Sex Drugs And Aids:

Acting on AIDS Joshua Oppenheimer, Helena Reckitt, 1997 This work stems from an international conference at the Institute of Contemporary Arts in London in collaboration with the Terrence Higgins Trust in March 1996 Contributors come from a range of disciplines such as political medical social artistic and cultural *Sex, Drugs and AIDS* Oralee Wachter, 1990 **Sex, Drugs, And Hiv/aids In Brazil** James Inciardi, Hilary Surratt, Paulo R. Telles, 2018-05-15 At the beginning of the twenty first century Brazil ranked second only to the United States in the number of reported cases of AIDS Because Brazil's extensive poverty and inequality its fragile economic situation and its limited network of health services the scarce prevention intervention resources targeted only the most visible at risk populations gay men sailors prostitutes and street children Virtually forgotten were Brazil's hidden drug users as well as the tens of millions of individuals living in the country's thousands of favelas or shantytowns which are a characteristic part of almost every Brazilian city In *Sex Drugs and HIV AIDS in Brazil* the authors examine the emergence of AIDS in Brazil its linkages to drug use and the sexual culture and its epidemiology in such populations as cocaine users street children and male transvestite prostitutes Special attention is focused on an HIV AIDS community outreach program established in Rio de Janeiro which represented the first such prevention intervention program in all of Brazil targeting indigent cocaine users This 6 year initiative was funded by the U S National Institute on Drug Abuse and carried out by the authors of this book The research combines anthropological sociological and biological perspectives all data were gathered through empirical and ethnographic techniques *Questions and Answers about Sex, Drugs and HIV* Seth C. Kalichman, 2006 Offers teenagers a practical guide to HIV and AIDS in the form of detailed and easy to understand questions and answers Topics dealt with are the relationship between sex drugs and HIV the risk factor HIV testing and ways to prevent HIV and AIDS *Questions and Answers about Sex, Drugs and HIV* Seth C. Kalichman, Clive Evian, 2017 **AIDS Alibis** Stephanie Kane, 2010-07-07 A fresh astute means for debating the issues connecting the AIDS pandemic to government policy and crime in the Americas *Sex, Drugs, and the Continuing Spread of AIDS* Clyde B. McCoy, James A. Inciardi, 1995 The book covers the nature and origins of AIDS its social dimensions and impact on people and institutions and alternatives for reducing the continuing spread of the disease McCoy and Inciardi offer a breadth of perspectives on important issues from a wide array of sources without pitting these viewpoints against each other The chapters largely follow the chronology of the AIDS epidemic Written in plain English the book's direct illustrative style bridges the gap between scholarly literature and the literate lay reader with a tasteful synthesis of information research and themes in popular culture It brings students directly to grips with the AIDS epidemic illustrating that AIDS is not someone else's problem One of the book's strengths is that it not only presents material but actively helps the student make sense of it *Sex Drugs and the Continuing Spread of AIDS* offers an alternative to existing books many of which are edited collections It covers previously ignored topics and includes original field research In the United States men who have sex

