

Religion In Australia

Philip Hughes

Religion In Australia:

Believing in Australia Hilary M. Carey, 1996-07-01 Australians have been slow to appreciate the rich variety of their religious inheritance. Believing in Australia is a much needed cultural history of Australia's many religions which goes well beyond existing studies of denominationalism. Hilary Carey traces the changes in religious practice brought by waves of migration including European occupation and the post war growth of Orthodox Jewish Muslim and Buddhist communities. She also examines the slow European discovery of Aboriginal religions, the vital importance of religion for women and the recent growth of Christian fundamentalism and New Age sects. Believing in Australia demonstrates the central place of religion in the Australian experience and offers an engaging introduction to Australia's religious history for believers and non believers alike. A landmark book it opens up major new themes in Australian history which demand attention. Edmund Campion Catholic Institute of Sydney. Hilary Carey deftly weaves the histories of Australia's faith communities into a coat of many colours. Essential and absorbing reading for all who believe in Australia and its future as an integrated multi religious nation. Rachel Kohn Religion Today Radio National

Media Perceptions of Religious Changes in Australia Enqi Weng, 2019-12-05 This volume explores the contradiction between the news coverage given to issues of religion particularly since 2001 in relation to issues such as terrorism politics security and gender and the fact of its apparent decline according to Census data. Based on media research in Australia and offering comparisons with the UK the author demonstrates that media discussions overlook the diversity that exists within religions particularly the country's main religion Christianity and presents religion according to specific interpretations shaped by race class and gender which in turn result in very limited understandings of religion itself. Drawing on understandings of the sacred as a non negotiable value present in religious and secular form Media Perceptions of Religious Changes in Australia calls for a broader sociological perspective on religion and will appeal to scholars of sociology and media studies with interests in religion and public life

Religions in Australia Kaye Healey, 1998 Religions in Australia Issues in society volume 86

Religion and Change in Australia Adam Possamai, David Tittensor, 2022-03-30 This timely book offers a panoramic overview of the enduring significance of religion in modern Australian society. Applying sociological perspectives and contemporary theories of religion in society it challenges conventional assumptions around the extent of secularisation in Australia and instead argues that religious institutions groups and individuals have proved remarkably adaptable to social change and continue to play a major role in Australian life. In doing so it explores how religion intersects with a wide range of other contemporary issues including politics race migration gender and new media. Religion and Change in Australia explores Australia's unique history regarding religion. Christianity was originally imported as a tool of social control to keep convicts settlers and Australian Aboriginal peoples in check. This had a profound impact on the social memory of the nation and lingering resentment towards the excessive presence of religion continues to be felt today. Freedom of religion was enshrined in Section 116 of the Australian

Constitution in 1901 Nevertheless the White Australia Policy effectively prevented adherents of non Christian faiths from migrating to Australia and the nation remained overwhelmingly Christian However after WWII Australia in common with other western societies appears to have become increasingly secularised as religious observance declined dramatically However Religion and Change in Australia employs a range of social theories to challenge this secularist view and argues that Australia is a post secular society The 2016 census revealed that over half of the population still identify as Christian In politics the socially conservative religious right has come to exert considerable influence on the ruling Liberal National Coalition particularly under John Howard and Scott Morrison New technologies such as the Internet and social media have provided new avenues for religious expression and proselytisation whilst so called megachurches have been built to cater to their increasing congregations The adoption of multiculturalism and increased immigration from Asia has led to a religiously pluralist society though this has often been controversial In particular the position of Islam in Australia has been the subject of fierce debate and Islamophobic attitudes remain common Atheism non belief and alternative spiritualities have also become increasingly widespread especially amongst the young Religion and Change in Australia analyses these developments to offer new perspectives on religion and its continued relevance within Australian society This book is therefore a vital resource for students academics and general readers seeking to understand contemporary debates surrounding religion and secularisation in Australia

Losing My Religion Tom Frame, 2010-10-14 In this challenging and provocative book Tom Frame one of Australia's best known writers on religion and society examines diminishing theological belief and declining denominational affiliation He argues that Australia has never been a very religious nation but that few Australians have deliberately rejected belief most simply can't see

