Recent Industrialization Experience Of Turkey In A Global Context:

Recent Industrialization Experience of Turkey in a Global Context Fikret Senses, 1994-10-30 Discussion of Turkish industrialization in relation to the Structural Adjustment Program of the 1980 in a global context

The Economic Transformation of Turkey Nilgün Önder, 2016-10-27 The coup d'état which took place in Turkey on 12 September 1980 was the third in the history of the Republic and ushered in a three year period of military rule Nilgün Önder investigates the economic transformation of Turkey after this coup examining both the policies enacted under the military regime and those during the subsequent period of civilian government Önder argues the key aspect of economic policy was that of neoliberal restructuring and integral to this was the exclusion of organised labour from the political process In doing so she highlights the irony of the era that at an official level there was an emphasis upon neoliberal economic values such as limited state involvement And yet at the same time policies were enacted which were aimed at a more interventionist position when it came to industrial relations It was through new legislation and bureaucratisation of the industrial relations system that the state transformed the Turkish economy attempting to open it up to foreign investment and trade in effect creating the foundations of Turkey's current economic success The Economic Transformation of Turkey examines the relations between state and labour during this period by concentrating on the form of state and political regime As a result Önder highlights the continuation of neoliberal restructuring and the accompanying anti labour policy in Turkey throughout the 1980s and 1990s despite the transition to democratic rule Shaped by the theory that the form of rule and the actions of organized interests in a particular society are conditioned by the constraints of the world political economic order this book explores the networks of interactions between global capital and international institutions on the one hand and the state and domestic social forces in Turkey on the other

The State and Global Change Hassan Hakimian, Ziba Moshaver, 2020-08-11 Economic liberalisation and reform are widely considered as the favourite remedies for the declining economic fortunes of the Middle Eastern and North African states in the past two decades International economic institutions have been among the main advocates of transition to market led economies in the region and a force contributing to its realisation This has placed the state at the centre of the proposed transformations acting both as an instrument of and an obstacle to change With attempts at liberalisation worldwide spanning over twenty years the time is ripe for a re evaluation of its premises and outcome The essays in this volume debate the political economy of transition and reforms in the Middle East and North Africa drawing on interdisciplinary approaches and outlooks involving international regional and national levels of analysis The three central themes of the book are the rationale and strategies for reform the processes and outcomes and the nature of the state in the changing global setting

Foreign Aid: New Perspectives K. L. Gupta, 2012-12-06 Foreign aid has been an area of active scholarly investigation since the end of the Second World War but particularly since the early 1950s when a large number of the erstwhile colonies became independent Few areas of public policy involving the developed and developing countries have

aroused more passion and ideological debate than foreign aid In spite of the massive amount of research in the field there is still not enough work in two areas the first involves the mechanisms through which aid influences the economies of the donor and the recipient countries and the second country specific assessments of the effectiveness of foreign aid Foreign Aid New Perspectives is aimed at making a contribution in these two areas The contents of this volume are divided into four parts Part I deals with some theoretical aspects of foreign aid while the second part analyzes some general policy aspects Part III turns to the donor experience and includes one paper on the Danish experience The last part considers the recipient experience and consists of five case studies

Democracy and Capitalism in Turkey Devrim Adam Yavuz, 2023-02-23 While a positive correlation between capitalism and democracy has existed in Western Europe and North America the example of late industrializing nations such as Turkey has demonstrated that the two need not always go hand in hand and sometimes the interests of business coincide more firmly with anti democratic forces This book explores the factors that compelled capitalists in Turkey to adopt a more pro democratic ideology by examining a leading Turkish business lobby T SIAD which has been pushing for democratic reform since the 1990s despite representing some of the largest corporation owners in Turkey and having supported the state s authoritarian tendencies in the past such as the military coup of 1980 Drawing on roughly 70 interviews with influential members of T SIAD and individuals close to them the book reveals that business leaders were willing to break away from the state due to the conflict between their evolving economic needs and power with a political elite and state that were unwilling to cater to their demands In so doing the book provides a rich account of business state relations in Turkey as well as providing a case study for the wider study of democracy and capitalism in developing nations

Turkey in World Politics Barry M. Rubin, Kemal Kirişçi, 2001 Tracing the evolution of Turkey s foreign policy from isolationism to regional agreements and organizations this study explores the country s new international posture Rubin strategic studies Bar Ilan University and Kirisci political science Bogazici University assess Turkey s policy toward Europe Russia Central Asia and the United States as well as its growing role in the Middle East They address the issues central to Turkey s economic energy and water policy They also discuss the interest groups and institutions affecting the policymaking process and the challenges facing the country s rapidly urbanizing and industrializing economy

Turkey, a Century of Change in State and Society Bayram Balci, Nicolas Monceau, 2023-06-01 The Republic of Turkey celebrates the centenary of its proclamation in 2023 Founded on the ruins of the Ottoman Empire one of the world s greatest empires both in terms of its geographical extent and its longevity Republican Turkey has gone through a century of profound and constant changes and transformations from politics to society economy to religion or culture to history These changes have been produced by inner and foreign policies carried out and implemented by the country s leaders from Atatürk the founder of modern Turkey to Recep Tayyip Erdoğan the current Turkish President in 2023 but also under the influence of the regional and international context This collective work aims to take stock of the great achievements of the Turkish republican project

It attempts to draw a general presentation of the evolution of contemporary Turkey in six main areas which constitute six major issues for the country the general political evolution of Turkey focusing on the issue of citizenship the transformations in the Turkish economy through a political economy analysis the evolution of the relationship between religion state and society Turkey's nation building and the Kurdish question which still seeks a solution the changes in Turkish foreign policy focusing on the relationship between Turkey and the West the relationship between Turkey and Europe caught between the model of civilization for the republican regime and the prospects of accession to the European Union Several focus points also concentrate on specific subjects such as the Alevi issue the Cyprus issue or the Turkish soft power with an accent on Africa

Material Culture and Authenticity Magdalena Craciun, 2020-05-26 The study of material culture demonstrates that objects make people just as much as people make exchange and consume objects But what if these objects are in the eyes of others only fakes What kind of material mirror are people looking into Are their real selves really reflected in this mirror This book provides an original and revealing study into engagements with objects that are not what they are claimed and presumed to be and subsequently are believed to betray their makers as well as users Drawing upon an ethnography of fake branded garments in Turkey and Romania Material Culture and Authenticity shows how people can make authentic positions for themselves in and through fake objects The book will be of interest to students and scholars working in the fields of anthropology material culture and cultural studies as well as to general readers interested in ethnographic alternatives to biographies of famous fakers and fakes

The Economy of Turkey since Liberalization V. Balasubramanyam, S. Togan, 2016-07-27 Many developing countries have embarked on liberalisation programmes in recent years One such programme which has attracted wide attention and posed a number of analytical issues is that undertaken by Turkey during the 1980s The nine essays in this volume provide an analytical review of recent developments in relation to Turkey's economic transactions The primary focus of most of the essays is on the impact of trade and investment liberalization policies of Turkey on Turkey's foreign trade and growth A feature of the book is the in depth empirical analysis of the issues grounded in recent trade and investment theories
