

The background of the book cover is a sepia-toned photograph of classical architectural columns. The columns are fluted and have papyrus capitals. They are arranged in a row, receding into the distance, creating a sense of depth. The lighting is soft, highlighting the textures of the stone or marble.

Real Options And Investment Under Uncertainty Classical Readings And Recent Contributions:

Real Options and Investment Under Uncertainty Eduardo S. Schwartz, Lenos Trigeorgis, 2004 The study of investment under uncertainty was stagnant for several decades until developments in real options revitalized the field The topics covered in this book include the reasons behind the under investment programme

Real Options Theory Jeffrey J. Reuer, Tony W. Tong, 2007-07-05 Examines the ways in which real options theory can contribute to strategic management This volume offers conceptual pieces that trace out pathways for the theory to move forward and presents research on the implications of real options for strategic investment organization and firm performance

Real Options Illustrated Linda Peters, 2016-03-23 This book explains the standard Real Options Analysis ROA literature in a straightforward step by step manner without the use of complex mathematics A lot of ROA literature is described through partial differential equations probability density functions and simulation techniques all of which may be unconvincing in the applicable qualities ROA possesses Using this book the reader will have a better grasp about how ROA works and will be able to provide his or her judgment about ROA since all the basics as well as its positive and negative qualities are discussed Real Options Illustrated provides practitioners with a real options framework and encourages readers to study the methodology using the in depth explanations This introduction to ROA is sufficient to equip readers with ROA basics enabling them to perform future independent research From this book readers can judge whether ROA is of any value to their field

Strategic Investment Han T. J. Smit, Lenos Trigeorgis, 2012-01-12 Corporate finance and corporate strategy have long been seen as different sides of the same coin Though both focus on the same broad problem investment decision making the gap between the two sides and between theory and practice remains embarrassingly large This book synthesizes cutting edge developments in corporate finance and related fields in particular real options and game theory to help bridge this gap In clear straightforward exposition and through numerous examples and applications from various industries Han Smit and Lenos Trigeorgis set forth an extended valuation framework for competitive strategies The book follows a problem solving approach that synthesizes ideas from game theory real options and strategy Thinking in terms of options games can help managers address questions such as When is it best to invest early to preempt competitive entry and when to wait Should a firm compete in R D or adopt an accommodating stance How does one value growth options or infrastructure investments The authors provide a wide range of valuation examples such as acquisition strategies R D investment in high tech sectors joint research ventures product introductions in consumer electronics infrastructure and oil exploration investment Representing a major step beyond standard real options or strategy analysis and extending the power of real options and strategic thinking in a rigorous fashion Strategic Investment will be an indispensable guide and resource for corporate managers MBA students and academics alike

Empirical Studies on Economics of Innovation, Public Economics and Management Mehmet Huseyin Bilgin, Hakan Danis, Ender Demir, Ugur Can, 2017-03-06 This volume presents selected papers from the 18th Eurasia Business and

Economics Society EBES Conference with major emphasis placed on highlighting the latest research developments in the economics of innovation public economics and management The articles in the volume also address more specialized topics such as luxury fashion weather derivatives health management islamic bonds and life satisfaction among others The majority of the articles focus on phenomena observed in the Middle East and North Africa MENA region and South Asia representing a unique contribution to understanding contemporary research challenges from a different perspective **Valuation**
