The First Women Lawyers Mary Jane Mossman, 2006-05-31 This comparative study explores the lives of some of the women who first initiated challenges to male exclusivity in the legal professions in the late nineteenth and early twentieth centuries Their challenges took place at a time of considerable optimism about progressive societal change including new and expanding opportunities for women as well as a variety of proposals for reforming law legal education and standards of legal professionalism By situating women s claims for admission to the bar within this reformist context in different jurisdictions the study examines the intersection of historical ideas about gender and about legal professionalism at the turn of the twentieth century In exploring these systemic issues the study also provides detailed examinations of the lives of some of the first women lawyers in six jurisdictions the United States Canada Britain New Zealand and Australia India and western Europe In exploring how individual women adopted different legal arguments in litigated cases or devised particular strategies to overcome barriers to professional work the study assesses how shifting and contested ideas about gender and about legal professionalism shaped women s opportunities and choices as well as both support for and opposition to their claims As a comparative study of the first women lawyers in several different jurisdictions the book reveals how a number of quite different women engaged with ideas of gender and legal professionalism at the turn of the twentieth century

Sex Discrimination and Promotion Tricia J. Johnson, 1993 **Justice and Gender** Deborah L. Rhode, 1989 This is the first book to provide a comprehensive investigation of gender and the law in the United States Deborah Rhode describes legal developments over the last two centuries against a background of historical and sociological changes in women s activities and attitudes toward these new developments She shows the way cultural perceptions of gender influence and in turn are influenced by legal constructions and what this complicated interaction implies about the possibility or impossibility of using law as a tool of social change

Gender in Practice John Hagan, Fiona Kay, 1995-06-22 In the last thirty years the number of lawyers in the United States and Canada has more than tripled and today as many women as men are entering legal practice The sudden dramatic increase of women in the profession would seem to signify a new era of equality in the legal profession However stereotypes about women s abilities to balance responsibilities at work and home hamper their upward mobility in this male dominated field Battling sexual discrimination women in law grapple with long held assumptions about parenting inferring that women eventually abandon their careers in order to take care of home and children A large percentage of women leave the profession dissatisfied and distressed or seek part time solutions and those women who do stay in practice often find there is a ceiling on their status and monetary compensation Gender in Practice demonstrates and explains how the structure of legal practice has changed in recent decades often to the disadvantage of women The issues addressed here such as conflicts between careers and family departures from practice and barriers to women s promotions and earnings are of great importance to members of the

profession Looking at the careers of both men and women and using information culled from two surveys that include nearly two thousand lawyers this revealing book traces occupational and personal experiences and analyzes these patterns in terms of work and gender The findings are linked to practical proposals for change some of which have already found a place in the profession A major contribution to discussions of sexual equality in the legal workplace Gender in Practice offers detailed insights into the current and future status of women in the law Lawyers law professors and anyone concerned with gender inequality and equal rights will find this to be an interesting and informative work
