Sex Sin And Blasphemy A Guide To Americas Censorship Wars:

Sex, Sin, and Blasphemy Marjorie Heins, 1993-08-01 An updated edition of the highly praised primer on censorship art and popular culture from the founding director of the Arts Censorship Project of the ACLU

Sex, Sin, and Blasphemy Marjorie Heins, 1993 Sex Sin and Blasphemy is a lively lucid primer on censorship art and popular culture It is also the product of several years on the front lines of the culture wars it describes In this book Marjorie Heins founding director of the Arts Censorship Project of the American Civil Liberties Union uses her considerable expertise to help provide a sensible coherent account of some of the most hotly contested issues of the 1990s For all the recent talk about censorship until now there has been no comprehensive summary of either the legal underpinnings of the assaults on free expression or their social implications Which laws do self styled censors rely on How are record labeling movie ratings and attacks on museums related How can a concerned citizen make sense of genuinely confusing issues that seem to pit the rights of taxpayers against those of artists Using examples from current and historic court cases and public debates Heins reveals the strategies used by prosecutors and special interest groups and explains why efforts to suppress artistic expression on painful or offensive subjects won t help solve the problems that beset society today No other book offers such an accessible summary or such keen insights into America s struggle over free expression

[The V-chip Debate](#) Monroe E. Price, 2013-11-26 The V chip is a highly significant part of the discussion about whether television or broadcasting in general deserves some special attention in

terms of its accessibility to children its particular power to affect conduct and its invasiveness But as this notion of filtering and labeling has caught the imagination of the regulator the legislator and all those who wish to consider new ways to alter bargaining over imagery in society the very idea of the V chip or its equivalent is moving across other technologies including the Internet The V chip issue has also fueled the ongoing debate about violence and sexual practices in society and how representations on television relate to those practices Although the initial concept of the V chip is simple its flow into the public realm raises so many extraordinary questions that the introduction and production of the chip virtually serves as a case study in problems of law and public policy The very conceptualization of speech in society is being affected by this issue Accordingly the place of the V chip in this debate is increasingly important indeed it may be argued that the V chip's contribution to legal argumentation may be greater than its ultimate contribution to the relationship between children and imagery Among the questions the contributors address are What research basis is necessary to require a framework for labeling and rating What relationship between government and the image producing industries can be characterized for constitutional and other reasons as voluntary as opposed to coercive Who should evaluate these images To what extent should the evaluation process be centralized and or distributed What assessment is appropriate to evaluate whether the experiment is successful In addition to the V chip's origin's in Canada and its further evolution in the United States this book discusses the development of the V chip and television rating systems in Europe Australia and throughout the world It also includes essays which contrast the very different approaches in Canada and the United States in terms of the role of regulatory agency industry and government

The Death Of Discourse Ronald K L Collins, David M Skover, 2019-09-12 In this innovative book the authors persuasively argue that the First Amendment to the Constitution has risen in the late twentieth century like an ill guided individual with knife in hand to murder a longstanding tradition of fine and meaningful discourse in the United States We are bombarded with the cacophony of advertisement the luridity of pornography and the pointlessness of prime time poor substitutes for intelligent consideration of ideas In this innovative book the authors persuasively argue that the First Amendment to the Constitution has risen in the late twentieth century like an ill guided individual with knife in hand to murder a long standing tradition of fine and meaningful discourse in the United States What has died is the essential kind of political discourse which promotes democracy informs citizens enlivens debate and carries reason method and purpose Instead we are bombarded with the cacophony of advertisement the luridity of pornography and the pointlessness of prime time With satirical spirit and wit yet to a very serious purpose the narrative of this lively study calls upon many of the very tricks it criticizes The text is augmented by amusing tales poetry tv zaps eyebites and boxes of aphorisms resonating between high and low culture between Plato and Geraldo and Madonna and Mahler to make its points the discussion reveals how discourse in contemporary America has lost its integrity and its soul

Blasphemy in the Christian World David Nash, 2010-09-16 Tracing the subject from the Middle Ages to the present David Nash outlines the

history of blasphemy as a concept from a species of heresy to modern understandings of it as a crime against the sacred and individual religious identity Investigating its appearance in speech literature popular publishing and the cinema he disinters the likely motives and agendas of blasphemers themselves as well as offering a glimpse of blasphemy's victims In particular he seeks to understand why this seemingly medieval offence has reappeared to become a distinctly modern presence in the West

Negotiating the Sacred II Elizabeth Burns Coleman, Maria Suzette Fernandes-Dias, 2008-12-01 Blasphemy and other forms of blatant disrespect to religious beliefs have the capacity to create significant civil and even international unrest Consequently the sacrosanctity of religious dogmas and beliefs stringent laws of repression and codes of moral and ethical propriety have compelled artists to live and create with occupational hazards like uncertain audience response self censorship and accusations of deliberate misinterpretation of cultural production looming over their heads Yet in recent years issues surrounding the rights of minority cultures to recognition and respect have raised new questions about the contemporariness of the construct of blasphemy and sacrilege Controversies over the aesthetic representation of the sacred the exhibition of the sacred as art and the public display of sacrilegious or blasphemous works have given rise to heated debates and have invited us to reflect on binaries like artistic and religious sensibilities tolerance and philistinism the sacred and the profane deification and vilification Endeavouring to move beyond simplistic points about the rights to freedom of expression and sacrosanctity this collection explores how differences between conceptions of the sacred can be negotiated It recognises that blasphemy may be justified as a form of political criticism as well as a sincere expression of spirituality But it also recognises that within a pluralistic society blasphemy in the arts can do an enormous amount of harm as it may also impair relations within and between societies This collection evolved out a two day conference called Negotiating the Sacred Blasphemy and Sacrilege in the Arts held at the Centre for Cross Cultural Research at The Australian National University in November 2005 This is the second volume in a series of five conferences and edited collections on the theme Negotiating the Sacred The first conference Negotiating the Sacred Blasphemy and Sacrilege in a Multicultural Society was held at The Australian National University's Centre for Cross Cultural Research in 2004 and published as an edited collection by ANU E Press in 2006 Other conferences in the series have included Religion Medicine and the Body ANU 2006 Tolerance Education and the Curriculum ANU 2007 and Governing the Family Monash University 2008 Together the series represents a major contribution to ongoing debates on the political demands arising from religious pluralism in multicultural societies

Acts Against God David Nash, 2020-04-13 Blasphemy is a phenomenon that spans human experience from the ancient world right up to today's ferocious religious debates Acts Against God is the first accessible history of this crime its prosecution its impact and its punishment and suppression While acknowledging blasphemy as an act of individuals Acts Against God also considers the act as a widespread and constant presence in cultural political and religious life Beginning in ancient Greece and the genesis of blasphemy's link with the state David Nash moves on to explore blasphemy in the medieval world where it

was used both as an accusation against outsiders and as a method of crusading for piety in the West He considers how the medieval world developed the concept of heresy as a component of disciplining its populations the first coherent phase in state control of belief This phenomenon reached its full flowering in the Reformation where conformity became a fixation of confessional states The Enlightenment created agendas of individual rights where room for religious doubt pushed blasphemy into the twilight as modern humankind hoped for its demise But concluding in the twenty first century Nash shows how individuals and the state alike now seek to adopt blasphemy as a cornerstone of identity and as the means to resist the secularization and globalization of culture