Australian Soul Gary Bouma, 2007-03-15 Australian Soul challenges the idea that religious and spiritual life in Australia is in decline This fascinating book describes the character of religious and spiritual life in Australia today and argues that far from petering out religion and spirituality are thriving Gary Bouma the leading expert on the state of religious life in Australia provides the most up to date facts and figures and compares the tone of Australian religious practices with those of other countries Australians might be less vocal and more reticent about their religion than Americans are but their religious and spiritual beliefs are no less potent Australian Soul describes and analyses our religious and spiritual life in detail as well as providing a series of case studies that illustrate the range of practices and beliefs in Australia today Australian Soul predicts a vital future for religion and spirituality

Post-God Nation Roy Williams, 2015-05-01 Why religion fell off the radar in Australia and how it can get back on At the time of Federation 98% of Australians identified themselves as Christians Now only 8% say they regularly go to Church What's changed How did Australia become a post Christian nation and what part did the Churches play in their own decline Author Roy Williams God Actually In God they trust has long been an impassioned defender of Christianity Here he tackles the decline of the church head on acknowledging that in many cases inflexibility negativity and a refusal to listen

have led to a tarnished image But he also argues that Australia had a long and often misunderstood Christian heritage And without it he says we will become a society with no moral centre a community where rampant materialism is the only rule Offering a bold roadmap for the Church to change Williams challenges atheists agnostics and true believers to a genuinely open debate about the force of faith

What Is Happening to Religion in Australia? Philip Hughes, 2025-02-28 an indispensable book for all Church leaders Dr Muriel Porter OAM Australian censuses and other surveys serve to inform us of the situation currently facing Australian Christian churches and other religious traditions While declines in religious identity and attendance became apparent in the 1970s the rate of decline has increased in recent years particularly in the more progressive churches despite being offset by immigration and by the charismatic movement reflecting global patterns This book takes seriously this situation and drawing on international scholarship explains it in terms of changes in personal and social values particularly in relation to sexuality within a changing social context Scientific views of the world medical and technological advances the growth of welfare systems and the economic independence of individuals have radically changed Western societies and the place of religion within them The author also notes how churches may respond to the reality of declining numbers suggesting that the contemporary context offers new ways in which communities and individuals may find meaning in life values to live for and opportunities to make the world a better place Philip Hughes deep dive into wide ranging research shows how changes in society itself have impacted the churches and offers some suggestions as to how the churches might re connect with the Australian community an indispensable book for all Church leaders Dr Muriel Porter OAM Melbourne writer historian and lay Anglican Accessible and engaging this is the best book of its kind I have read on Australian religion I highly recommend it to anyone interested in how faith is shaped by society and culture Professor Andrew Singleton Professor of Sociology and Social Research Deakin University Geelong What is happening to religion in Australia might be uncomfortable reading but it deserves careful reading by Christian leaders trying to wrestle with the decline of Christianity in Australia Hughes reputation as a religious demographer underscores the urgency of the statistical analysis offered here Rev Associate Professor Darrell Jackson Principal Whitley College University of Divinity

Religion in Australia Hans Mol, 1971

Religion after Secularization in Australia Timothy Stanley, 2015-09-01 Religion s persistent and new visibility in political life has prompted a significant global debate One of this debate s key features concerns the nature and impact of secularization This collection of essays draws together leading sociologists historians philosophers of religion and political theorists in order to provide a broad and up to date account of religion after secularization Contributors explore the meaning and conceptual legacies of religion as well as the unique features of the Australian case such as religion as it relates to law education gender media and radical political movements Intervening in the current debate this book provides summative accounts of the historical cultural and legal interactions that have informed Australia s relationship to religion and secularization Contributors critically analyze and engage with secular political theory concerning the public sphere while

