

Alistair Fox and John Guy. *Reassessing the Henrician Age: Humanism, Politics and Reform 1500-1550*. Oxford and New York: Basil Blackwell. 1986. Pp. vi, 242. \$45.00

This book, one of a number of recently published reassessments of the Henrician Age, unravels another strand of the interpretive bonds woven around the Tudor world by Sir Geoffrey Elton. Since 1953, Elton not only has redefined Tudor studies, he actively has encouraged his own students and other scholars to continue the process of revision. Alistair Fox and John Guy have heeded the call. Nine separate and distinct papers furnish the substance of their reassessment; five belong to Guy, four to Fox who also wrote the brief introduction which sets out the organizational scheme of the volume. He claims a need for much more detailed work on major issues delineated by Elton, a rethinking of the Henrician political revolution, and a reassessment of the major participants.

The contents are arranged under three separate headings. Part One appraises the political influence of English humanism. Part Two highlights various political forces and concerns, and Part Three traces the intellectual origins of Henrician reform and some of the responses to it.

The first section showcases Alistair Fox's reassessment of English humanism. In three essays he examines definitions and modern interpretations of English humanism and questions the conventional assumptions of a generation of Tudor scholars raised on the work of Zeeveld, Ferguson, Bush, and McConica. In "Facts and Fallacies: Interpreting English Humanism," the first and best of his essays, Fox contends that modern scholars have used the term "English humanism" with such imprecision as to render it meaningless. He argues that English humanism was not a unified movement as commonly depicted, that too many non-humanist figures have been included, and that significant differences among humanists have been obscured, making discrimination impossible. Fox finds that all humanists did share an interest in classical learning and the rejection of medieval scholasticism, but he disagrees with those who extend these common concerns to social, political, or moral philosophies, and he disdains theories which prefabricate assumptions about the ideological role of humanism. If humanism cannot be defined, generalizations about a humanist movement cannot be sustained. The article correctly reminds us that the historiography of English humanism is riddled with sweeping assumptions which often distort or ignore essential differences within the Tudor intellectual community.

Fox's next two essays develop and extend similar themes. "English Humanism and the Body Politic" opposes James K. McConica's thesis that Henrician reform policy was influenced by men committed to a program of Erasmian humanism. Again, Fox contends that both "Erasmian" and "humanism" have been too broadly defined. Moreover, major figures such as More and Pace doubted the efficacy of Erasmus' other worldly Christian-humanist synthesis. Even Thomas Elyot, a committed follower of Erasmianism, could not reconcile its Platonic abstractions with political reality. Only Thomas Starkey presented an effective example of a man guided by practical concerns, "a radical political positivism" that could be translated into statute as the basis for achieving reform within the context of the possible rather than within the realm of what ought to be.

Fox declines to draw conclusions from the example of Starkey's practical humanism. He returns, instead, in his third essay to "Thomas Elyot and the Humanist Dilemma," an analysis of Elyot's thought and career, disappointing in the narrow scope of its concerns
