Religion In The New Millennium Theology In The Spirit Of Paul Tillich:

Religion in the New Millennium Raymond F. Bulman, Frederick J. Parrella, 2001 Religion in the New Millennium is a collection of articles that examine the present and future role of religion at the beginning of the third Christian millennium The essays were developed from papers given at an international Paul Tillich conference held in New Harmony Indiana in June 1999 and were carefully revised and adapted for publication The book like the New Harmony conference from which it emerged was inspired by the theological work of twentieth century theologian Paul Tillich Capitalism as Religion? A Study of Paul Tillich's Interpretation of Modernity Francis Ching-Wah Yip, 2010-09-30 The relationship between religion and modern culture remains a controversial issue within Christian theology Using the concept of cultural modernity Francis Ching Wah Yip reconstructs Paul Tillich's interpretation of modernity and shows that Tillich's notion of theonomy served to underscore the problems of modernity and to develop a response The Cambridge Companion to Paul Tillich Russell Re Manning, 2009-02-12 The complex philosophical theology of Paul Tillich 1886-1965 increasingly studied today was influenced by thinkers as diverse as the Romantics and Existentialists Hegel and Heidegger A Lutheran pastor who served as a military chaplain in World War I he was dismissed from his university post at Frankfurt when the Nazis came to power in 1933 and emigrated to the United States where he continued his distinguished career This authoritative Companion provides accessible accounts of the major themes of Tillich's diverse theological writings and draws upon the very best of contemporary Tillich scholarship Each chapter introduces and evaluates its topic and includes suggestions for further reading The authors assess Tillich's place in the history of twentieth century Christian thought as well as his significance for current constructive theology Of interest to both students and researchers this Companion reaffirms Tillich as a major figure in today's theological landscape Religious Internationalism Matthew Lon Weaver, 2010 Religious Internationalism assembles and assesses for the first time the ethics of war and peace in the writings of Paul Tillich It sketches the evolution of Tillich's thought from the period of his service in the German Imperial Army through the time of the Cold War The work begins by analyzing Tillich's theological roots and his World War I chaplaincy sermons as the starting point for his thoughts on power and nationalism Then Religious Internationalism looks to his postwar turn to socialist thought and his participation in religious socialism fueling his cultural analyses and culminating in his forced emigration under Hitler Next it probes the American interwar period giving special attention to Tillich's self-described boundary perspective as well as the one treatise he wrote on religion and international affairs The book also examines his Voice of America speeches written and broadcast into his former homeland during World War II Weaver next considers Tillich's message to his English speaking audience of that period emphasizing social and world reconstruction The discussion continues by examining his vision of a path toward personhood in a bipolar world Finally the book constructs Tillich's ethics of war and peace as an ethic of religious internationalism suggesting adjustments intended to give it more universal significance The study concludes that Tillich's

thought has provocative contributions to make to debates regarding civilizational conflict economics and international justice trade and globalization the defense of unprotected minorities and immigration policy Book jacket **A Cultural Theology of Salvation** Clive Marsh,2018-11-01 There aren't many serious works of systematic theology which engage with Breaking Bad The Big Bang Theory Crazy Heart theories of capital and positive psychology as well as the Isenheim Altarpiece and Handel's Messiah This lively contemporary study of salvation does precisely that Christian doctrine cannot simply repeat what has gone before even as it recognises the value and richness of the traditions Christianity carries with it Clive Marsh acknowledges this in exploring how doctrine interweaves with life experience and cultural consumption A Cultural Theology of Salvation considers how salvation is to be understood and articulated now when the theme of redemption appears outside of Christianity in the arts and popular culture Marsh also assesses whether contemporary interest in happiness has anything to do with salvation The first part of the book sets the enquiry in the context of how theology operates as a discipline and the cultural climate in which theology has to be done The second part offers a number of case studies in art music TV film positive psychology and economic life exploring how the concerns of a doctrine of salvation are addressed directly and indirectly in Western culture The third part distils the results of the case studies in formulating a contemporary exposition of salvation and concludes by showing what this means in practice **Original Sin and Everyday Protestants**

Finstuen,2010-07-13 In the years following World War II American Protestantism experienced tremendous growth but conventional wisdom holds that midcentury Protestants practiced an optimistic progressive complacent and materialist faith In Original Sin and Everyday Protestants historian Andrew Finstuen argues against this prevailing view showing that theolog

