society and what could be the effect of such collaboration if there is any In asking on what bases is the church getting involved with the society he explores both the Biblical foundations and three major theories that have emerged about societies and social behaviour Particular attention is paid to the relationship between religion and social change to the case of the church in Lagos Nigeria as an agent of social and political change in society Using a thematic structure Richard Adekoya illustrates different roles the church can play in society especially in a democratic milieu for example humanity services educational development spiritual and moral development and social and ethical development He examines the various contributions of the churches in Nigeria right from the missionaries era to the contemporary dispensation The book basically proved that the church mandate is not limited to its evangelical obligations Its involvement in many aspects of peoples lives in society particularly the social and political aspects is part of its cultural mandate This is a challenging book rich in example and wide ranging in scope key ideas that so often appear impossible for the church to practice employment generation political leadership public enlightenment tackling corruption in the polity here practically seem possible Richard Adekoyas excellent work tackles this set of issues in a very thorough way By looking at the issues through the lens of the Bible church history and sociological analysis he makes a powerful theological case for the involvement of the church in the societies in which it finds itself called to give a witness Understandably and helpfully there is a particular emphasis on Nigeria a nation which he knows well By choosing Nigeria as a kind of case history the broader general case is given a particular and penetrating illustration that strengthens his wider argument Dr Martin Robinson Principal ForMission College Birmingham UK

Fallacy of Militant Ideology Munir Masood Marath, 2021-09-05 This book highlights the conflict between jihadist militants and the West as essentially ideological in character It has serious implications internalized by Muslim societies with the boundaries of faith changed by the interplay of socio political variables Violence emerged in Muslim societies as a means of emancipation or identity when the state could not resolve the conflict situation Although the militants were influenced by socio political factors they have always looked to religion to justify their acts of violence This book exposing the fallacy of the narrative evolved by the militants offers a counter narrative It reinterprets the primary sources unravels the historical and socio political constructs unmasks the heroes and enemies challenges the dichotomies between theory and practice re establishes the boundaries between heresy and faith and attempts to transform the current

ideological discourse This book will be of interest to students and scholars of the discourse between religion and security political Islam Islamic history jihad Middle Eastern studies and South Asian studies **Handbook of Marriage and the Family** Suzanne K. Steinmetz, Marvin B. Sussman, 2013-11-11 The lucid straightforward Preface of this Handbook by the two editors and the comprehensive perspectives offered in the Introduction by one of them leave little for a Foreword to add It is therefore limited to two relevant but not intrinsically related points vis a vis research on marriage and the family in the interval since the first Handbook Christensen 1964 appeared namely the impact on this research of the politicization of the New Right and of the Feminist Enlightenment beginning in the mid sixties about the time of the first Handbook In the late 1930s Willard Waller noted Fifty years or more ago about 1890 most people had the greatest respect for the institution called the family and wished to learn nothing whatever about it Everything that concerned the life of men and women and their children was shrouded from the light Today much of that has been changed Gone is the concealment of the way in which life begins gone the irrational sanctity of the home The aura of sentiment which once protected the family from discussion clings to it no more We want to learn as much about it as we can and to understand it as thoroughly as possible for there is a rising recognition in America that vast numbers of its families are sick from internal frustrations and from external buffeting We are engaged in the process of reconstructing our family institutions through criticism and discussion 1938 pp 3 4

The Sociology of Religion Thomas F. O'Dea, 1966 Selected references p 118 Bibliographical footnotes **Buddhist and Protestant Korean Immigrants** Okyun Kwon, 2003 Kwon explores how Korea's two major religious groups Buddhists and Protestants have emigrated and how their religious beliefs affect their adjustments after immigration Kwon bases his study on a survey of 114 Korean congregations participatory observation of a Buddhist temple and a Protestant church and in depth interviews with 109 devout immigrants He finds that non religious variables urban background educational level and social class have a greater effect on adjustment to the host society than religion does Religious congregations promote members social capital for adjustment but at the same religious participation serves as a barrier to assimilation

Rethinking Materialism Robert Wuthnow, 1995 This collection of essays by ten of the nation's prominent social scientists and theologians offers serious commentary on our culture's obsession with material goods and examines the uneasy relation of materialism to religion The contributors assess the ways in which materialism has been understood in recent analyses of American character how the economy shapes our understandings of ourselves the ways in which religious thought is being reshaped by economic circumstances and the nature of consumerism The complement to Wuthnow's *God and Mammon in America* this volume challenges us all to look at materialism in new ways and suggests viable means for reversing our country's prevailing material fixation and its destructive effects on our spiritual lives □□□□□□□□, 1976

Belonging Abby Day, 2011-10-07 Believing in Belonging draws on empirical research exploring mainstream religious belief and identity in Euro American countries Starting from a qualitative study based in northern England and then broadening the data to include other parts of Europe and North America Abby Day explores how people believe in belonging choosing religious identifications to complement other social and emotional experiences of belongings The concept of performative belief helps explain how otherwise non religious people can bring into being a Christian identity related to social belongings What is often dismissed as nominal religious affiliation is far from an empty category but one loaded with cultural stuff and meaning Day introduces an original typology of natal ethnic and aspirational nominalism that challenges established disciplinary theory in both the European and North American schools of the sociology of religion that assert that most people are unchurched or believe without belonging while privately maintaining beliefs in God and other spiritual phenomena This study provides a unique analysis and synthesis of anthropological and sociological understandings of belief and proposes a holistic organic multidimensional analytical framework to allow rich cross cultural comparisons Chapters focus in particular on the genealogies of belief in anthropology and sociology methods for researching belief without asking religious questions the acts of claiming cultural identity youth gender the social supernatural fate and agency morality and a development of anthropocentric and theocentric orientations that provides a richer understanding of belief than conventional religious secular distinctions
