Recession Crime And Punishment:

Recession, Crime and Punishment Steven Box,1987-08-21 We are often told that unemployment is no excuse for committing crimes It certainly does not follow as many in government would have use believe that crime is unrelated to social conditions Examining a mass of evidence from Great Britain the United States Canada and other industrialised countries Steven Box shows how criminal activity increased with unemployment poverty and sharpened competition between firms He demonstrates that corporate as well as individual crime is affected by the experience of recession and that changing pressures and opportunities alter the character and distribution of deviance as well as increasing its incidence Although deterioration in material circumstances does lead to more crime however it does not alone account for the massive increase in prison populations or increasingly repressive systems of social control These developments the author argues flow more from government attempts to restructure the labour force and the natural reaction of minor state officials like judges police and probation officers to the changing logic of their situations *Criminology and Political Theory* Dr Anthony

Radical and Marxist Theories of Crime Paul B. Stretesky,2017-03-02 The essays selected for this volume show how radical and Marxist criminology has established itself as an influential critique since it emerged in the late 1960s Unlike

orthodox criminology which emphasizes individual level explanations of criminal behavior radical and Marxist criminology emphasizes power inequality and structures especially those related to class as key factors in crime law and justice This collection of essays draws attention to the way in which structural forces shape and influence both individual and institutional for example governmental behavior highlights neglected crime corporate governmental state corporate and environmental which causes more extensive damage than the street crimes examined by orthodox criminology and discusses the ways in which law and criminal justice processes reinforce power structures and contribute to class control

Organised Crime and the Law Liz Campbell, 2013-02-01 Organised Crime and the Law presents an overview of the laws and policies adopted to address the phenomenon of organised crime in the United Kingdom and Ireland assessing the changes to these justice systems in terms of the prevention investigation prosecution and punishment of such criminality While the notion of organised crime is a contested one States legal responses treat it and its constituent offences as unproblematic in a definitional sense This book advances a systematic doctrinal critique of these domestic criminal laws laws of evidence and civil processes Organised Crime and the Law focuses on the tension between due process and crime control the demands of public protection and risk aversion and other adaptations In particular it identifies parallels and points of divergence between the different jurisdictions in the UK and Ireland bearing in mind the shared history of subversive threats and counter terrorism policies It also examines the extent to which policy transfer is evident in the UK and Ireland in terms of emulating the United States in reacting to organised crime

Law, Ideology and Punishment A.W. Norrie, 2012-12-06 This book is about Kantianism in both a narrow and a broad sense In the former it is about the tracing of the development of the retributive philosophy of punishment into and beyond its classical

phase in the work of a number of philosophers one of the most prominent of whom is Kant In the latter it is an exploration of the many instantiations of the Kantian ideas of individual guilt responsibility and justice within the substantive criminal law On their face such discussions may owe more or less explicitly to Kant but in their basic intellectual structure they share a recognisably common commitment to certain ideas emerging from the liberal Enlightenment and embodied within a theory of criminal justice and punishment which is in this broader sense Kantian The work has its roots in the emergence in the 1970s and early 1980s in the United States and Britain of the justice model of penal reform a development that was as interesting in terms of the sociology of philosophical knowledge as it was in its own right Only a few years earlier I had been taught in undergraduate criminology which appeared at the time to be the only discipline to have anything interesting to say about crime and punishment that classical criminology that is Beccaria and the other Enlightenment reformers who had been colonised as a school within criminology had died a major death in the 19th century from which there was no hope of resuscitation
