Sex Secrets of Ancient Atlantis John Grant, 1985-09-01 **Sex Secrets of Ancient Atlantis** , **Sex Secrets of Ancient Atlantis** John Grant, 2004-10-01 *Complete Critical Assembly* David Langford, 2002-10-01 This new collection of essays commissioned from a range of scholars across the world takes as its theme the reception of Rome's greatest poet in a time of profound cultural change. Amid the rise of Christianity the changing status of the city of Rome and the emergence of new governing classes Vergil remained a bedrock of Roman education and identity. This volume considers the different ways in which Vergil was read, understood and appropriated by poets, commentators, Church fathers, orators and historians. The introduction outlines the cultural and historical contexts. Twelve chapters dedicated to individual writers or genres and the contributors make use of a wide range of approaches from contemporary reception theory. An epilogue concludes the volume.

Wynn, 2018-11-23 Cairo is a city obsessed with honor and respectability and love affairs. Sara, a working-class woman, has an affair with a married man and becomes pregnant, only to be abandoned by him. Ayah and Zeid, a respectably engaged couple, argue over whether Ayah's friend is a prostitute or a virgin. Malak, a European belly dancer who sometimes gets paid for sex, wants to be loved by a man who won't treat her like a whore just because she's a dancer. And Alia, a Christian banker who left her abusive husband, is the mistress of a wealthy Muslim man, Haroun, who encourages business by hosting risqué parties for other men and their mistresses. Set in transnational Cairo over two decades, *Love, Sex, and Desire in Modern Egypt* is an ethnography that explores female respectability, male honor, and Western theories and fantasies about Arab society. L. L. Wynn uses stories of love affairs to interrogate three areas of classic anthropological theory: mimesis, kinship, and gift. She develops a broad picture of how individuals love and desire within a cultural and political system that structures the possibilities of and penalties for going against sexual and gender norms. Wynn demonstrates that love is at once a moral horizon, an attribute that naturally inheres in particular social relations, a social phenomenon strengthened through cultural

concepts of gift and kinship and an emotion deeply felt and desired by individuals *The Secret Doctrines of the Rosicrucians (Ancient Mysteries Series)* William Walker Atkinson, 2024-01-09 In *The Secret Doctrines of the Rosicrucians* William Walker Atkinson delves into the rich tapestry of mystical knowledge and esoteric traditions attributed to the Rosicrucian order. Written in an engaging yet scholarly style, Atkinson presents a comprehensive exploration of the principles underpinning this secretive society and its significant influence on modern spiritual movements. The work intertwines historical analysis with spiritual philosophy, offering insights into ancient mysteries, alchemy, and the quest for personal enlightenment. This text is not only a guide for the curious but also serves as a pivotal reference for contemporary practitioners of mysticism. William Walker Atkinson was a prominent figure in the early 20th-century metaphysical movement, known for his deep interest in the occult and spiritualism. His extensive background in various philosophies, including yoga and New Thought, fueled his fascination with mystical traditions. Atkinson, often writing under pseudonyms, sought to make esoteric knowledge accessible to the general public, reflecting a broader cultural enthusiasm for spirituality during his time. For readers intrigued by mysticism, spirituality, and the hidden teachings of influential societies, Atkinson's *The Secret Doctrines of the Rosicrucians* is an indispensable volume. It not only enriches the understanding of Rosicrucian thought but also encourages readers on their own spiritual journeys, inviting them to uncover the secrets that lie within. [The Mammoth Book of Comic Fantasy II](#) Michael Ashley, 1999 Fantasy can be downright funny. To prove it, editor Mike Ashley has compiled 35 short stories for a second mammoth volume featuring fantasy's funniest, wackiest writers. **The Quest for Lost Ancient Secrets with Robert M. [Francis Bacon's New Atlantis in the Foundation of Modern Political Thought](#) Kimberly Hurd Hale, 2013-10-10 Francis Bacon, long considered a minor figure in the founding of modern political thought, is now recognized as one of its foremost thinkers. Bacon not only championed a new type and method of scientific inquiry; he also developed a plan for how modern society could be re-ordered to accommodate and promote scientific progress. Bacon's scientific writings cannot be wholly understood apart from his political writings, and many of his works combine the two.

topics so subtly that it is difficult to even place them in a definitive category in this book Kimberly Hurd Hale identifies the thread in Bacon's body of work that links modern science and liberalism Hale provides a detailed analysis of New Atlantis examining Bacon's place in the founding of modern political philosophy and the ways he relates to Plato Machiavelli and Hobbes Hurd argues that Bacon's demonstration of scientific rule in the New Atlantis is not meant as a blueprint for modern society rather it shows us the dangers of a scientific society devoid of liberty By examining what is troubling about the New Atlantis this book explains what problems lead to the emergence of Atlantean societies i.e. societies that are prosperous ambitious and doomed It shows that Bacon's portrait of Bensalem may provide the light necessary to guide those of us living in a world shaped by modern science through the dangerous seas *Pyramids and Nightclubs* L.
