Years of experience have combined to provide a highly practical reference work covering Models of understanding of personality development and disorder, Methods of assessment and treatment and how they can be applied and modified, Special issues: drug misuse, long stay, induced secondary disorders, issues pertinent to women only, intractable patients, A path for care from initial assessment to the logistics of discharge, Management issues: choosing staff, supervision and support of staff, Evidence based and entirely comprehensive in its approach, practitioners will find *Personality Disorder and Serious Offending* both a practical and insightful adjunct that will assist them in their work.
