Making The Peace In Ireland:

Hope and history Gerry Adams, 2003-10-01 The unique inside story revealing the truth behind the headlines of how the peace process was begun and how it was brought to fruition

Making the Peace in Ireland Jeremy Smith, 2014-06-11 For nearly thirty years Northern Ireland has been a by word for terrorism bloodshed military coercion and intense communal conflict However Ireland is now experiencing a transition from a society in conflict to one at peace Where did the violence come from and why could it not be pacified Why has it taken thirty years to solve the Northern Irish conflict and why did early attempts at settlement fail Jeremy Smith explores these questions by placing the events in context with wider British and European patterns giving the first in depth study of the history of the peace process in Northern Ireland [The Legacy of History](#) Martin Mansergh, 2003 A collection of thought provoking historical pieces by a leading player in North South relations And The peace process

Making Peace in Northern Ireland Charles Strozier, 2025-02-24 This book examines the remarkable process that led to peace in Northern Ireland after decades of violence That story lies in its granular history but equally in an appreciation of its psychological dynamics especially the emergence in the social and political realm of what the author calls radical empathy The leaders who made peace happen were all larger than life figures out of some 19th Century opera strutting across the stage of history But there was another hero in the mix one often noted for his presence but not fully appreciated by scholarly observers for his contributions to the peace process John Alderdice The son of a moderate Presbyterian minister a medical doctor and a psychiatrist and psychoanalyst Alderdice brought to the peace process his grasp of others his generosity and clarity of vision The Northern Irish story is immensely complicated but in the end uplifting They deserve the peace they have made for themselves The story of the Troubles is horrifying but the story of peacemaking is not just dramatic it inspires hope If the Irish can make peace anyone can That may be the most important lesson of this book And that lesson is transferable

Making Peace George J. Mitchell, 2012-08-08 Fifteen minutes before five o'clock on Good Friday 1998 Senator George Mitchell was informed that his long and difficult quest for an Irish peace accord had succeeded the Protestants and Catholics of Northern Ireland and the governments of the Republic of Ireland and the United Kingdom would sign the agreement Now Mitchell who served as independent chairman of the peace talks for the length of the process tells us the inside story of the grueling road to this momentous accord For more than two years Mitchell who was Senate majority leader under Presidents Bush and Clinton labored to bring together parties whose mutual hostility after decades of violence and mistrust seemed insurmountable Sinn Fein represented by Gerry Adams the Catholic moderates led by John Hume the majority Protestant party headed by David Trimble Ian Paisley's hard line unionists and not least the governments of the Republic of Ireland and the United Kingdom headed by Bertie Ahern and Tony Blair The world watched as the tense and dramatic process unfolded sometimes teetering on the brink of failure Here for the first time we are given a behind the scenes view of the principal players the personalities who shaped the process and of the contentious

at times vitriolic proceedings We learn how as the deadline approached extremist violence and factional intransigence almost drove the talks to collapse And we witness the intensity of the final negotiating session the interventions of Ahern and Blair the late night phone calls from President Clinton a last ditch attempt at disruption by Paisley and ultimately an agreement that despite subsequent inflammatory acts aimed at destroying it has set Northern Ireland's future on track toward a more lasting peace

Political Leadership and the Northern Ireland Peace Process C. Gormley-Heenan, 2006-11-14 By providing a critical interpretation of political leadership during the Northern Ireland peace process Gormley Heenan shows the leadership lens offers insights not offered by conventional analyses of peacemaking processes The book discusses the confusions contradictions and chameleonic nature of leadership and its role capacity and effect

Making Peace with Referendums Joana Amaral, 2019-07-18 Referendums have become an undeniably important and perhaps inescapable

peacemaking tool in contemporary peace processes As such understanding the ways in which referendum outcomes are

shaped by peace negotiations is vital Drawing upon two case studies Amaral presents an empirically rich comparative analysis of the Annan Plan in Cyprus and the Good Friday Agreement in Northern Ireland She examines the negotiations offering new interview material with key political and civil figures involved in the peace negotiations and referendum

campaigns in both cases Amaral argues that referendums are unsuitable for traditional secretive and exclusionist peace negotiations that fail to engage and educate the public They rather require inclusive negotiations that involve a broad

spectrum of political stakeholders and civil society at the early stages of the process This peacemaking approach can allow referendums to positively shape societies in conflict and be a crucial step toward lasting peace

