letter to the city and a one-of-a-kind history of the movies. Featured films and locations include *The Godfather*, *The Seven Year Itch*, *King Kong*, *North by Northwest*, *On the Town*, *West Side Story*, *When Harry Met Sally*, the films of Woody Allen, and scores of others. **The Glitter Dome** Joseph Wambaugh, 2011-11-29 A New York Times bestselling police thriller by the author of *Harbor Nocturne*. Two LAPD detectives look into the murder of a Hollywood studio boss. It's the wildest bar in Chinatown, run by a proprietor named Wing, who will steal your bar change every chance he gets. On payday, the groupies mingle there with off-duty LAPD cops, including homicide detectives Martin Welborn and Al Mackey, who get assigned the case of a murdered Hollywood studio boss who may have been involved in some very strange and dangerous filmmaking. Hilarious at times, heartbreaking at others, this book was likened by the *New York Daily News* to a one-two combination that leaves the reader reeling. **Reacher: Killing Floor (Movie Tie-In)** Lee Child, 2021-12-28 THE FIRST NOVEL IN LEE CHILD'S 1 NEW YORK TIMES
