Fogarty, Rhona Rapoport, Robert N. Rapoport, 2017-01-06 In this book first published in 1971 the authors show from first hand studies of family and working life and with evidence from many countries including the socialist societies of Eastern Europe the nature of the discrimination facing women in the professions and how various family and employment patterns might contribute to solving it Their point is not that some new stereotype should be substituted for traditional views of the role of husbands and wives different patterns fit different situations      **Sex in the USSR** Mikhail Shtern, Avgust Shtern, 1980 A brief discussion of homosexual repression in the USSR The book is now of course rather dated P Thorslev      *Projections of the Population of the U.S.S.R., by Age and Sex, 1969-1990* Ann S. Goodman, Godfrey S. Baldwin, James Larry Scott, James William Brackett, John Shields Aird, Ritchie H.

Reed, Murray Feshbach, 1960      Sex Testing Lindsay Pieper, 2016-05-30 In 1968 the International Olympic Committee IOC implemented sex testing for female athletes at that year's Games. When it became clear that testing regimes failed to delineate a sex divide the IOC began to test for gender a shift that allowed the organization to control the very idea of womanhood. Ranging from Cold War tensions to gender anxiety to controversies around doping Lindsay Parks Pieper explores sex testing in sport from the 1930s to the early 2000s. Pieper examines how the IOC in particular insisted on a misguided binary notion of gender that privileged Western norms. Testing evolved into a tool to identify and eliminate athletes the IOC deemed too strong too fast or too successful. Pieper shows how this system punished gifted women while hindering the development of women's athletics for decades. She also reveals how the flawed notions behind testing ideas often sexist racist or ridiculous degraded the very idea of female athleticism.

*Russia's Carnival* Christoph Neidhart, 2003 This colorfully drawn and acutely observed book explores Russia by engaging all our senses. Today's Russia smells different from the Soviet Union. The country looks and sounds different its touch is different and its food tastes different. Thus Christoph Neidhart argues Russia is truly a changed country from the Soviet Union it was little more than a decade ago. Russian society is rapidly urbanizing and modernizing as can be perceived by all senses including the awareness of space and the conception of time. After almost a century space can be privately owned and freely traded time too has become commodified. New role models and new ways to express social status are emerging. Russia has become a monetized economy as the old Soviet practice of provision by networking has grown obsolete. Russia thus readies itself gradually to grow into a Western style middle class society with a free market and democratic polity. The author assesses these rapid changes using the evocative metaphor of the carnival to understand the chaotic inversion of the Communist structure of society. He explores the transition's traps and shortcomings such as the privatization of politics and the looting of the state's assets and compares this process to the modernization Western society underwent a century earlier.

Sex Differences in Cognitive Abilities Diane F. Halpern, 2000-02 In the third edition of her popular text *Sex Differences in Cognitive Abilities* Diane Halpern tackles fundamental questions about the meaning of sex differences in cognition and why people are so afraid of the differences. Written in a clear engaging style this new edition takes a refreshing look at the science and politics of

cognitive sex differences Although it is a comprehensive and up to date synthesis of scientific theory and research into how why when and to what extent females and males differ in intellectual abilities it conveys complex ideas and interrelationships among variables in an engrossing and understandable manner bridging the gap between sensationalized pop literature and highly technical scientific journals Halpern's thought provoking perspectives on this controversial topic will be of interest to students and professionals alike features used for book mailer FEATURES Includes new information about sex differences and similarities in the brain the role of sex hormones on cognition including exciting new work on hormone replacement therapy during menopause new perspectives from evolutionary psychology the way stereotypes and other group based expectations unconsciously and automatically influence thought the influence of pervasive sex differentiated child rearing and other sex role effects and understanding how research is conducted and interpreted Takes a cognitive process approach that examines similarities and differences in visuospatial working memory verbal working memory long term acquisition and retrieval sensation and perception and other stages in information processing Provides a developmental analysis of sex differences and similarities in cognition extending from the early prenatal phase into very old age Tackles both political and scientific issues and explains how they influence each other readers are warned that science is not value free Uses cross cultural data and warns readers about the limitations on conclusions that have not been assessed in multiple cultures Includes many new figures and tables that summarize complex issues and provide section reviews It is a beautifully written book by a master teacher who really cares about presenting a clear and honest picture of contemporary psychology's most politicized topic