Shopping for Meaningful Lives Bruce P. Rittenhouse,2013-03-27 Consumerism is a problem It deforms individual character our sense of obligation to one another and our concern for future generations and the environment Even in the aftermath of the worst economic downturn in seventy years it remains a defining feature of Western cultures But beyond this assessment neither Christian theologians and ethicists nor secular economists and sociologists have understood what drives consumerism or what can be done to counteract it This is the problem that Bruce P Rittenhouse solves in Shopping for Meaningful Lives Dr Rittenhouse analyzes economic sociological and psychological evidence to prove that consumers behave differently than the current theories predict Dr Rittenhouse shows that consumerism functions as a religion It provides a means of assurance that an individual life is meaningful Because we need this assurance to live out our everyday lives consumerism takes precedence over whatever other values a person professes unless a person can adopt a different way to secure the meaning of his or her life This interpretation explains how consumers actually behave From the perspective of Christian theology consumerism is a wrong answer to a problem of human existence that should be answered by faith in Christ **The Dialectic of the Holy** Robert E. Meditz,2016-09-12 This is the first published book length treatment on Paul

Tillich and Judaism which is a neglected aspect of Tillich's thought It has three compelling features First pivotal biographical

details show the importance of Judaism for Tillich and that he ardently opposed anti-Semitism before WWII and after the Holocaust. Second, Tillich's theological method is examined in key primary sources to show how he maintains continuity between Judaism and Christianity. The primary source analysis includes his 1910 and 1912 dissertations on Schelling, the 1933 *The Socialist Decision*, the 1952 Berlin lectures on the Jewish Question, and his final public lecture on the importance of the history of religion for systematic theology. Particular attention is paid to his dialectical and theological history of religion. Third, Tillich's positive theology of Judaism contrasts sharply with the many complex negative ways in which Judaism is portrayed in Western thought. This contributes significantly to our understanding of the evolving history of Christian anti-Judaism.

Principles and Practicalities of Interfaith Relationships in Nigeria. Hyacinth Kalu, 2011-06-15. Given the amazing interest in interfaith relationships among the religions in Nigeria and the desire to proffer a better approach to these relationships, this book proposes a triological approach as a solution to the religious conflicts and crises that have become the order of the day in Nigeria. In this approach, no religion is left out; all ATR, Islam, and Christianity are treated as equal partners in seeking and offering solutions towards better relationships among religious followers and the Nigerian people. Interfaith relationships and activities involving all three religions in Nigeria ATR, Islam, and Christianity without excluding any is a powerful tool for promoting religious harmony, peace, and cooperation for the stability and advancement of our nation. This volume offers the guidelines and practical activities towards making triological relationships possible and fruitful among the followers of African Traditional Religion, Muslims, and Christians in Nigeria.

Tillich and the Abyss Sigridur Gudmarsdottir, 2016-09-07. This book examines Paul Tillich's theological concept of the abyss by locating it within the context of current postmodern antifoundationalist discussions and debates surrounding feminism, gender, and language. Sigridur Gudmarsdottir develops these tropes into a constructive theology, arguing that Tillich's idea of the abyss can serve as a necessary means of deconstructing the binaries between the theoretical and the practical in producing nihilistic relativism and the safe foundations of knowledge, divine as well as human. How does one search for a map and method through an abyss? In his writings, Tillich expressed the ambiguity and groundlessness of being at the depth structure of the human condition and the reality of God as an abyss. The more we gaze into this abyss, the more we encounter the faults in our various foundations. This book outlines how Tillich's concept of the abyss creates greater opportunities for complexity and liminality and opens up a space where life and death, destruction and construction, fecundity and horror, womb and tomb can coincide. *Paul Tillich, Carl Jung and the Recovery of Religion* John P. Dourley, 2008-06-30. Is religion a positive reality in your life? If not, have you lost anything by forfeiting this dimension of your humanity? This book compares the theology of Tillich with the psychology of Jung, arguing that they were both concerned with the recovery of a valid religious sense for contemporary culture. Paul Tillich, *Carl Jung and the Recovery of Religion* explores in detail the diminution of the human spirit through the loss of its contact with its native religious depths, a problem on which both spent much of their working lives and energies. Both Tillich and Jung

work with a naturalism that grounds all religion on processes native to the human being Tillich does this in his efforts to recover that point at which divinity and humanity coincide and from which they differentiate Jung does this by identifying the archetypal unconscious as the source of all religions now working toward a religious sentiment of more universal sympathy This book identifies the dependence of both on German mysticism as a common ancestry and concludes with a reflection on how their joint perspective might affect religious education and the relation of religion to science and technology Throughout the book John Dourley looks back to the roots of both men's ideas about mediaeval theology and Christian mysticism making it ideal reading for analysts and academics in the fields of Jungian and religious studies