also dissecting deliberative politics and democratic practices This book propels the debate over religion s place in public life in new directions and promotes urgently needed public understanding *Japanese New Religions in Global Perspective* Peter B Clarke, Peter B. Clarke, 2013-11-05 Since the 1960s virtually every part of the world has seen the arrival and establishment of Japanese new religious movements a process that has followed quickly on the heels of the most active period of Japanese economic expansion overseas This book examines the nature and extent of this religious expansion outside Japan *Life, Ethics and Faith in Australian Society: Facts and Figures* Philip Hughes, Lachlan Fraser, 2014 A reference book from the Christian Research Association Religion interacts with almost every aspect of life Australian religious communities have grown through immigration but have declined through cultural changes These communities continue to educate almost 40 per cent of Australian students and provide many of Australia s welfare services and international aid In turn religious faith has an impact on the age at which young people get married family size the occupations their members go into as well as how they spend their time and money and their involvement in voluntary activities Religious faith also has an impact on people s values their attitudes to work and leisure their sense of meaning in life and their attitudes to the sacredness of human life and to expressions of sexuality Drawing on data from the Australian Bureau of Statistics and several other major social surveys this book explores not only the general impact of religion but how that impact varies according to the extent of people s involvement in religion and the particular religious group in which people are involved To understand Australian culture and society one needs to understand the impact of the multiplicity of faiths that shape the lives of Australians *Religion and Law in Australia* Paul Babie, Joshua Neoh, James Krumrey-Quinn, Chong Tsang, 2018-12-17 Derived from the renowned multi volume International Encyclopaedia of Laws this convenient resource provides systematic information on how Australia deals with the role religion plays or can play in society the legal status of religious communities and institutions and the legal interaction among religion culture education and media After a general introduction describing the social and historical background the book goes on to explain the legal framework in which religion is approached Coverage proceeds from the principle of religious freedom through the rights and contractual obligations of religious communities international transnational and regional law effects and the legal parameters affecting the influence of religion in politics and public life Also covered are legal positions on religion in such specific fields as church financing labour and employment and matrimonial and family law A clear and comprehensive overview of relevant legislation and legal doctrine make the book an invaluable reference source and very useful guide Succinct and practical this book will prove to be of great value to practitioners in the myriad instances where a law related religious interest arises in Australia Academics and researchers will appreciate its value as a thorough but concise treatment of the legal aspects of diversity and multiculturalism in which religion plays such an important part **The Encyclopedia of Religion in Australia** James Jupp, 2009-09-10 Australia is a country rich in religious diversity While constitutionally speaking Australia is a secular society

waves of immigration over its short history have had a large impact on its religious and cultural make up The Encyclopedia of Religion in Australia is the first major work of reference to describe the beliefs practices and organisation of religion in Australia It examines religion in several different ways historical development belief systems and controversies as well as the social role each faith plays in modern Australian society This comprehensive volume includes entries on indigenous spirituality Scientology hillsong and atheism and features all of the major religions Richly illustrated it includes a section dedicated to current debates and issues in modern day Australia such as the place of religion in politics fundamentalism religious education and social cohesion *Aboriginal Religions in Australia* Françoise Dussart,Howard Morphy,2017-09-08 Over the last 25 years there has been an explosion of interest in the Aboriginal religions of Australia and this anthology provides a variety of recent writings by a wide range of scholars Australian Aboriginal Religions are probably the oldest extant religious systems Over some 50 000 years they have coped with change and re invented themselves in an astonishingly creative way The Dreaming the mythical time when the Ancestor Spirits shaped the territories of the Aborigines and laid down a moral and ritual law for their occupants is the fundamental religious reality It is the basis of the Aborigines s view of their land or country kinship relationships ritual and art However the Dreaming is not a static principle since it is interpreted in different ways as in the extraordinary movement in contemporary indigenous painting and in attempts at an accommodation with Christianity The contributions of anthropologists cultural historians philosophers of religion and others are included in this anthology which not only guides readers through the literature but also ensures this still largely inaccessible material is available to a wider range of readers and non specialist students and academics *Many Religions, All Australian* Gary D. Bouma,1997 Quietly with comparatively little drama a large number of very different religious groups came and settled in australia becoming part of the landscape part of australian life and society As these groups have settled in they have come to be accepted such that now Australian society can be described as having many religions all Australianm from back cover **Understanding Australia's Neighbours** Nick Knight,Michael Heazle,Daniel Halvorson,2011-09-26 A comprehensive introduction to the study of Asia Written thematically it provides comparisons between Asian and Australian societies and encourages readers to think about Australia s neighbours across a wide range of social economic and historical contexts *Australia's Religious Communities* Philip J. Hughes,Margaret Fraser,Stephen Breck Reid,2012 An essential reference on Australia s religious groups with the latest information from the Australian 2011 Census Church leaders and everyone interested in the changing profile of Australia s profile will find this invaluable This book describes the changing profile and participation in each religious group **Religion in Australia** Roger C. Thompson,1994 An engaging study of the religious beliefs and institutions of Australia and their effect on the country s history Covers Christianity Judaism Islam and Aboriginal spirituality *Shaping Australia's Spirituality* Philip Hughes,Stephen Reid,Claire Pickering,2010