**Sex, Love, and Migration** Alexia Bloch,2017-12-15 Sex Love and Migration goes beyond a common narrative of women's exploitation as a feature of migration in the early twenty first century a story that features young women from poor countries who cross borders to work in low paid and often intimate labor Alexia Bloch argues that the mobility of women is marked not only by risks but also by personal and social transformation as migration fundamentally reshapes women's emotional worlds and aspirations Bloch documents how as women have crossed borders between the former Soviet Union and Turkey since the early 1990s they have forged new forms of intimacy in their households in Moldova Ukraine Belarus and Russia but also in Istanbul where they often work for years on end Sex Love and Migration takes as its subject the lives

of post Soviet migrant women employed in three distinct spheres sex work the garment trade and domestic work Bloch challenges us to decouple images of women on the move from simple assumptions about danger victimization and trafficking She redirects our attention to the aspirations and lives of women who despite myriad impediments move between global capitalist centers and their home communities Trafficking & the Global Sex Industry Karen D. Beeks, Delila Amir, 2006-02-28 Trafficking of persons mostly women and children for commercial sexual activities and forced labor is one of the fastest growing areas of international crime The United Nations estimates that 4 million men women and children become victims of international trafficking each year Trafficking the Global Sex Industry focuses on the international trafficking of women and children for forced labor and prostitution This remarkable anthology takes a broad geographical and economical perspective while also dealing with the specificities of the socio political background poverty opportunity structure legal conditions the role of the state gender structure and the organization of the trafficking business The essays create a link from country to country demonstrating the worldwide nature of the problem Expertly written and well researched this collection gives the reader a clearer understanding of the problem and the actions being taken to combat it Trafficking the Global Sex Industry will have a broad market for readers on a national and international level especially among those interested in political science women s studies international relations and criminology **Reforming Sex** Atina Grossmann, 1995 Reforming Sex takes on questions of international context and comparison as well as continuity and discontinuity in twentieth century German history in a manner that other studies have not The book follows Weimar sex reformers into the Third Reich to exile around the world and into both the Eastern and Western zones of postwar Germany It demonstrates how deeply rooted eugenics ideology and American and Bolshevik models of modernity were in the Weimar movement It also examines the drastic rupture between sex reform notions of social health and National Socialist population policy The story of German sex reform provides a new perspective on post World War II family planning programs it sheds light on the long and lively background to current controversies about abortion the role of doctors and the state in determining women s right to control their own bodies and the possibilities for reforming and transforming sexual relations between men and women **Nationalizing Sex** Richard Togman, 2019-02-13 Government sponsored breeding programs medals of motherhood forced abortions and surgical sterilization on park benches all of these policies have come out of government efforts to nationalize sex and harness procreation as a tool of the state Over 170 countries or 85% of governments worldwide have active policies designed to manipulate the fertility of their citizenry with the aim of influencing the rate of growth of their populations While over 90% of least developed states are trying to combat population growth with policies designed to reduce fertility over two thirds of all developed countries are actively crafting legislation to increase their populations Despite over a hundred years of relative failure and innumerable studies questioning the viability and utility of government attempts to manipulate the fertility rate of the population as a whole the majority of governments worldwide

continue to uphold and develop such policies What drives government to try to control how many children people will have Nationalizing Sex traces why population emerged as an object of governance and how natalist policy has changed over time and place using case studies from France Germany Russia India and China It analyzes the origins growth and development of fertility as a national and international political issue the rise and fall of the narratives used to ascribe meaning to natality and the global proliferation of oddly similar policies adopted by widely dissimilar states As importantly it explains why after hundreds of years countries continue to pursue natalist policy even though it has been such a widespread failure

**Controlling Sex in Captivity** Matthias Reiss, 2018-06-14 Controlling Sex in Captivity is the first book to examine the nature extent and impact of the sexual activities of Axis prisoners of war in the United States during the Second World War Historians have so far interpreted the interactions between captors and captives in America as the beginning of the post war friendship between the United States Germany and Italy Matthias Reiss argues that this paradigm is too simplistic Widespread fraternisation also led to sexual relationships which created significant negative publicity and some Axis POWs got caught up in the U S Army s new campaign against homosexuals By focusing on the fight against fraternisation and same sex activities this study treads new ground It stresses that contact between captors and captives was often loaded with conflict and influenced by perceptions of gender and race It highlights the transnational impact of fraternisation and argues that the prisoners sojourn in the United States also influenced American society by fuelling a growing concern about social disintegration and sexual deviancy which eventually triggered a conservative backlash after the war Advertising, Sex, and Post-Socialism Elza Ibroscheva, 2013-06-20 Advertising Sex and Post Socialism explores the role of advertising and the consumption it promotes in changing cultural perceptions of sex and femininity across the Balkan region Elza Ibroscheva theorizes how the marketing of gender identities that has taken place in the years of post socialist transition has fundamentally affected the social economic and political positioning of women Advertising is one of the major factories of cultural signification and as such serves as the most ubiquitous vessel of global norms of gendered selves In addition advertising serves as a literacy tool for learning the grammar of consumption studying the ideologies of femininity and sex before and after the collapse of the socialist project as well as the prevailing portrayals of femininity in advertising in present day Bulgaria This book provides a revealing look at the mechanisms of how post socialist norms of sexual behavior are being engendered and what role media play in this transformative process
