Western Confederacy's Final Gamble James Lee McDonough, 2013-10-01 After Major General William Tecumseh Sherman's forces ravaged Atlanta in 1864, Ulysses S. Grant urged him to complete the primary mission Grant had given him: to destroy the Confederate Army in Georgia. Attempting to draw the Union army north, General John Bell Hood's Confederate forces focused their attacks on Sherman's supply line, the railroad from Chattanooga, and then moved across north Alabama and into Tennessee. As Sherman initially followed Hood's men to protect the railroad, Hood hoped to lure the Union forces out of the lower South and perhaps more important, to recapture the long-occupied city of Nashville. Though Hood managed to cut communication between Sherman and George H. Thomas's Union forces by placing his troops across the railroads south of the city, Hood's men were spread over a wide area, and much of the Confederate cavalry was in Murfreesboro. Hood's army was ultimately routed. Union forces pursued the Confederate troops for ten days until they recrossed the Tennessee River. The decimated Army of Tennessee, now numbering only about 15,000, retreated into northern Alabama and eventually Mississippi. Hood requested to be relieved of his command. Less than four months later, the war was over. Written in a lively and engaging style, *The Western Confederacy's Final Gamble* presents new interpretations of the critical issues of the battle. James Lee McDonough sheds light on how the Union army stole past the Confederate forces at Spring Hill and their subsequent clash, which left six Confederate generals dead. He offers insightful analysis of John Bell Hood's overconfidence in his position and of the leadership and decision-making skills of principal players such as Sherman, George Henry Thomas, John M. Schofield, Hood, and others. McDonough's subjects, both common soldiers and officers, present their unforgettable stories in their own words. Unlike most earlier studies of the battle of Nashville, McDonough's account examines the contributions of black Union regiments and gives a detailed account of the battle itself as well as its place in the overall military campaign. Filled with new information from important primary sources and fresh insights, *Nashville* will become the definitive treatment of a crucial battleground of the Civil War.

Humor Us Donald Capps, 2016-10-21 This book addresses the fact that Americans tend to live under a considerable amount of stress, tension, and anxiety and suggests that humor can be helpful in alleviating their distress. It posits that humor is a useful placebo in this regard, cites studies that show that humor moderates life stress, considers the relationship of religion and humor, especially as a means to alleviate anxiety, proposes that Jesus had a sense of humor, suggests that his parable of the Laborers in the Vineyard has humorous implications for the relief of occupational stress, explores the relationship of gossip and humor, and suggests that Jesus and his disciples were a joking community. It concludes that Jesus viewed the kingdom of God as a worry-free existence.

New Men, New Cities, New South Don H. Doyle, 2014-03-24 Cities were the core of a changing economy and culture that penetrated the rural hinterland and remade the South in the decades following the Civil War In *New Men, New Cities, New South* Don Doyle argues that if the plantation was the world the slaveholders made the urban centers of the New South formed the world made by merchants manufacturers and financiers The book's title evokes the exuberant rhetoric of New South boosterism which continually extolled the new men who dominated the city building process but Doyle also explores the key role of women in defining the urban upper class Doyle uses four cities as case studies to represent the diversity of the region and to illuminate the responses businessmen made to the challenges and opportunities of the postbellum South Two interior railroad centers Atlanta and Nashville displayed the most vibrant commercial and industrial energy of the region and both cities fostered a dynamic class of entrepreneurs These business leaders' collective efforts to develop their cities and to establish formal associations that served their common interests forged them into a coherent and durable urban upper class by the late nineteenth century The rising business class also helped establish a new pattern of race relations shaped by a commitment to economic progress through the development of the South's human resources including the black labor force But the new men of the cities then used legal segregation to control competition between the races Charleston and Mobile old seaports that had served the antebellum plantation economy with great success stagnated when their status as trade centers declined after the war Although individual entrepreneurs thrived in both cities their efforts at community enterprise were unsuccessful and in many instances they remained outside the social elite As a result conservative ways became more

firmly entrenched including a system of race relations based on the antebellum combination of paternalism and neglect rather than segregation Talent energy and investment capital tended to drain away to more vital cities In many respects as Doyle shows the business class of the New South failed in its quest for economic development and social reform Nevertheless its legacy of railroads factories urban growth and changes in the character of race relations shaped the world most southerners live in today *Partnerships, Governance and Sustainable Development* P.
