Donahue, 1998 A textbook for students in Japanese communication or international studies assuming no previous background in Japanese language or culture Donahue Japanese studies Nagoya Gakuin U Japan first surveys the perceptual barriers to communicating between Japan and North America then examines the Japanese communication style differences in discourse and images of the Japanese in the mass media Annotation copyrighted by Book News Inc Portland OR *Guns in American Society* Gregg Lee Carter, 2012-05-04 Thoroughly updated and greatly expanded from its original edition this three volume set is the go to comprehensive resource on the legal social psychological political and public health aspects of guns in American life The landmark 2002 edition of *Guns in American Society* An Encyclopedia of History Politics Culture and the Law was acclaimed for helping readers get beyond the sometimes overheated rhetoric and navigate the overwhelming amount of unbiased academic research on gun related issues Now in light of the steady rate of gun violence and several high profile shooting incidents this extraordinary three volume work returns in a timely and thoroughly updated edition With over 100 new entries the latest edition of *Guns in American Society* is the most current resource available on all aspects of the gun issue including rates of violence gun control gun rights regulations and legislation court decisions pro and anti gun organizations gun ownership hunters and collectors public opinion toward guns and much more With expert contributions from the fields of criminology history law medicine politics and social science it gives students journalists policymakers and researchers a foundation for their own investigations while helping readers of all kinds make decisions as family members potential gun owners and voters Theology in Japan J. Nelson Jennings, 2005 Japanese Christian leader Takakura Tokutaro 1885 1934 is the focus of this exhaustive historical and theological study Takakura s life spanned a critical period in developing Japan a new member of the modern family of nations At the age of 21 through the preaching of the immensely influential church leader Uemura Masahisa Takakura converted to the Christian faith He later spent over two years in the West reading extensively in British and German theology Takakura thus faced the challenge of absorbing numerous lines of influence and re articulating the Christian faith within his own generation s distinctly Japanese linguistic and religio cultural context His personal religious experience was a microcosm of the universalization of Christian theology during the nineteenth and twentieth centuries Despite having played important leadership roles within the Protestant Church in Japan during the 1920s and early 1930s Takakura s name is scarcely known outside limited Japanese theological circles This study lends recognition to his influential role in the Christian Church It also utilizes Takakura s example to provide

further insight into the universalizing trend in Christian thought that continues even today **Riding the Black Ship** Aviad E. Raz, 2020-03-23 In 1996 over 16 million people visited Tokyo Disneyland making it the most popular of the many theme parks in Japan Since it opened in 1983 Tokyo Disneyland has been analyzed mainly as an example of the globalization of the American leisure industry and its organizational culture particularly the company manual By looking at how Tokyo Disneyland is experienced by employees management and visitors Aviad Raz shows that it is much more an example of successful importation adaptation and domestication and that it has succeeded precisely because it has become Japanese even while marketing itself as foreign Rather than being an agent of Americanization Tokyo Disneyland is a simulated America showcased by and for the Japanese It is an America with a Japanese meaning **Linking Community and Corrections in Japan** Elmer Hubert Johnson, Carol H. Johnson, 2000 COMPLETING ELMER H JOHNSON S impressive three volume examination of corrections in Japan *Linking Community and Corrections in Japan* written with the assistance of Carol H Johnson focuses on the Rehabilitation Bureau s responsibilities regarding probation parole and aftercare as well as the Correction Bureau s role in Japan s version of community oriented corrections In *Linking Community and Corrections in Japan* Johnson first outlines the tasks of the Rehabilitation Bureau then turns to historic and contemporary views of community and corrections In discussions of the probation and parole system for both adults and juveniles he describes in detail the Japanese version of supervision and the return of prisoners to the community One strength of this study is Johnson s impartiality As an investigator he functions as a friend of the court an adviser who is free to conduct an objective pursuit of the fundamental strengths and shortcomings of the Japanese prison system He also follows the Foucauldian dictum With the prisons there would be no sense of limiting oneself to discourses about prisons just as important are the discourses which arise within the prison the decisions and regulations which are among its constituent elements its means of functioning along with its strategies Johnson provides sixty tables two charts and nineteen black and white illustrations *East Asia's Strategic Advantage in the Middle East* Shirzad Azad, 2021-05-07 The modern trajectory of Middle Eastern East Asian interactions has garnered very little scholarly attention and scrutiny The two way connection between both regions have witnessed a litany of activities and developments over the past several decades but such dynamics are yet to be investigated sufficiently in tandem with their overall impacts on the world s safety and well being Aiming to fill part of this acute research gap *East Asia's Strategic Advantage in the Middle East* concentrates primarily on different aspects of East Asia s modern relationship with the Middle East by turning the spotlight on strategic advantages of East Asian countries in critical areas in the region Over the past several years there have been a slew of talks and debates about the formation of strategic ties between the East Asian states and their counterparts across the Middle East region However East Asia s advantage of strategic nature has been there for decades shaping the contours of an increasingly multifaceted chain of interactions involving the two sides The more other stakeholders Western powers in particular made serious attempts to secure their

precious assets in the Middle East the larger East Asia's strategic advantage in the region grew *Civil Society, Religion, and the Nation*, 2022-05-20 Japan, Russia and Turkey are major examples of countries with different ethnic, religious and cultural background that embarked on the path of modernization without having been colonized by a Western country. In all three cases, national consciousness has played a significant role in this context. The project of Modernity is obviously of European origin, but is it essentially European? Does modernization imply loss of a country's cultural or national identity? If so, what is the fate of the modernization process in these cases? The presence of the idea and reality of civil society can be considered a real marker of Modernity in this respect because it presupposes the development of liberalism, individualism and human rights. But are these compatible with nationalism and with the idea of a national religion? These questions are the more pressing as Japan is considered part of the Western world in many respects and Russia and Turkey are defining their relation to the European Union in different ways. An investigation of these three countries set off against more general reflections sheds light on the possibilities or limitations of modernization in a non-European context.

