Religions Of The Silk Road Overland Trade And Cultural Exchange

Leonard Lewisohn

Religions Of The Silk Road Overland Trade And Cultural Exchange:

Religions of the Silk Road Richard Foltz, 1999 Foltz who holds a PhD in history from Harvard and has taught at Brown Columbia and Gettysburg College looks behind the romantic notions of the colonial era and tells the story of how cultural traditions especially in the form of religious ideas accompanied merchants and their goods along the overland Asian trade routes in pre modern times In telling how Hebraic and Iranian religious ideas and practices traveled eastward to be followed later by the great missionary traditions of Buddhism Christianity Manichaeism and Islam he reveals how the silk Road was a formative and transformative rite of passage

Religions of the Silk Road R. Foltz, 1999-10-19 During the latter decades of the nineteenth century popular European fascination with the world beyond reached an all time high The British and French empires spanned the globe and their colonial agents sent home exotic goods and stories The Silk Route dates from this romantic period in name if not in reality In the century since its invention as a concept the Silk Route has captured and captivated the Western imagination It has given us images of fabled cities and exotic peoples Religions of the Silk Road tells the story of how religions accompanied merchants and their goods along the overland Asian trade routes of pre modern times It is a story of continuous movement encounters mutual reactions and responses adaptation and change Beginning as early as the eighth century BCE Israelite and Iranian traditions travelled eastwards in this way and they were followed centuries later by the great missionary traditions of Buddhism Christianity Manichaeism and Islam The Silk Route was more than just a conduit along which these religions hitched rides East it was a formative and transformative rite of passage and no religion emerged unchanged at the end of that arduous journey

Religion and Trade Francesca Trivellato, Leor Halevi, Catia Antunes, 2014-08-20 Although trade connects distant people and regions bringing cultures closer together through the exchange of material goods and ideas it has not always led to unity and harmony From the era of the Crusades to the dawn of colonialism exploitation and violence characterized many trading ventures which required vessels and convoys to overcome tremendous technological obstacles and merchants to grapple with strange customs and manners in a foreign environment Yet despite all odds experienced traders and licensed brokers as well as ordinary people travelers pilgrims missionaries and interlopers across the globe concocted ways of bartering securing credit and establishing relationships with people who did not speak their language wore different garb and worshipped other gods Religion and Trade Cross Cultural Exchanges in World History 1000 1900 focuses on trade across religious boundaries around the Mediterranean Sea and the Atlantic and Indian Oceans during the second millennium Written by an international team of scholars the essays in this volume examine a wide range of commercial exchanges from first encounters between strangers from different continents to everyday transactions between merchants who lived in the same city yet belonged to diverse groups In order to broach the intriguing yet surprisingly neglected subject of how the relationship between trade and religion developed historically the authors consider a number of interrelated questions When and where was religion invoked explicitly as part of commercial policies

How did religious norms affect the everyday conduct of trade Why did economic imperatives political goals and legal institutions help sustain commercial exchanges across religious barriers in different times and places When did trade between religious groups give way to more tolerant views of the other and when by contrast did it coexist with hostile images of those decried as infidels Exploring captivating examples from across the world and spanning the course of the second millennium this groundbreaking volume sheds light on the political economic and juridical underpinnings of cross cultural trade as it emerged or developed at various times and places and reflects on the cultural and religious significance of the passage of strange persons and exotic objects across the many frontiers that separated humankind in medieval and early modern times

Managing Supply Chains on the Silk Road Çağrı Haksöz,Sridhar Seshadri,Ananth V. Iyer,2011-12-21 Historically important trade routes for goods of all kinds for more than 3000 years the Silk Road has once again come to prominence Managing Supply Chains on the Silk Road Strategy Performance and Risk present emerging supply chain practices from the Silk Road regions that include China Hong Kong India Pakistan Iran Central Asia Lebanon

Early Buddhist Transmission and Trade Networks Jason Neelis,2010-11-19 This exploration of early paths for Buddhist transmission within and beyond South Asia retraces the footsteps of monks merchants and other agents of cross cultural exchange A reassessment of literary epigraphic and archaeological sources reveals hisorical contexts for the growth of the Buddhist sa gha from approximately the 5th century BCE to the end of the first millennium CE Patterns of dynamic Buddhist mobility were closely linked to transregional trade networks extending to the northwestern borderlands and joined to Central Asian silk routes by capillary routes through transit zones in the upper Indus and Tarim Basin By examining material conditions for Buddhist establishments at nodes along these routes this book challenges models of gradual diffusion and develops alternative explanations for successful Buddhist movement

The Human Journey Kevin Reilly,2012-11-08 The Human Journey offers a truly concise yet satisfying full history of the world from ancient times to the present Its themes include not only the great questions of the humanities nature versus nurture the history and meaning of human variation the sources of wealth and causes of revolution but also the major transformations in human history agriculture cities iron writing universal religions global trade industrialization popular government justice and equality Beginning with our most important questions and searching all of our past for answers this is world history in a grand humanistic tradition

Teaching the Silk Road Jacqueline M. Moore,Rebecca Woodward Wendelken,2012-02-01 The romance of the journey along the Silk Road with its exotic locales and luxury goods still excites the popular imagination The trade route between China and Central Asia that flourished from about 200 BCE to the 1500s the Silk Road can provide great insight for contemporary higher education curricula Indeed with people plants animals ideas and beliefs traversing it the Silk Road is now considered both a metaphor of globalization and an early example of it Teaching the Silk Road highlights the reasons to incorporate this material into courses and shares resources to facilitate that process It is intended for those who are not Silk Road or Asian specialists but

who wish to embrace a global history and civilizations perspective in teaching as opposed to the more traditional world history view that shows impacts of other societies on Europe The work explores both classroom and experiential learning and is intentionally interdisciplinary Each essay focuses on pedagogical strategies or themes that teachers can use to bring the Silk Road into the classroom

