of Religion **Sexual Equality in Access to Goods and Services Report** Great Britain. Parliament. House of Lords. European Union Committee, 2004 The Committee's report examines the EU Commission's proposals to extend EU sex discrimination legislation to cover the supply of and access to goods and services The proposals are essentially limited to commercial transactions excluding aspects such as education public health care media and advertising representation and will therefore be less comprehensive than current UK sex discrimination laws The main impact on existing UK legislation will be the proposal to ban the use of gender as a factor in calculating insurance premiums and benefits Although this suggestion has aroused considerable controversy in the UK the Committee believes that the onus must be on insurance companies to justify any departure from the principle of equal gender treatment based on objective risk assessment More research and consultation is required before these proposals are implemented Sound practical guidelines need to be devised taking into account the implications on future annuities for men and women in the UK market Overall the Committee argues that it is a reasonable objective to move away from using gender as a criterion to assess motor insurance premiums and to seek to achieve a fair and competitive pricing based on other factors Sexuality Education Roger J. Herdt, 2007 This pioneering collection of ten ethnographically rich essays signals the emergence of a new paradigm of social analysis committed to understanding and analyzing social oppression in the context of sexuality and gender The contributors an interdisciplinary group of social scientists representing anthropology sociology public health and psychology illuminate the

role of sexuality in producing and reproducing inequality difference and structural violence among a range of populations in various geographic historical and cultural arenas In particular the essays consider racial minorities including Hispanics Koreans and African Americans discuss disabled people examine issues including substance abuse sexual coercion and HIV AIDS and delve into other topics including religion and politics Rather than emphasizing sexuality as an individual trait the essays view it as a social phenomenon focusing in particular on cultural meaning and real world processes of inequality such as racism and homophobia The authors address the complex and challenging question of how the research under discussion here can make a real contribution to the struggle for social justice