Reclaiming Divine Wrath

Stephen Butler Murray, 2011-09-02 Following the 9/11 terrorist attacks in the United States there was prolific misuse and abuse of the concept of divine wrath in church pulpits In pursuit of a faithful understanding of what he calls a lost doctrine the author of this study investigates the substantial history of how the wrath of God has been interpreted in Christian theology and preaching Starting with the Hebrew and Christian Scriptures and moving historically through Christianity's most important theologians and societal changes several models of divine wrath are identified The author argues for the reclamation of a theological paradigm of divine wrath that approaches God's love and God's wrath as intrinsically enjoined in a dynamic tension Without such a commitment to this paradigm this important biblical aspect of God is in danger of suffering two possible outcomes Firstly it may suffer rejection through conscious avoidance of the narrow misinterpretations of divine wrath that dominate contemporary theology and preaching Secondly irresponsible applications of divine wrath may occur when we neglect to engage and understand the wrath of God as inseparable from God's justice and love in Christian theology and proclamation

From Trent to Vatican II

Raymond F. Bulman, Frederick J. Parrella, 2006-05-25 The second Vatican Council was convened by Pope John XXIII between 1962 and 1965 It marked a fundamental shift toward the modern Church and its far reaching innovations replaced or radically changed many of the practices rules and attitudes that had dominated Catholic life and culture since the Council of Trent in the sixteenth century In this book a distinguished team of historians and theologians offers an impartial investigation of the relationship between Vatican II and Trent by examining such issues as

Eucharistic theology liturgical change clerical reform the laity the role of women marriage confession devotion to Mary and interfaith understanding As the first book to present such a comprehensive study of the connection between the two great Councils this is an invaluable resource for students theologians and church historians as well as for bishops clergy and religious educators

Life as Spirit Keith Ka-fu Chan, 2018-08-21 Paul Tillich is exceptional in modern theologians that his distinctive and abundant understanding of the concept of life and spirit has the potential to engage with other disciplines such as biology psychology cosmology and social science and that his ontological understanding of life as spirit which is so crucial in the ecological consideration is so complex and subtle that enables powerful and critical inter religious dialogue in environmental ethics This book argues that despite the fact that Tillich did not engage in ecological and environmental theology directly his abundant personal experience of nature mysticism and intellectual understanding of the idea of nature rooted in his Lutheran and German idealist heritages and more importantly his ontological pneumatological holistic and multi dimensional conception of unifying and differentiated reality perfectly and organically coupled with the theonomous vision of theology of culture nature and morality is profoundly ecologically oriented

Paulus, Then and Now John Jesse Carey, 2002 Is The Courage to Be still a viable analysis of the human situation Does Tillich s positive sense of Eros illumine our intense discussions of human sexuality Does Postmodernism really dissolve Tillich s major assumptions Can Tillich contribute to the contemporary discussion of science and religion How does his work stand when compared to other writers on creation such as Langdon Gilkey and Sallie McFague Given the paradoxes of Tillich s life is his ethical theory still viable In *Paulus Then and Now A Study of Paul Tillich s Theological World and the Continuing Relevance of his Work* John J Carey clarifies previously neglected foundational aspects of Tillich s thought Carey places Tillich s theological work in political social economic and scholarly context He also explains Tillich s thinking on Luther Marx history and politics and his unique perspective on the Bible and on biblical authority Having accomplished these things Carey then moves to show how Tillich s thinking can be applied to contemporary problems

God on the Western Front Joseph F. Byrnes, 2023-08-31 From 1914 to 1918 religious believers and hopeful skeptics tried to find meaning and purpose behind divinely willed destruction *God on the Western Front* is a history of lived religion across national boundaries religious affiliations and class during World War I utilizing an expansive record of primary sources Joseph F Byrnes takes readers on a tour of the battlefields of France listening to the words of German French and English soldiers going behind the lines to hear from the men and women who provided pastoral and medical care and reviewing the religious writings of priests bishops ministers and rabbis as they tried to make sense of it all The story begins with citizens at home as they responded to the obligation to make war and then focuses on the God talk

and nation talk that soldiers used to express their foundational religious experiences Byrnes's study attends to the words of average men who struggled to articulate their religious sentiments alongside the generals Helmuth von Moltke Ferdinand Foch and Douglas Haig and the soldier theologians Franz Rosenzweig Paul Tillich Pierre Teilhard de Chardin and Geoffrey Studdert Kennedy In doing so he shows how religious and battle experience are intertwined and showcases the wide range of spiritual responses that emerged across boundaries Going beyond the typical constraints of studies focused either on one nation or one confessional affiliation Byrnes's international and interfaith approach breaks new ground It will appeal to scholars and students of modern European history religious history and the history of war
