Johnston,Attilio Mastrocinque,2016-08-17 This volume brings together a variety of approaches to the different ways in which the role of animals was understood in ancient Greco Roman myth and religion across a period of several centuries from Preclassical Greece to Late Antique Rome Animals in Greco Roman antiquity were thought to be intermediaries between men and gods and they played a pivotal role in sacrificial rituals and divination the foundations of pagan religion The studies in the first part of the volume examine the role of the animals in sacrifice and divination The second part explores the similarities

between animals on the one hand and men and gods on the other. Indeed in antiquity the behaviour of several animals was perceived to mirror human behaviour while the selection of the various animals as sacrificial victims to specific deities often was determined on account of some peculiar habit that echoed a special attribute of the particular deity. The last part of this volume is devoted to the study of animal metamorphosis and to this end a number of myths that associate various animals with transformation are examined from a variety of perspectives.

Divine Images and Human Imaginations in Ancient Greece and Rome, 2015-08-27

The polytheistic religious systems of ancient Greece and Rome reveal an imaginative attitude towards the construction of the divine. One of the most important instruments in this process was certainly the visualisation. Images of the gods transformed the divine world into a visually experienceable entity comprehensible even without a theoretical or theological superstructure. For the illiterates images were together with oral traditions and rituals the only possibility to approach the idea of the divine; for the intellectuals images of the gods could be allegorically transcended symbols to reflect upon. Based on the art historical and textual evidence this volume offers a fresh view on the historical literary and artistic significance of divine images as powerful visual media of religious and intellectual communication.

The Ancient City Numa Denis Fustel de Coulanges, 2012-03-14

This influential survey synthesizes ancient documents and physical evidence to build an account of religious family and civic life of Periclean Athens and Rome during the time of Cicero.

Ancient Greece and Rome Keith Hopwood, 1995

Sir Thomas Fairfax not Oliver Cromwell was creator and commander of Parliament's New Model Army from 1645 to 1650. Although Fairfax emerged as England's most successful commander of the 1640s this book challenges the orthodoxy that he was purely a military figure showing how he was not apolitical or disinterested in politics. The book combines narrative and thematic approaches to explore the wider issues of popular allegiance, puritan religion, concepts of honour, image, reputation, memory, gender, literature and Fairfax's relationship with Cromwell. *Black Tom* delivers a groundbreaking examination of the transformative experience of the English revolution from the viewpoint of one of its leading yet most neglected participants. It is the first modern academic study of Fairfax making it essential reading for university students as well as historians of the seventeenth century. Its accessible style will appeal to a wider audience of those interested in the civil wars and interregnum more generally.