with men and injection drug users represent the vast majority of individuals with AIDS while other members of the HIV AIDS caseload reflect relatively small numbers However the heterosexual spread of HIV in the U S is increasing particularly in those cities and communities where rates of injection drug use are high Elsewhere in the world especially in developing nations heterosexual spread is the major route of transmission At issue is the extent to which heterosexual transmission has an impact on the general spread of AIDS During the past decade there have been conflicting arguments in this regard Sex Drugs and the Continuing Spread of AIDS addresses this ongoing debate **Sex, Drugs & HIV**. Oralee Walter,1991 Teens talk about how AIDS is contracted Sex, Drugs and Young People Peter Aggleton,Andrew Ball,Purnima Mane,2013-09-13 Sexual practices and drug use among the young are examined in this book calling into question mainstream assumptions about adolescence Bringing together a range of cross cultural and cross national contributions the book reveals both similarities and important differences that mark sexuality and drug use among young in different social and cultural settings In doing so it allows the reader to build up a clearer understanding of the challenges that must be faced in public health and education if we are to develop programs and interventions that really serve the needs of young people The book will be of interest to professionals working with young people and is suitable for a wide range of multidisciplinary courses covering areas such as human sexuality sex education public health and social work Sex, Drugs, HIV and AIDS. , The Oxfordshire Council on Alcohol and Drug Use OCADU presents information on sex drugs HIV and AIDS HIV is the virus that may lead to the development of AIDS HIV affects the immune system HIV is passed between people through unprotected sexual intercourse or sharing needles and syringes and may be passed from an infected mother to a baby OCADU highlights how to reduce the risk of infection Sex, Drugs & AIDS Bradley Kesden,Oralee Wachter,Lynne Smilow,1987 Offers a candid informative discussion of the dangers of AIDS examining its causes transmission and tragic consequences and answers questions about unsafe sexual and drug related practices **Living in the Shadows of China's HIV/AIDS Epidemics** Shelley Torcetti,2019-07-17 Identifying the existing challenges and shortfalls of China s current HIV AIDS programming this book provides an understanding of the history of HIV AIDS in China comparing government responses to global best practice in prevention and treatment Considering three key populations in China namely female sex workers people who inject drugs and floating migrants Living in the Shadows of China s HIV AIDS Epidemics highlights the effects of high mobility and marginalisation on the spread of HIV in China It is argued that these groups often suffer from stigmatisation and a lack of human security resulting in sub optimal outcomes for HIV AIDS intervention and prevention efforts and the reinforcement of high risk behaviours further contributing to the transmission of the virus to the general population In adding to the emerging body of literature this book further elucidates the myriad of challenges posed by HIV AIDS epidemics allowing sustained engagement and a fresh insight into how governments might respond to the needs of individuals living with HIV AIDS both in China and globally Including case studies which give voice to research participants in a rich and engaging way this book will

appeal to students and scholars of Chinese Studies Asian Studies International Relations and Political Science as well as those engaged in epidemiological studies in the Health Sciences **The Sex Files** ,1996 For YA through university age to older students conveys age appropriate information about the transmission and prevention of HIV AIDS and gives insight to real life issues of people living with the virus The program is intended to contribute to long term changes in risk behaviour

Sex-Rar Guide World Health Organisation Staff,2002-12-27 This guide describes how to use Rapid Assessment and Response RAR methods to both profile local substance use and sexual risk behaviours and to identify appropriate intervention responses in time and resource poor settings It aims to help identify the relationships between substance use and sexual behaviour in the local area describe adverse health consequences associated with these behaviours assess capacity and opportunities for intervention development The guide also contains an overview of current research knowledge and a list of additional supporting resources *AIDS Bibliography* ,1994-12 **Characterizing the HIV/AIDS Epidemic in the Middle East and North Africa** Francisca Ayodeji Akala,Iris Semini,2010 Despite global progress in understanding the epidemiology of the human immunodeficiency virus HIV knowledge about the epidemic in the Middle East and North Africa MENA remains limited and subject to much controversy In the more than 25 years since the discovery of HIV no scientific study has provided a comprehensive data driven synthesis of the spread of HIV AIDS acquired immunodeficiency syndrome in the region Consequently the effectiveness of policies programs and resources intended to address the spread of HIV AIDS has been compromised This report aims to fill the knowledge gap by providing the first ever comprehensive scientific assessment and data driven epidemiological synthesis of HIV s spread in MENA It is based on a literature review and analysis of thousands of largely unrecognized publications reports and data sources extracted from scientific literature or collected from sources at the local national and regional levels The resulting collection of data provides a solid foundation on which efforts to stem the spread of HIV AIDS can be based Characterizing the HIV AIDS Epidemic in the Middle East and North Africa will be of particular interest to policy makers researchers development practitioners and specialists in public health and epidemiology *Women and HIV Prevention in Canada* Jacqueline Gahagan,2013 Women and HIV Prevention in Canada is a comprehensive collection of original readings that examine the impact of HIV AIDS on women in Canada It takes as its point of departure the lessons from the past two decades of HIV prevention efforts with an eye to advancing research policy and programmatic responses in a collaborative multidisciplinary manner The book includes contributions from academics researchers of topics including the epidemiology of women and HIV AIDS in Canada enhanced surveillance specific to women pregnancy and fertility issues housing as a determinant of health HIV prevention and prisons new HIV prevention technologies race transgender issues and other pressing primary and secondary HIV prevention issues for women Each chapter concludes with problem based learning scenarios and discussion questions making the book a valuable resource for students as well as practitioners and researchers in epidemiology in community health sociology of health nursing health
