Sex Perfection Marital Happiness:

Sex Perfection and Marital Happiness Rudolf Von Urban, 1949 *The Future of Post-Human Sexuality* Peter Baofu, 2009-12-14 What precisely resides in sexuality which warrants the popular discourse on sexuality as part of our world freedom or something as an inspiring source for our own creation of new forms of relationships or new forms of love never before possible in human history This popular treatment of sexual freedom has become so politically correct in this day and age of ours that it fast degenerates into a seductive ideology which has impoverished our understanding of sexuality by blinding us from its dark sides Contrary to this intoxicating conventional wisdom the dark sides of this seductive ideology have yet to be systematically understood and that its very creative freedom is neither possible nor desirable to the extent that its advocates would like us to believe Of course this is not to suggest that sexuality should not be about freedom nor creativity or that the literature in sexual studies and other related fields like gender studies queer studies and cultural studies for example should be ignored because of their scholarly nonsense Needless to say neither of these two extreme views is reasonable either Instead the purpose of this book is to provide an alternative better way to understand the nature of sexuality in special relation to the sexual body and spirit in conjunction with the mind while learning from different approaches in the literature but without favoring any one of them nor integrating them since they are not necessarily compatible with each other This seminal project if successful will fundamentally change the way that we think about the nature of sexuality from the combined perspectives of the mind nature society and culture with enormous implications for the human future and what I originally called its post human fate