Silk Road Footprints: Transnational Transmission of Sacred Thoughts and Historical Legacy David W. Kim, 2025-06-10 The Silk Road generally evokes images of places cultures and peoples linked by the exchange of exotic goods and fabled treasures The notion of the subject however often disregards the historical fact that the Silk Road routes functioned as a unique channel for spreading religious ideas culture and literature The personal or community beliefs of the Silk Road were changed radically as a result of the impact of external influences Silk Road Footprints Transnational Transmission of Sacred Thoughts and Historical Legacy demonstrates that sacred communities interacted coexisted competed and influenced each other over long periods These include those local traditions that evolved in ancient China the Middle East Africa Central Asia Korea and Japan and the subsequent larger traditions that arose in the region Judaism Buddhism Christianity and Islam as well as the shamanistic and animistic traditions of various nomadic peoples The history of religions along the Silk Road is a remarkable illustration of how beliefs and civilisations often reflect a broad pattern of synthesis rather than clash This book indicates that Asia South Southeast East Asia and China one of the most pluralistic religious regions in the world has become a center of attention as a bridge between cultures Ultimately the creative study of the Silk Road and religious transnationalism evidences the implication that the local groups have been developed under the new environment of sacred principles and traditions as well as political influence

Social Scientific Studies of Religion in China Fenggang Yang, Graeme Lang, 2011-01-27 This book provides a sampling of recent field studies of religions in China along with theoretical reflections by sociologists anthropologists and religious studies scholars both inside and outside China on the revival of the social scientific study of religion in Chinese societies

Culture and Customs of the Central Asian Republics Rafis Abazov, 2006-12-30 The Central Asian Republics of Kazakhstan Kyrgyzstan Turkmenistan Tajikistan and Uzbekistan won their independence from the Soviet Union in 1991 Now they are emerging from the shadow of dominance and are subjects of intense interest from the West The modern culture and customs of the various peoples in these geopolitical hotspots straddling the far reaches of Europe into Asia are revealed to a general audience for the first time This will be the must have volume for a broad authoritative overview of these traditional civilizations as they cope with globalization

Dynamics in the History of Religions Between Asia and Europe Volkhard Krech, Marion Steinicke, 2011-11-25 The conference volume of the Bochumer Kolleg Dynamics in the History of Religions between Asia and Europe outlines the thesis that religion is not a homogeneous cultural phenomenon but a dense network of diachronically and synchronically differing traditions

'Pre-Islamic Survivals' in Muslim Central Asia R. Charles Weller, 2023-04-30 The book traces the conceptual lens of historical cultural survivals from the late 19th century theories of E B Tylor James Frazer

and others in debate with monotheistic degenerationists and Protestant anti Catholic polemicists back to its origins in Jewish Christian and Muslim traditions as well as later more secularized forms in the German Enlightenment and Romanticist movements These historical sources particularly the dual faith tradition of Russian Orthodoxy significantly shaped both Tsarist and later Soviet ethnography of Muslim Central Asia helping guide and justify their respective religious missionary social legal political and other imperial agendas They continue impacting post Soviet historiography in complex and debated ways Drawing from European Central Asian Middle Eastern and world history the fields of ethnography and anthropology as well as Christian and Islamic studies the volume contributes to scholarship on syncretism and conversion definitions of Islam history as identity and heritage and more It is situated within a broader global historical frame addressing debates over pre Islamic Survivals among Turkish and Iranian as well as Egyptian North African Berber Black African and South Asian Muslim Peoples while critiquing the legacy of the Geertzian cultural turn within Western post colonialist scholarship in relation to diverging trends of historiography in the post World War Two era

The Political Economy Of China's Belt And Road Initiative Lei Zou,2018-05-07 Silk Road was once the most important economic cultural tie connecting the Eurasian countries before the rise of the West In September 2013 Chinese President Xi Jinping put forward the initiative to jointly build the Silk Road Economic Belt and 21st Century Maritime Silk Road which is abbreviated as the Belt and Road Initiative BRI This book analyzes the BRI through the approach of political economy and establishes the analytic framework of BRI from historical and comparative perspectives It clearly displays the strategic considerations future vision constructing framework governmental actions latest achievements multiple opportunities and potential risks of BRI As China s grand national development strategy and international cooperation initiative the BRI will largely shape China s domestic and foreign policies in the Xi Jinping era The book is the first academic monograph on the BRI and it enables readers to comprehensively understand this initiative and its implications to China Eurasia and the world

World History Encyclopedia [21 volumes] Alfred J. Andrea Ph.D.,2011-03-23 An unprecedented undertaking by academics reflecting an extraordinary vision of world history this landmark multivolume encyclopedia focuses on specific themes of human development across cultures era by era providing the most in depth expansive presentation available of the development of humanity from a global perspective Well known and widely respected historians worked together to create and guide the project in order to offer the most up to date visions available A monumental undertaking A stunning academic achievement ABC CLIO s World History Encyclopedia is the first comprehensive work to take a large scale thematic look at the human species worldwide Comprised of 21 volumes covering 9 eras an introductory volume and an index it charts the extraordinary journey of humankind revealing crucial connections among civilizations in different regions through the ages Within each era the encyclopedia highlights pivotal interactions and exchanges among cultures within eight broad thematic categories population and environment society and culture migration and travel politics and statecraft economics and trade conflict and
