Sex Roles In The State House:

Sisters in the Statehouse Nadia E. Brown, 2014 Theories of descriptive representation among female legislators consistently document the ways in which women are marginalized in office. However, they tend to treat identity as constant over time and context and so fail to account for the substantive work of legislators. *Sisters in the Statehouse* looks at the situation from a different angle, taking an in-depth look at African American female state legislators to examine the impact of race and gender on Black women's political experiences, policy preferences, and legislative influence. Brown links personal narratives to the political behavior of her interview subjects to understand how their experiences with racism and sexism have influenced their legislative decision making and policy preferences. As such, this is the first study that empirically examines how difference is recognized and put into practice among Black women legislators. Brown demonstrates that identity influences political decision making in ways that distinguish the work of Black women from that of other state legislators. *Sisters in the Statehouse* is a groundbreaking inquiry into how an intersectional approach can enhance our understanding of political representation.

Women Officeholders and the Role Models Who Pioneered the Way Karen Owen, 2016-12-12 Recent electoral seasons in American politics demonstrate women's keen interest, involvement, and influence as candidates and officeholders. Women possess political ambition, albeit in varying degrees, and as such women seek opportunities to be politically engaged and affect America's representative institutions. This book analyzes why American women run for political office and explores how political role models, identified as publicly elected officials and/or those who have served in the political arena, have greatly motivated women to run for higher political office, including seats in the U.S. Congress and state governorships. Evidence from personal interviews with ten congresswomen and fifty-five female state legislators reveals the ambitious nature of female politicians, the encouragement of political factors in their decisions to advance in politics, and their perceived responsibility to be role models to other women. Moreover, in studying thirty-five years of elections data, I find substantial support for how female political role models influence female state legislators' candidacies and electoral outcomes to higher office. This work highlights the importance of women as symbolic representatives; female politicians are instrumental in emboldening a new generation of women to engage in politics. Role models in politics indeed have a purpose and an influential nature.

The Politics of Professionalism, Opportunity, Employment, and Gender Sarah Slavin, 1987 This dynamic volume illustrates the expanded notion of political that has evolved as a result of the women's movement. Rich in analysis and description, the chapters offer clear-cut policy proposals and new conceptualizations of organizational frameworks and concepts that have consequence for the lives of women and men in such areas as the staging of careers, the division of labor in family and professional settings, and nepotism. Contributors focus on the interconnections between traditional political behavior and the larger social context in which it is played out. *The Politics of Professionalism, Opportunity, Employment, and Gender* presents a current and realistic picture of the complexity of the political processes and

a better sense of the less obvious elements that determine the political process *Women as Candidates in American Politics* Susan J. Carroll, 1994-05-22 In this second edition Susan Carroll updates her pioneering study of women candidates and their campaigns in the aftermath of the Year of the Woman Although in many regards the political climate has become vastly more favorable for female candidates opportunities are still limited by the political structure Carroll examines a number of possible reforms and actual developments which may eventually mean larger numbers of women being elected to public office Women and American Politics Susan J. Carroll, 2003 This volume brings together leading scholars in the field of women and politics to provide an account of recent developments and the challenges that the future brings for women in American Politics The book examines women's participation in the electoral arena and the emerging scholarship on the relationship between the media and women in politics the participation of women of colour and women's activism outside the electoral arena This volume demonstrates both the wealth of knowledge about women and American politics by the current generation of scholars and the vast number and range of important research questions which pose a challenge for the next generation The Impact of Women in Public Office Susan J. Carroll, 2001-11-12 A well integrated volume by one of the best known political scientists working on women and politics It includes contributions by leading scholars in the field and provides a well written and accessible overview of the impact of women in office at every level Pippa Norris John F Kennedy School of Government Harvard University This book will be the standard bearer not simply because it contains most of the early research in the field but more importantly because of the wide ranging scope and diversity of the research and the subsequently nuanced and contextualized arguments presented Beth Reingold Emory University In recent years the numbers of women serving in public offices at various levels of government have increased markedly Is the increasing presence of women in public office making a difference Are women public officials having a distinctive impact on public policy and the political process These questions are central to the studies in *The Impact of Women in Public Office* These studies examine the impact of women public officials serving in various offices and locales at local state and national levels They are the product of a large coordinated research project sponsored by the Center for American Women and Politics CAWP at Rutgers University and funded by the Charles H Revson Foundation The subjects of these studies range from a single very prominent U S Senator who served in Congress from the early 1940s to the early 1970s to local council members in a New Jersey county in the 1980s They include state legislators from across the country The research presented in this volume offers compelling evidence that women public officials do have a gender related impact on public policy and the political process Nevertheless context matters these studies demonstrate that the impact of women public officials varies considerably across political environments Finally the research in this volume suggests that identification with feminism and or of particular racial or ethnic group also influence how and to what extent women public officials are making a difference Contributors include Edith J Barrett Susan Abrams Beck Janet K Boles Susan J Carroll Debra L Dodson Lyn Kathlene Elaine Martin Nancy E McGlen

