Are Islamists Still Islamists? Sümeyye Sakarya, 2025-09-18 This book offers an ontological study of Islamism and its transformation with a specific focus on Türkiye Bangladesh and Senegal The dominant reading of the transformation of Islamism from a discernibly Islamist then anti systemic discourse to a more systemic one has been through the arguments of post Islamism which claim the failure and end of Islamism However this assumes that Islamists are still Islamists which is an oxymoron This book suggests that this scholarship fails to recognise the political ontological nature of Islamism It argues that under theorisation of the political accompanied by Eurocentrism and positivism hinders a proper understanding of Islamism by engendering methodological nationalism and state centrism and obstructing Islamists as political actors by denying them political agency to undertake transformation This shows the need for an ontological analysis to surmount the mentioned problems and comprehend Islamists as political actors by disarticulating any necessary relationship between the political and any fixed entity such as the state a specific rhetoric or form The book as an exercise in political theory offers such an analysis articulated through the tools provided by post foundationalist political theory particularly the works of Martin Heidegger Antonio Gramsci Hannah Arendt and Salman Sayyid who mobilises Carl Schmitt and post Marxist discourse theory to read Islamism This book will appeal to scholars and students of Politics International Relations Area Studies and Sociology especially those specialising in Islam and Islamism

An Unamendable Constitution? Richard Albert, Bertil Emrah Oder, 2018-09-03 This book examines the subject of constitutional unamendability from comparative doctrinal empirical historical political and theoretical perspectives It explores and evaluates the legitimacy of unamendability in the various forms that exist in constitutional democracies Modern constitutionalism has given rise to a paradox can a constitutional amendment be unconstitutional Today it is normatively contested but descriptively undeniable that a constitutional amendment one that respects the formal procedures of textual alteration laid down in the constitutional text may be invalidated for violating either a written or unwritten constitutional norm This phenomenon of an unconstitutional constitutional amendment traces its political foundations to France and the

United States its doctrinal origins to Germany and it has migrated in some form to all corners of the democratic world One can trace this paradox to the concept of constitutional unamendability Constitutional unamendability can be understood as a formally entrenched provision s or an informally entrenched norm that prohibits an alteration or violation of that provision or norm An unamendable constitutional provision is impervious to formal amendment even with supermajority or even unanimous agreement from the political actors whose consent is required to alter the constitutional text Whether or not it is enforced and also by whom this prohibition raises fundamental questions implicating sovereignty legitimacy democracy and the rule of law

Communalism and Globalization in South Asia and Its Diaspora Deana Heath, Chandana Mathur, 2010-12-22 Taking as its premise the belief that communalism is not a resurgence of tradition but is instead an inherently modern phenomenon as well as a product of the fundamental agencies and ideas of modernity and that globalization is neither a unique nor unprecedented process this book addresses the question of whether globalization has amplified or muted processes of communalism It does so through exploring the concurrent histories of communalism and globalization in four South Asian contexts India Pakistan Bangladesh and Sri Lanka as well as in various diasporic locations from the nineteenth century to the present Including contributions by some of the most notable scholars working on communalism in South Asia and its diaspora as well as by some challenging new voices the book encompasses both different disciplinary and theoretical perspectives It looks at a range of methodologies in an effort to stimulate new debates on the relationship between communalism and globalization and is a useful contribution to studies on South Asia and Asian History
