Religious Regimes And State Formation:

Religious Regimes and State Formation Eric R. Wolf, 1991-08-13 This book intends to systematically overcome the received practice of treating religion and politics as wholly separate and independent domains It studies power and meaning in their antagonistic interdependencies rather than approaching religion purely as a realm of meaning without reference to issues of power or dealing with politics as the province of power without raising questions of meaning Religion and politics are thus seen in relation to one another and attention is focused on the disputes about how political and religious regimes should be formed Religious Regimes and State Formation will convince the reader that god and politics have much in common and offers surprising new perspectives on old problems

Religious Regimes and State-formation Adrianus Koster, Daniel Meijers, 1991

Theologies of Power and Crisis Stephen Pavey, 2011-07-01 Theologies of Power and Crisis provides a case study for Eric Wolf's research directive to better comprehend the interplay of cultural webs of meaning and material webs of power forms of social life More specifically the book demonstrates how theological discourse and practice engage with historical and material relations of power It has been normative to speak of power in terms of political and economic processes and theology in terms of interpretive and symbolic experiences This work breaks new ground by linking theological ideas with political economic processes in terms of the structural relations of power Ethnographically this research investigates the theological processes of Hong Kong Chinese Christians during a period of significant social change and crisis precipitated by the return of Hong Kong to China in 1997 It shows how local Christians and Christian institutions mediated the significant regional national and transnational forces of political economic change by connecting theological practice to the structural relations of power The Christian response was a contested process closely intertwined with the broader contested processes of social organization This study develops an understanding of Christianity that goes beyond ecclesiastical hegemony to encompass struggles over human practice meaning and representation in relation to the changing political economic context These findings implicate religious ideas and practice as significant to an understanding of social inequalities and powerlessness by connecting ideologies to material conditions Christian ideas may be used to legitimize an oppressive social order or they may be used to liberate those who are oppressed Issues related to the policies and practice of development should take seriously the role of

Moazami,2013-11-07 Two basic assumptions have shaped understanding of recent Iranian history One is that Shi ism is an integral part of Iran s religious and cultural landscape The other is that the ulama religious scholars have always played a crucial role This book challenges these assumptions and constructs a new synthesis of the history of state and religion in Iran from 1796 to the present while challenging existing theories of large scale political transformation Arguing that the 1979 revolution has not ended Behrooz Moazami relates political and religious transformations in Iran to the larger instability of the Middle East region and concludes that turmoil will continue until a new regional configuration evolves **Transnational Religion And Fading States** Susanne H Rudolph,2018-02-07 Focusing on the dilution of state sovereignty this book examines how the crossing of state boundaries by religious movements leads to the formation of transnational civil society Challenging the assertion that future conflict will be of the clash of civilization variety it looks to the micro origins of conflicts which are as likely to arise between states sharing a religion as between those divided by it and more likely to arise within rather than across state boundaries Thus the chapters reveal the dual potential of religious movements as sources of peace and security as well as of violent conflict Featuring an East West North South approach the volume avoids the conventional and often ethnocentric segregation of the experience of other regions from the European and American Contributors draw examples from a variety of civilizations and world religions They contrast self generated movements from below such as Protestant sectarianism in Latin America or Sufi Islam in Africa with centralized forms of organization and patterns of diffusion from above such as state certified religion in China Together the chapters illustrate how religion as bearer of the politics of meaning has filled the lacuna left by the decline of ideology creating a novel transnational space for world politics **The Oxford Handbook of the Sociology of Religion** Peter Clarke,2011-02-04 The Oxford Handbook of the Sociology of Religion draws on the expertise of an international team of scholars providing both an entry point into the sociological study and understanding of religion and an in depth survey into its changing forms and content in the contemporary world The role and impact of religion and spirituality on the politics culture education and health in the modern world is rigorously discussed and debated The study of the sociology of religion forges interdisciplinary links to explore aspects of continuity and change in the contemporary interface between society and religion Using a combination of theoretical methodological and content led approaches the fifty seven contributors collectively emphasise the complex relationships between religion and aspects of life from scientific research to law ecology to art music to cognitive science crime to institutional health care and more The developing character of religion irreligion and atheism and the impact of religious diversity on social cohesion are