Making Peace With Partition Radha Kumar, 2005-02-28 The Partition of the Indian subcontinent in 1947 left a legacy of hostility and bitterness that has bedevilled relations between India and Pakistan for over fifty five years The two countries both nuclear powers now have fought three wars since Independence and have twice come to the brink of war in recent years Each of their attempts to make peace has failed and each failure has added a new layer of anger and mistrust to existing animosities So what will it take for India and Pakistan to put the long shadows of Partition behind them once and for all Reviewing the turbulent history of their past relationship Radha Kumar analyses the chief obstacles the two countries face and looks afresh in particular at the Kashmir conflict in the light of the new opportunities and challenges that the twenty first century presents Kumar's comparisons with partition related peace processes in Bosnia Ireland Cyprus and Israel Palestine offer a radically different perspective on the prospects for peace between India and Pakistan and illuminate the key elements that go into a successful peace process Lucid incisive and optimistic Radha Kumar's essay written at a time when a new peace process between India and Pakistan has begun to unfold challenges received wisdom as it argues persuasively that the South Asian neighbours are today better placed to make peace than ever before

Religion, Civil Society, and Peace in Northern Ireland John D. Brewer, Gareth I. Higgins, Francis Teeney, 2011-12-16 Religion was thought to be part of the problem in Ireland and incapable

of turning itself into part of the solution Many commentators deny the churches a role in Northern Ireland's peace process or belittle it focusing on the few well known events of church involvement and the small number of high profile religious peacebuilders This new study seeks to correct various misapprehensions about the role of the churches by pointing to their major achievements in both the social and political dimensions of the peace process by small scale lesser known religious peacebuilders as well as major players The churches are not treated lightly or sentimentally and major weaknesses in their contribution are highlighted The study challenges the view that ecumenism was the main religious driver of the peace process focusing instead on the role of evangelicals it warns against romanticising civil society pointing to its regressive aspects and counter productive activities and queries the relevance of the idea of spiritual capital to understanding the role of the churches in post conflict reconstruction which the churches largely ignore This book is written by three insiders to church peacebuilding in Northern Ireland who bring their insight and expertise as sociologists to bear in their analysis of four years in depth interviewing with a wide cross section of people involved in the peace process including church leaders and rank and file members of political parties prime ministers paramilitary organisations community development and civil society groups as well as government politicians and advisors Many of these are speaking for the first time about the role of religious peacebuilding in Northern Ireland and doing so with remarkable candour The volume allows the Northern Irish case study to speak to other conflicts where religion is thought to be problematic by developing a conceptual framework to understand religious peacebuilding

Peace in Ireland Richard Bourke, 2003 This book examines the time period of 1968-2003 in broad historical perspective including an exploration of the ideological roots of the conflict in the late 19th and early 20th centuries It covers the decisive episodes that marked the trajectory of the Troubles from the Civil Rights Movement Bloody Sunday and the Sunningdale Agreement to the hunger strikes the paramilitary ceasefires and the Good Friday Agreement The book exposes the assumption that the conflict was a product of imperialism and challenges the idea that the descent into violence was brought about by atavistic regression or ethnic solidarity Its central argument is that the Northern Ireland debacle was a distinctly modern conflict fought over rival aspirations to popular sovereignty Accordingly the book places opposing conceptions of democratic legitimacy at the center of the dispute From this angle it analyzes both Nationalism and Republicanism as well as Unionism and Loyalism with the aim of providing a sustained investigation of the impact of political ideas on modern Ireland Interest remains high in the history and context of the Troubles and Richard Bourke as a historian of ideas is perfectly placed to analyze the conflict and its origins