Meredith Reid Sarkees Janann Sherman Sue Thomas Sue Tolleson Rinehart and Susan Welch *Women, the State, and Development* Sue Ellen M. Charlton, Jana Matson Everett, Kathleen A. Staudt, 1989-07-15 This book reflects the most current scholarship on states socioeconomic development and feminist theory to emerge this decade Addressed are issues such as the role of state policies and ideologies in defining gender differences state influence over the boundaries between public and domestic spheres state control over women s productive and reproductive lives and the efforts of women to influence state policy *Women the State and Development* shows that state elites promote male domination as one way of maintaining social order when nation states are created and strengthened and that issues defined as male by the sexual division of labor are given priority in state policies that promote security and economic development such as foreign policy international trade agricultural development and resource extraction It analyzes these policies in terms of their impact on gender relations and also identifies ways in which women have responded **Gender Consciousness and Politics** Sue Tolleson

Rinehart, 2013-10-31 This book examines the emergence of gender consciousness among women as a significant force in American politics The author bases her argument on an in depth empirical analysis of data derived from the U S biennial National Election studies of 1974 to 1984 the year of the emergence of the so called gender gap The author discusses the fact that while feminism is central to womens political orientation the simple awareness of gender differences and group consciousness is a powerful force of change **A Woman's Place Is in the House** Barbara Burrell, 2010-05-07 In this first comprehensive examination of women candidates for the U S House of Representatives Barbara Burrell argues that women are as successful at winning elections as men Why then are there still so few women members of Congress Compared to other democratically elected national parliaments the U S Congress ranks very low in its proportion of women members During the past decade even though more and more women have participated in state and local governments they have not made the same gains at the national level *A Woman's Place Is in the House* examines the experiences of the women who have run for a seat in the U S House of Representatives from 1968 through 1992 and compares their presence and performance with that of male candidates The longitudinal study examines both general and primary elections and refutes many myths associated with women candidates including their ability to raise money and garner support from both interest groups and political parties According to Burrell election year 1992 was correctly dubbed the Year of the Woman in American politics not so much because women overcame perceived barriers to being elected but because for the first time a significant number of women chose to run in primaries Burrell s study examines the effects women are having on the congressional agenda and offers insight on how such issues as term limitations and campaign finance reform will impact on the election of women to Congress Barbara Burrell Ph D University of Michigan is professor and director of graduate studies in the Political Science Department at Northern Illinois University where she teaches courses in public opinion political behavior and women and politics *Breaking the Political Glass Ceiling* Barbara Palmer, Dennis Simon, 2010-11-01 Why has the integration of women

into Congress been so slow Is there a political glass ceiling for women Although women use the same strategic calculations as men to decide when to run the decision regarding where to run is something else While redistricting has increasingly protected incumbents it also has the unintended consequence of shaping the opportunities for female candidates The political geography and socio economic profile of districts that elect women differ substantially from districts that elect men With data on over 10 000 elections and 30 000 candidates from 1916 to the present Palmer and Simon explore how strategy and the power of incumbency affect women s decisions to run for office Breaking the Political Glass Ceiling is the most comprehensive analysis of women in congressional elections available The Second Edition is fully updated to reflect the pivotal 2006 mid term elections including Nancy Pelosi s rise to Speaker of the House Hillary Clinton s bid for the presidency and a record number of women serving as committee chairs Additionally the authors have created a website found at politicsandwomen.com to highlight key features of the book and provide updates throughout the election cycle

Presidential Cabinets Maria C. Escobar-Lemmon,Michelle M. Taylor-Robinson,2016-07-01 Though parity is still rare presidential cabinets contain more women than ever before Who are these women and what types of political capital resources do they bring to the administration Are they new types of political players or very much like the men who have traditionally run the government And once they gain office are they treated equally in the cabinet Do they have the capacity to be as effective as their male counterparts Drawing on data from five presidential democracies Argentina Chile Colombia Costa Rica and the United States Women in Presidential Cabinets examines the backgrounds connections and credentials of all full rank cabinet ministers in presidential administrations over the course of two decades to determine if women and men bring similar numbers and diversity of political capital resources to the administration Maria C Escobar Lemmon and Michelle M Taylor Robinson find that with a few notable exceptions presidents select men and women with similar work and education backgrounds political experience and linkages to related interest groups There are however differences across

types of posts and countries They evaluate the treatment and effectiveness of similarly credentialed male and female ministers on four benchmarks Specifically they examine whether women with equal qualifications can really obtain all posts or whether glass ceilings persist in some areas They then turn to the ability of women to hold onto a post considering the nature and circumstances surrounding their departures from office and how long they remain in office In doing so they uncover evidence that female ministers in Latin America stand on an unequal playing field when it comes to the ability to enact policy through legislation Ultimately Escobar Lemmon and Taylor Robinson show conclusively that while women lack numerical equality they are no longer tokens instead appearing positioned to exercise power at the highest levels within the executive branch

Gender Transformations Sylvia

Walby,2003-09-02 The answer of course is both In this lucid and subtle investigation Sylvia Walby one of the world s leading authorities on gender shows how undoubted increases in opportunity for women in Europe and America have been accompanid by new forms of inequality She charts changes in women s employment education and political representation and the complex relations between gender class and ethnicity between local conditions and global pressures which together determine the place of women both in the labour market and in the wider social political and economic world of today An eagerly awaited successor to Walby s classic Theorising Patriarchy Transforming Gender will be essential reading for anyone with an interest in how questions of gender remake and are remade by the social and economic conditions in which they occur
