The Wallace Collection Rosalind Savill, 1988 **Vienna Circa 1780** Wolfram Koeppe, 2010 Wolfram Koeppe is Curator Department of European Sculpture and Decorative Arts The Metropolitan Museum of Art Book Jacket Becoming a Woman in the Age of Letters Dena Goodman, 2009 In 18th century France letter writing became extremely fashionable particularly amongst women In this work Dena Goodman opens up the world of these women through the letters which they wrote Concentrating on the letters of four women from different social backgrounds she shows how they came to womanhood through their writing **Precious Porcelain** Henry Jeffs, In the quiet hills of Jingdezhen China over a thousand years ago a remarkable transformation began to take place Skilled artisans discovered that by combining specific types of clay with carefully controlled fire they could create something extraordinary a material so pure so luminous that it seemed almost

magical This was the birth of true porcelain a substance that would captivate the world and become synonymous with elegance refinement and artistic achievement The story of porcelain begins with kaolin a pure white clay formed by the weathering of feldspar rich granite Named after the hill Kao ling in China where it was first discovered this clay possesses unique properties that make porcelain possible When combined with petuntse a feldspathic rock that serves as the flux and fired at temperatures exceeding 1 200 degrees Celsius these humble earth materials undergo a metamorphosis that creates the translucent resonant material we know as porcelain The Chinese closely guarded the secrets of porcelain production for centuries creating what Europeans would later call white gold The process required not just the right materials but an intricate understanding of fire timing and atmospheric conditions within the kiln Master potters developed techniques passed down through generations each workshop maintaining its own closely held methods for achieving the perfect balance of strength and delicacy
