Obstetric Fistula Robert F. Zacharin, 2012-12-06 Obstetric fistula is as old as mankind While the incidence has diminished progressively with better health care in Western societies the situation has changed little in many developing countries Fistulae of pelvic organs often monstrous defects still are a major complication of child birth causing misery to uncounted young women and if they cannot find help in one of the very few hospitals with trained specialists they became urological cripples losing everything family home and job The magnitude of the problem is illustrated by some figures given by Reginald and Catherine Hamlin about 700 fistula patients treated each year a total of over 10 000 cases operated upon in their fistula hospital in Addis Ababa Ethiopia Most of these injuries could be prevented by better health care at the village level as some studies have shown conclusively The incidence of fistula is an indicator of the standard of health and obstetrical care The author of this book Obstetric Fistula is an internationally known Australian gynaecologist who for many years has been interested in all aspects of gynaecological urology especially urinary stress incontinence other forms of involuntary loss of urine and associated gynaecological conditions He has devised a number of new operations to treat pelvic defects Robert

written an incisive introductory essay focusing on the United Nations and the global economic crisis Professor Ocampo's essay examines the history of the economic policy recommendations of UN institutions and concludes that they have often been more far sighted and accurate than those of the Bretton Woods Institutions including the World Bank and the International Monetary Fund He applies this analysis in particular to the recent global financial crisis and shows how the Monterrey Consensus of 2002 which once again made the UN a forum for global economic issues gave serious consideration to the concerns of developing countries and set many goals that might have helped to stave off the global financial crisis if they had been more actively pursued Professor Ocampo also examines the UN's role in the wake of the global financial meltdown particularly with regard to the Doha follow up Conference and the Commission of Experts on Reforms of the International Monetary and Financial System convened by the General Assembly and led by Joseph Stiglitz In spite of some resistance to these initiatives from the United States and other developed countries Professor Ocampo advocates in this essay for a more influential role for the UN's institutions in global financial reform especially in light of their superior track record in anticipating economic problems resulting from the inherent tendency of financial markets to experience boom bust cycles The 2008 2009 volumes of ARUNA therefore also devote considerable attention to the financial crisis as well as other international crises Among the documents in the 2008 2009 volumes are the complete General Assembly resolutions as well as the Report and Resolutions of the Security Council and the Economic and Social Council ECOSOC Annual Reports of note include reports of the United Nations Children's Fund UNICEF the UN Development Programme and UN Population Fund the UN High Commissioner for Human Rights the UN High Commissioner for Refugees the UN Relief and Works Agency for Palestine Refugee in the Near East and the World Food Programme Mr Muller and Dr Sauvant have also selected progress reports on key peacekeeping peace building and political missions including those for Afghanistan the Democratic Republic of the Congo Haiti Iraq Kosovo the Middle East Somalia Sudan and West Africa Each annual edition of ARUNA is introduced by a Guest Author a distinguished expert on UN affairs who highlights the outstanding themes of the year in review Together with an overview provided by the editors this introduction is intended to facilitate access to the material and above all to make it easier for users of ARUNA to see the forest for the trees As has been mentioned above ARUNA is fortunate this year to have Jose Antonio Ocampo as the author of its introduction but the roster of distinguished experts who have contributed this introduction in the past is also worthy of mention Jeffrey D Sachs ARUNA 2007 2008 edition Professor Jeffrey D Sachs is Director of the Earth Institute at Columbia University and Special Advisor to the Secretary General of the UN on the Millennium Development Goals Professor Sachs's introduction to ARUNA 2007 2008 was titled Towards a New Global Protocol on Climate Change in which he argued that solving the climate change problem will demand four steps scientific consensus public awareness the development of alternative technologies and a global framework for action He dealt in particular with the science underpinning the negotiations for a new global protocol on climate change as a successor to the

Kyoto Protocol Professor Sachs argued that climate change crises can only be solved through the goals leadership and treaty mechanisms of the UN. Edward C. Luck, ARUNA 2006/2007 edition. Professor Edward C. Luck is UN Special Advisor on the Responsibility to Protect and Vice President and Director of Studies at the International Peace Academy. From 1984 to 1994 he served as President and Chief Executive Officer of the UN Association of the USA. In his introduction to ARUNA 2006/2007, he covered 'The responsible sovereign and the responsibility to protect' in which he addressed the scope and content of what was agreed at the 2005 World Summit, the implications of the responsibility to protect (RtoP) for notions of state sovereignty and some of the conceptual, architectural and policy challenges then facing UN Secretary General Ban Ki-moon's commitment to operationalizing the responsibility to protect and translating it from words to deeds. Louise Frechette, ARUNA 2005/2006 edition. Ms Louise Frechette is Distinguished Fellow at the Centre for International Governance Innovation, Waterloo, Ontario. Until March 2006 she was the first Deputy Secretary General of the UN; before that she was Permanent Representative of Canada to the UN. Ms Frechette's introduction to ARUNA 2005/2006 covered 'United Nations reform: an unfinished story'. As the first Deputy Secretary General of the UN, Ms Frechette was uniquely positioned to undertake a personal assessment of what has changed and what has not changed in the past decade at the UN and why. She examined if the UN is functioning better than it was 15 years ago, why reform is so difficult to achieve and what the future holds for the institutions. Rubens Ricupero, ARUNA 2004/2005 edition. Mr Rubens Ricupero is Dean of the Fundac o Armando Alvares Penteado (FAAP), S o Paulo, and was formerly Secretary General of UN Conference on Trade and Development (UNCTAD) and Minister of Finance of Brazil. Mr Ricupero's introduction to ARUNA 2004/2005 covered 'The difficulty of building consensus in an age of extremes' and examined the mysteries of the negotiating process leading to the outcome of the 2005 World Summit. Rather than a Grand Bargain of a comprehensive UN reform in the areas of development, security and human rights, it is argued that the Summit ended more on a note of lamentation and regret over a missed opportunity. Mr Ricupero concludes that, contrary to the daring proclamation at the outset by the Secretary General, the conditions indispensable to succeed were not in place. Indeed, it was hard to imagine that an ambitious and balanced reform package for the UN could have had any real chance of succeeding.