The People's Peace Process in Northern Ireland C. Irwin, 2002-11-26 Many important lessons have come out of the negotiations for the Belfast Agreement This book explains how public opinion polls were used in support of the Northern Ireland peace process Significantly it was the politicians who decided the questions so that they could map out areas of compromise and common ground that their supporters would accept This book explains how the work was done so that others can apply the benefits of this experience

to their own peace building activities

Lessons from the Northern Ireland Peace Process Timothy J. White, 2013 This book incorporates recent research that emphasizes the need for civil society and a grassroots approach to peacebuilding while taking into account a variety of perspectives including neoconservatism and revolutionary analysis The contributions which include the reflections of those involved in the negotiation and implementation of the Good Friday Agreement also provide policy prescriptions for modern conflicts

The Justice of the Peace for Ireland R. M. Hennessy, 1910 *Building Peace in Northern Ireland* Maria Power, Maria Clemence Power, 2011-01-01 Since the troubles began in the late 1960s people in Northern Ireland have been working together to bring about a peaceful end to the conflict Building Peace in Northern Ireland examines the different forms of peace and reconciliation work that have taken place Maria Power has brought together an international group of scholars to examine initiatives such as integrated education faith based peace building cross border cooperation and women s activism as well as the impact that government policy and European funding have had upon the development of peace and reconciliation organizations

The Northern Ireland Peace Process and the International Context Benjamin Williams, 2010-04-08 Northern Ireland is currently enjoying a period of relative peace and stability unprecedented for much of the past half century Such stability is the product of a variety of factors that has created conditions whereby Northern Ireland now runs its own political institutions for the first time since the early 1970s International relations and developments since the early 1980s have had a key influence on the Northern Ireland process and such external influences require renewed attention in assessing the evolution of the Northern Ireland conflict and the recent progress towards long term peace Since the abrupt end of the Cold War in the early 1990s in particular the Northern Ireland dispute along with many other inter ethnic conflicts has felt the repercussions of such geo political changes both positive and negative In this context many external states forces and individuals have wielded significant influence over Northern Ireland s development The world s only remaining superpower the USA has particularly taken a renewed interest in Northern Ireland an interest bolstered by a President with a genuine interest in the province Other long term external disputes such as the Middle East conflict and South Africa s advance from apartheid have also been inter linked with the Northern Ireland dispute The European Union has continued to evolve as a trans national organisation and has also sought to influence the easing of sectarian tensions in Northern Ireland This book seeks to assess the overall impact that such global developments have undoubtedly had on the Northern Ireland peace process and attempts to offer fresh interpretations of a complex element within that process Ben Williams B A Hons M A PhD student University of Liverpool Book reviews online PublishedBestsellers website

Peace and Ethnic Identity in Northern Ireland Henry Jarrett, 2017-10-16 Consociational power sharing is often perceived to be the method of conflict management that is most likely to succeed in deeply divided societies The case of Northern Ireland in particular is heralded by many as a consociational success story Since the signing of the Good Friday Belfast Agreement in 1998 significant conflict transformation has taken place in the form of a considerable reduction in

levels of violence and the establishment of power sharing between unionists and nationalists This book looks at what consociational power sharing achieves after its implementation specifically whether it can work to overcome existing identities in divided societies or whether it simply freezes divisions It argues that if consociational power sharing is facilitating a move towards a genuinely shared society this would be demonstrated in the focus of the election campaigns of Northern Ireland's political parties which would be almost exclusively based around socio economic issues affecting the whole population rather than narrow single identity concerns However the book claims that on the whole this has not been realised Although election campaigns are today less strident than they were in the pre 1998 era it remains the case that they usually foreground single identity symbolism as it is this that resonates with voters Whilst consociational power sharing has been very successful in reducing levels of violent conflict and facilitating elite level cooperation between unionists and nationalists it has been much less successful in reducing divisions within wider society to facilitate a genuinely shared Northern Irish identity By establishing an important middle ground between consociational proponents and critics this research will be of significant interest to students and scholars of ethnic politics political sociology conflict management and divided societies more generally *Catholic Social Teaching and Theologies of Peace in Northern Ireland* Maria

