

VEDIC HINDU COSMOLOGY

In ancient Hindu Cosmology, what we know as the Earth is only one of countless worlds located in Brahmanda, which is itself only one of the innumerable universes. The known world was located in the middle of Bhū-loka, comprised of many ring-shaped landmasses separated by oceans of various composition. From its center rose Mount Meru, reaching into the heavens. With the cycle of reincarnation, it was possible to reach other, upper or lower realms (or lokas). Below the Bhū-loka was a multitude of increasingly worse hellish realms, with the ocean Garbhodaka located at the very bottom. Above the Earth and the sky were the heavenly realms, with the abode of the creator god Brahma located at the top of the world.

Juza,2020-11-05 The New Testament and the Future of the Cosmos is an exploration into the cosmic eschatology of the New Testament It invites the reader to grapple with two interrelated questions along with the author 1 What did the writers of the New Testament teach about the fate of the cosmos and 2 can we synthesize their teachings into a coherent New Testament theology By offering a close reading of key texts that inform the topic most notably Matt 24 29 31 Mark 13 24 27 Luke 21 25 28 Rom 8 19 22 Heb 12 25 29 2 Pet 3 4 13 and Rev 21 1 5 it is argued that one can with certain qualifications ascertain a clear and coherent New Testament message pertaining to the future of the cosmos Along the way new exegetical ground is broken in several passages by identifying a previously unnoticed theme that runs throughout the New Testament concerning the future of the cosmos God s judgment of the heavenly powers of evil as a key component to the cosmic transition At present these hostile powers hold the cosmos captive to death but on the Day of the Lord they will be overthrown setting the stage for a materially transformed world to emerge from the hand of God The Man of the East Global Constitution World Under One Rule M.
