## Religion In China Today:

**Religion in China Today** Daniel L. Overmyer, 2003-07-17 Table of contents *The Turning of the Tide* Julian F. Pas, 1989 Undoubtedly the greatest problem facing religion in China today is the fundamentally irreconcilable contradiction between Marxism and religious world views These essays published by the Hong Kong Branch of the Royal Asiatic Society in association with Oxford University Press and written by an international group of scholars critically examine different aspects of the present religious state in China **Religion in China** Adam Yuet Chau, 2019-07-12 In recent years there has been an astonishing revival of religious practices in China Looking beyond numerical counts of religious practitioners temples and churches anthropologist Adam Yuet Chau s vivid study explores how religion is embedded in contemporary Chinese lives and society from personal devotion to community wide festivals Covering Buddhism Daoism and folk religion as well as Christianity and Islam this ethnographically rich book provides insights into the contemporary relevance of religious traditions in Chinese societies By considering the ways in which Chinese people do religion Chau reveals how religious practice plays a critical role in establishing and maintaining a wide range of relationships between people spirits and places ritual service providers and their customers the state and religious groups He argues that relationality is the key anchor of religious lifeworlds and this insight demands an entirely new way of approaching religion everywhere This lively account will appeal to those studying or curious about Chinese or East Asian religions and serves as a perfect gateway to understanding religious practices in China today **Religion in China Today** Foster Stockwell, 1993 **Religion in China Today** Donald E. MacInnis, 1989 *Religion and the Individual* Abby Day, 2016-04-08 What does religion mean to the individual How are people religious and what do their beliefs practices and identities mean to them The individual s place within studies of religion has tended to be overlooked recently in favour of macro analyses Religion and the Individual draws together authors from around the world to explore belief practice and identity Using original case studies and other work firmly placed in the empirical contributors discuss what religious belief means to the individual They examine how people embody what religion means to them through practice considering the different meanings that people attach to religion and the social expressions of their personal understandings and the ways in which religion shapes how people see themselves in relation to others This work is cross cultural with contributions from Asia Europe and North America **Religion in China** Fenggang Yang, 2011-10-18 Religion in China survived the most radical suppression in human history a total ban of any religion during and after the Cultural Revolution All churches temples and mosques were closed down converted for secular uses or turned to museums for the purpose of atheist education Over the last three decades however religion has survived and thrived even as China remains under Communist rule Christianity ranks among the fastest growing religions in the country and many Buddhist and Daoist temples have been restored The state even sponsors large Buddhist gatherings and ceremonies to venerate Confucius and the legendary ancestors of the Chinese people On the other hand quasi religious qigong practices

once ubiquitous are now rare All the while authorities have carried out waves of atheist propaganda anti superstition campaigns severe crackdowns on the underground Christian churches and various evil cults How do we explain religion in China today How did religion survive the eradication measures in the 1960s and 1970s How do various religious groups manage to revive despite strict regulations Why have some religions grown fast in the reform era Why have some forms of spirituality gone through dramatic turns In Religion in China Fenggang Yang provides a comprehensive overview of the religious change in China under Communism

**Religion and China's Welfare Regimes** André Laliberté, 2022-04-23 This book presents the welfare regime of China as a liminal space where religious and state authorities struggle for legitimacy as new social forces emerge It offers a unique analysis of relations between religion and state in the People's Republic of China by presenting how the Chinese Communist Party CCP tries to harness Buddhist resources to assist in the delivery of social services and sheds light on the intermingling of Buddhism and the state since 1949 This book will appeal to academics in social sciences and humanities and broader audiences interested in the social role of religions charity NGOs and in social policy implementation The author explores why the CCP turns to Buddhist followers and their leaders and presents a detailed view of Buddhist philanthropy contextualized with an historical overview a regional comparative perspective and a review of policy debates This book contributes to our understanding of secularity in a major non Western society influenced by religions other than Christianity

**Atlas of Religion in China: Social and Geographical Contexts** Fenggang Yang, 2018-09-04 The speed and the scale with which traditional religions in China have been revived and new spiritual movements have emerged in recent decades make it difficult for scholars to stay up to date on the religious transformations within Chinese society This unique atlas presents a bird's eye view of the religious landscape in China today In more than 150 full color maps and six different case studies it maps the officially registered venues of China's major religions Buddhism Christianity Protestant and Catholic Daoism and Islam at the national provincial and county levels The atlas also outlines the contours of Confucianism folk religion and the Mao cult Further it describes the main organizations beliefs and rituals of China's main religions as well as the social and demographic characteristics of their respective believers Putting multiple religions side by side in their contexts this atlas deploys the latest qualitative quantitative and spatial data acquired from censuses surveys and fieldwork to offer a definitive overview of religion in contemporary China An essential resource for all scholars and students of religion and society in

The "Inscrutably Chinese" Church Nathan Faries, 2010-09-23 The first half of the twenty first century promises to be a time of great change for the Christian church in the People's Republic of China The situation is complex and fluid and the information gap between those on the inside and those outside of China is still significant though shrinking The Inscrutably Chinese Church moves readers nearer to the Chinese Christian experience as Nathan Faries helps foreign readers to see with greater clarity just how Chinese Christians view their government and themselves in relation to those ruling powers There still exists a measure of inscrutability about China and its complex relationship with religion that must be explained to the outsider It is this gap in understanding between insider points of view within China and those outsiders seeking knowledge about the Christian faith in China that Faries seeks to close

**World Christianity and Marxism** Denis Janz, 1998 All the diverse philosophical and political manifestations of Marxism were ultimately rooted in Marx's thought and supporters based their greater or lesser hostilities toward Christianity on their reading of his critique Janz follows this with an overview of Christian responses to Marx extending from the mid 19th century to the onset of the Cold War
