Religion In The Medieval West:

Religion in the Medieval West Bernard Hamilton, 2003-08-29 Western European civilization evolved during the medieval centuries when the whole area was converted to Christianity in its Latin Catholic form This account is an introduction to the religious life of this formative period but is concerned less with history of the institutional Church than with the interaction between the Church and lay society This new edition has been updated throughout and thoroughly reorganized making it easier to approach and use New visual evidence has been provided and a glossary of technical terms is included *Religion in the History of the Medieval West* John Van Engen, 2023-05-31 These ten essays by John Van Engen situate religion in the history of medieval Western Europe as an unavoidable presence in everyday life as a conceptual framework for social and political life as a force integral to its historical dynamics Four of the essays are bibliographical and retrospective in nature reviewing the field broadly but also pointing toward a more dialectical approach to understanding the interaction of religion and society in the European middle ages Other studies deal with large topics usually subsumed under the abstract term Christianization They grapple with learned sources as well as those associated with popular religion and show what can be gained from an imaginative use of all that lawyers and theologians said about religion in their society The essays finally look for the quality and dynamic of change even inventiveness released by religious action and conviction in medieval European society

Religion and Society in the Medieval West, 600-1200 Henry Mayr-Harting, 2010 The papers reprinted here all have to do with the very varied ways in which religion made an impact upon or was intertwined with political and social life They span the period from 600 to 1200 with particular points of focus on early Anglo Saxon England Charlemagne the Ottonian empire and 12th century England In these articles the Oxford historian Henry Mayr Harting explores the religion of secular rulers the religion or relative lack of it of bishops and churches the religion of custodians at shrines or of recluses or artists as well as religious phenomena such as angelic apparitions conversion or apocalypticism

Oldest Vocation Clarissa W. Atkinson, 2019-03-15 According to an old story a woman concealed her sex and ruled as pope for a few years in the ninth century Pope Joan was not betrayed by a lover or discovered by an enemy her downfall came when she went into labor during a papal procession through the streets of Rome From the myth of Joan to the experiences of saints nuns and ordinary women *The Oldest Vocation* brings to life both the richness and the troubling contradictions of Christian motherhood in medieval Europe After tracing the roots of medieval ideologies of motherhood in early Christianity Clarissa W Atkinson reconstructs the physiological assumptions underlying medieval notions about women's bodies and reproduction inherited from Greek science and popularized through the practice of midwifery these assumptions helped shape common beliefs about what mothers were She then describes the development of spiritual motherhood both as a concept emerging out of monastic ideologies in the early Middle Ages and as a reality in the lives of certain remarkable women Atkinson explores the theological dimensions of medieval motherhood by discussing the cult of the Virgin Mary in twelfth century art story and religious expression She also offers a fascinating new perspective on the women saints of the later Middle Ages many of whom were mothers their lives and cults forged new relationships between maternity and holiness *The Oldest Vocation* concludes where most histories of motherhood begin in early modern Europe when the family was institutionalized as a center of religious and social organization Anyone interested in the status of motherhood or in women's history the cultural history of the Middle Ages or the history of religion will want to read this book

experiences in medieval Europe In the last section the breadth of the concept of a sinful curiosity is examined and its historical development is delineated in the thought of Augustine of Hippo and the early Cistercians