explored An overview of current scholarship in the field is provided in each themed chapter with an emphasis on encouraging new thinking and reflection on familiar and emergent themes to stimulate further debate and scholarship The resulting essay collection provides an invaluable resource for research and teaching in this diverse discipline *Church, State and Society in Kenya* Galia Sabar, 2012-12-06 This volume offers a debate on the role of Christianity in post colonial Kenya charting the role of the church state and society in the transformation of Kenya and the relationship between the three It shows how the church initiated health education and economic activities showing it to be a major instrument of transformation State Formation, Regime Change, and Economic Development Jørgen Møller, 2016-12-19 Failed or weak states miscarried democratizations and economic underdevelopment characterize a large part of the world we live in Much work has been done on these subjects over the latest decades but most of this research ignores the deep historical processes that produced the modern state modern democracy and the modern market economy in the first place This book elucidates the roots of these developments The book discusses why China was surpassed by Europeans in spite of its early development of advanced economic markets and a meritocratic state It also hones in on the relationship between geopolitical pressure and state formation and on the European conditions that from the Middle Ages onwards facilitated the development of the modern state modern democracy and the modern market economy Finally the book discusses why some countries have been able to follow the European lead in the latest generations whereas other countries have not State Formation Regime Change and Economic Development will be of key interest to students and researchers within political science and history as well as to Comparative Politics Political Economy and the Politics of Developing Areas *Christian Witness Between Continuity and New Beginnings* Martin Tamcke, Michael Marten, 2006 Missions to from and within the Middle East have shaped the region in multitudinous ways since the 19th century This collection of essays from a range of international scholars explores this immensely significant subject using a range of disciplines including theology history and geography This interdisciplinary approach helps to provide a thorough overview of the often complex and multi layered topic of missions and the Middle East in contemporary research and will be of interest to all who seek to improve their understanding of the role of religion in the Middle East **Ritual and Belief** David Hicks, 2010-03-15 Ritual and Belief Readings in the Anthropology of Religion is a collection of 41 readings in religion magic and witchcraft The choice of readings is eclectic no single anthropological approach or theoretical perspective dominates the text Theoretical significance scholarly eminence of the author and inherent interest provide the principal criteria and each reading complements its companion chapters which are pedagogically coherent rather than ad hoc assemblages Included among the theoretical perspectives are structural functionalism structuralism Malinowskian functionalism cultural materialism and cultural evolutionism also included are the synchronic and diachronic approaches The book offers a mixture of classic readings and more recent contributions and the world religions are included along with examples from the religions of traditionally non literate cultures As diverse a range of

Other Than Identity Juliet Steyn, 1997 We are witnessing a Europe in turmoil tormented by the violence of ethnic and nationalist struggles which legitimate themselves in the name of identity This anthology explores the assumptions of identity by disassembling old myths and fictions of unity in relation to the subject politics and art Other than identity offers the possibility of rethinking the concept and introducing instead notions of self and other identity politics and aesthetics

The Revival of Islam in the Balkans Olivier Roy, Arolda Elbasani, 2015-07-28 This book shifts analytical focus from macro politicization and securitization of Islam to Muslims choices practices and public expressions of faith An empirically rich analysis the book provides rich cross country evidence on the emergence of autonomous faith communities as well as the evolution of Islam in the broader European context

Madness, Disability and Social Exclusion Jane Hubert, 2013-12-02 A unique work that brings together a number of specialist disciplines such as archaeology anthropology disability studies and psychiatry to create a new perspective on social and physical exclusion from society A range of evidence throws light on such things as the causes and consequences of social exclusion stigma marginality and dangerousness It is an important text that breaks down traditional academic disciplinary boundaries and brings a much needed comparative approach to the subject

Rethinking Nationalism Jonathan S. Hearn, 2020-06-29 This is an innovative and interdisciplinary introduction to the study of nationalism The author uses paired chapters first to present the work of key authors in relation to each of a set of key themes primordialism modernism power and culture and then critically to rethink these core concepts

Religious Diversity in Post-Soviet Society Milda Ališauskiene, Ingo W. Schröder, 2016-04-08 Since the end of state repression against religion two major processes have taken place in the formerly socialist countries historically dominant churches strive to reassert their position in society while new religious groups and ideas from various parts of the world are proliferating This generates pluralism of religious communities and individual religious attitudes Religious Diversity in Post Soviet Society presents the first collection of ethnographies of this new religious diversity for Lithuania a country that has a long history of a dominant Catholic Church The authors reveal how Catholicism has become increasingly diversified and other religions Charismatic Protestantism Baltic Paganism Eastern religions and other alternative spiritualities are claiming their space in the religious field