Power, 2020-07-07 This book investigates the response of the Catholic Church in Northern Ireland to the conflict in the region during the late Twentieth Century It does so through the prism of the writings of Cardinal Cahal Daly 1917 2009 the only member of the hierarchy to serve as a bishop throughout the entire conflict This book uses the prolific writings of Cardinal Daly to create a vision of the Peaceable Kingdom and demonstrate how Catholic social teaching has been used to promote peace justice and nonviolence It also explores the public role of the Catholic Church in situations of violence and conflict as well as the importance for national churches in developing a voice in the public square Finally the book offers a reflection on the role of Catholic social teaching in contemporary society and the ways in which the lessons of Northern Ireland can be utilised in a world where structural violence as evidenced by austerity and reactions to Brexit in the United Kingdom is now the norm This work challenges and changes the nature of the debate surrounding the role of the Catholic Church in the conflict in Northern Ireland It will therefore be a key resource for scholars of Religious Studies Catholic Theology Religion and Violence Peace Studies and Twentieth Century History **Performing the Northern Ireland Peace Process** Paul

Dixon, 2018-06-15 *Performing the Northern Ireland Peace Process* offers a nuanced and stimulating analysis which goes beyond standard explanations by exploring the motives and means used by those who made peace in Northern Ireland Professor Timothy White Xavier University USA Paul Dixon has produced an impressive and challenging book Dixon defends the Northern Ireland peace process as a carefully crafted drawn out episode in realist pragmatic politics However he pulls few punches in highlighting the moral deceptions which have kept the process in play Provocatively Dixon also challenges a wide range of academic interpretations of the processes and their associated political prescriptions Thoughtful and well

researched throughout Performing the Northern Ireland Peace Process is an essential read for anyone interested in conflict management Professor Jon Tonge University of Liverpool In this outstanding book Dixon shows yet again the importance of the theatrical metaphor for Northern Ireland More importantly still he demonstrates that the adoption of a critically realist outlook actually enhances our capacity to think creatively about the political choices we face in international politics and the alternative policies and institutions we might construct Professor Adrian Little The University of Melbourne This book is exceptional in defending the dirty politics of the Northern Ireland peace process Political actors in Britain Ireland and the United States performed the peace process and used political skills often including deception and hypocrisy in order to wind down the conflict and achieve accommodation These political skills it is argued are often morally justifiable even as they are popularly condemned The Northern Ireland peace process has been highly successful in reducing violence and an accurate understanding of its politics is an important contribution to international debates about managing conflict Peace-Building and Development in Guatemala and Northern Ireland C. Reilly, 2008-12-22 This book analyzes the implementation of peace processes in Northern Ireland and Guatemala with emphasis on the role of mid level civil society and religious organizations or the voluntary sector Both countries interrupted years of conflict signed peace accords in 1998 and 1996 respectively and still struggle to make them work Despite very different economic development levels both countries have colonial legacies deep cultural divisions and engaged diaspora They grapple with violence poverty and inequitable distribution of wealth and power While religious differences are a backdrop to violence and reconciliation in both cases insecurity and inequity are the root cause and consequence of these conflicts The book summarizes lessons learned and makes policy recommendations for more civil post conflict societies arguing that similar dynamics fuel sustainable peace building and authentic development

Community Relations and the Troubles in Northern Ireland Joana Etchart, 2024-11-19 Community relations policy has been an almost permanent feature in Northern Ireland since 1969 yet it has rarely been considered as an object of study This book provides historical depth to its analysis by documenting the various manifestations of the notion of community relations in public policy during the Troubles period Drawing on a variety of written and oral primary and secondary sources it offers a unique rich perspective on the meaning and intent behind community relations policy at certain critical junctures In addition by examining this period through the lens of one policy the book sheds light on important questions such as who intervened in policy making during the conflict who sought to influence the process and eventually who took the decisions It also considers the varied roles played by community workers This meticulous analysis reveals previously unknown aspects of the evolution of community relations policy and presents a compelling micro history of policy making and governance during the Troubles in Northern Ireland