Japan at Play Joy Hendry, 2005-08-10 This book explores the myth so abused by the mass media that the Japanese are a grey anonymous mass of efficient obedient workers. The articles shed light on a Japan outside officialdom: a lively Japan of tumultuous and independent thought, inefficient and aesthetic pleasure loving, aggressive and wasteful, creative and anti-authoritarian. The book's truly international contributors examine the role in modern Japanese society of a range of leisure and play activities from drinking to travel, football to karaoke, tattoos to rock fandom. They explore how things which seem like play in one context are deadly serious in another and how the fun and enjoyment may be achieved in unexpected ways. They also draw attention to the importance of such activities in understanding the deeper structure and meaning pervading all areas of the society in which they take place. This book will be of great interest to students and scholars of Japanese Studies, Sociology, Anthropology and Cultural Studies.

East-West Dialogue in Knowledge and Higher Education Ruth Hayhoe, Julia Pan, 2016-09-16 This work is a dialogue on alternative approaches to knowledge and higher education characteristic of the Western University. Western scholars approach these issues from the viewpoint of the challenges facing the university and Eastern contributors explore parallel issues in their societies.

Bending Adversity David Pilling, 2015-02-24 An excellent book. The Economist Financial Times Asia editor David Pilling presents a fresh vision of Japan drawing on his own deep experience as well as observations from a cross section of Japanese citizenry including novelist Haruki Murakami, former prime minister Junichiro Koizumi, industrialists and bankers, activists and artists, teenagers and octogenarians. Through their voices Pilling's *Bending Adversity* captures the dynamism and diversity of contemporary Japan. Pilling's exploration begins with the 2011 triple disaster of earthquake, tsunami and nuclear meltdown. His deep reporting reveals both Japan's vulnerabilities and its resilience and pushes him to understand the country's past through cycles of crisis and reconstruction. Japan's survivalist mentality has carried it through tremendous hardship but is also the source of great destruction. It was the

nineteenth century struggle to ward off colonial intent that resulted in Japan's own imperial endeavor culminating in the devastation of World War II. Even the postwar economic miracle, the manufacturing and commerce explosion that brought unprecedented economic growth and earned Japan international clout, might have been a less pure victory than it seemed. In *Bending Adversity*, Pilling questions what was lost in the country's blind aborted climb to 1990, the year the economic bubble burst and the beginning of Japan's lost decades, to ask if the turning point might be viewed differently. While financial struggle and national debt are a reality post growth, Japan has also successfully maintained a stable standard of living and social cohesion. And while life has become less certain, opportunities in particular for the young and for women have diversified. Still, Japan is in many ways a country in recovery, working to find a way forward after the events of 2011 and decades of slow growth. *Bending Adversity* closes with a reflection on what the 2012 reelection of Prime Minister Shinzo Abe and his radical antideflation policy might mean for Japan and its future. Informed throughout by the insights shared by Pilling's many interview subjects, *Bending Adversity* rigorously engages with the social, spiritual, financial, and political life of Japan to create a more nuanced representation of the oft-misunderstood island nation and its people. The *Financial Times*'s David Pilling quotes a visiting MP from northern England, dazzled by Tokyo's lights and awed by its bustling prosperity: "If this is a recession, I want one. Not the least of the merits of Pilling's hugely enjoyable and perceptive book on Japan is that he places the denunciations of two allegedly lost decades in the context of what the country is really like and its actual achievements." The *Telegraph*'s UK Pilling, the Asia editor of the *Financial Times*, is perfectly placed to be our guide, and his insights are a real rarity when very few Western journalists communicate the essence of the world's third largest economy in anything but the most superficial ways. Here, there is a terrific selection of interview subjects, mixed with great reportage and fact selection; he does get people to say wonderful things. The novelist Haruki Murakami tells him, "When we were rich, I hated this country." Well-written, valuable. Publishers Weekly starred. A probing and insightful portrait of contemporary Japan. *Japan's "international Youth"* Roger Goodman, 1990. A striking aspect of Japan's growing international activity is the return home each year of thousands of children who have lived abroad as a result of their parents' work. Traditionally, it has been widely believed that these children were stigmatized and that they faced severe problems in adjusting to the realities of living in Japanese society. Drawing on his long-term fieldwork in one of the special schools set up to receive these children, this book is the first to challenge these ideas. Goodman argues that the convergence of several factors, particularly parental status and a powerful new political rhetoric stressing internationalization, is making these returnee children the vanguard of a new social elite. **The Samurai, the Mountie, and the Cowboy** David B. Kopel, 1992. Gun control remains one of the hottest topics on America's agenda. Increased violence, gang wars in metropolitan areas, and the prevalence of guns in the United States frequently bring this debate to new crescendos of public concern. How can we find answers that maintain safety while protecting individual liberty? *The Samurai, The Mountie, and The Cowboy* offers a

compelling look at how other democracies have attempted to solve their own gun problems and what we can learn from these countries
