More Memories Of Cardiff:

More Memories of Cardiff True North Holdings, 2003-12-01 Page and Place: Ongoing Compositions of Plot Jon Anderson, 2014-10-15 If people are geographical beings what can fiction tell us about this truth This book explores how literature can help us understand the nature of the relations between people and place how humans create connections between their identities and their geographies and how these can be threatened and lost Literature is an important if unusual way to explore these relations At once centred in imagination and ideas fiction is also indelibly connected to as well as influenced by the geographies in which it is set As this book argues the relationship between fiction and location is so important that it is often difficult to know which is imagined and which is real Exploring the relations between people and place through fiction writing set in Wales Page and Place garners poetic insight into how places are written into our stories and how these stories take and make the places around us The book introduces the notion of plot to describe the complex entanglement between fiction and geography and to help understand the role that places play in defining human identity

Even More Journeys of a Lifetime Len Coates, 2017-08-14 When I wrote my first book Journeys of a Lifetime in 2004 it reflected how dreams of mine of visiting unknown places in the UK countries across the North Sea in Europe and seemingly far off continents of America Africa Asia and Australia became a reality That was mainly due to the advent of air travel package holidays and the massive growth of international travel in the second half of the twentieth century Nine years on from that book in my second book our traveling had continued and in that time having seen the arrival of four grandchildren naturally they have joined in some of the journeys At that time our fourth grandchild just made the book with her name and date and place of birth Naturally there was a need for another book so that she as well as her brother and cousins will all be able to read as they get older about their grandparents travels and in particular some of which included them Although places visited in the three years since the last book include some return trips to old favorites this book reflects only the new places visited In particular India the Middle East the Far East Eastern Europe and nearer home the beautiful Northeast England it reflects the visits of the grandchildren featured more this time As we now have two grandchildren living in the Costa del Sol as well as the Aussie part of the family Spain and Australia are now regular destinations Although the UK is much smaller in area than those two countries it is packed with wonderful places to visit so trips at home are still often very much included in our travels Added to that cruising has taken off in the last decade a bit like package deals to Europe did in the 1960s and has provided a very enjoyable new dimension to the journeys made Cruises are featured several times in this book More Journeys of a Lifetime and now Even More Journeys of a Lifetime reflect the further growth in long haul travel and the massive increase in cruising Hope you enjoy my further travels around this small world of ours going on from those early dreams of mine and continuing to do so **Voicetracks** Norie Neumark, 2025-02-04 The affects aesthetics and ethics of voice in the new materialist turn explored through encounters with creative works in media and the arts Moved by the

Aboriginal understandings of songlines or dreaming tracks Norie Neumark's Voicetracks seeks to deepen an understanding of voice through listening to a variety of voicing sound voice projects from Australia Europe and the United States Not content with the often dry tone of academic writing the author engages a wayfaring process that brings together theories of sound animal and posthumanist studies in order to change the ways we think about and act with the assemblages of living creatures things places and histories around us Neumark evokes both the literal the actual voices within the works she examines and the metaphorical in a new materialist exploration of voice encompassing human animal thing and assemblages She engages with artists working with animal sounds and voices voices of place placed voices in installation works voices of technology and unvoicing disturbances in the image voice relationship and in the idea of what voice is She writes about remixes the Barbie Liberation Organisation and breath in Beijing about cat videos speaking fences in Australia and an artist who reads to the birds Finally she considers ethics and politics and describes how her own work has shaped her understandings and apprehensions of voice

Contemporary Art and Memory Joan Gibbons, 2007-12-19 Whether exploring the intimate recollections which make up the artist's own life history or questioning the way the gallery and museum present public memory contemporary art it would seem is haunted by the past Contemporary Art and Memory is the first accessible survey book to explore the subject of memory as it appears in its many guises in contemporary art Looking at both personal and public memory Gibbons explores art as autobiography the memory as trace the role of the archive revisionist memory and postmemory as well as the absence of memory in oblivion Grounding her discussion in historical precedents Gibbons explores the work of a wide range of international artists including Yinka Shonibare MBE Doris Salcedo Keith Piper Jeremy Deller Judy Chicago Louise Bourgeois Tracey Emin Felix Gonzalez Torres Christian Boltanski Janet Cardiff Bill Fontana Pierre Huyghe Susan Hiller Japanese photographer Miyako Ishiuchi and new media artist George Legrady Contemporary Art and Memory will be indispensable to all those concerned with the ways in which artists represent and remember the past
