Edmund Wilson Jeffrey Meyers, 2003-09-02 This comprehensive biography of prolific critic essayist historian and novelist Edmund Wilson 1895-1972 posits quite successfully that the subject lived a life as romantic and chaotic as his friend F. Scott Fitzgerald's. Wilson suffered a nervous breakdown and the tragic death of his second wife; he was married four times among them Mary McCarthy. He had affairs with numerous beautiful women including Edna St. Vincent Millay and was friend to literary giants such as John Dos Passos, Vladimir Nabokov, and W. H. Auden.

Van Gross of Monte Cristo Kenneth Bruce Van Gross MD, 2021-12-07 1997 to 2004 encompassed a very turbulent period for the United States and the world more generally. From the Clinton scandals, the lead up to the Millennium, the Great Loophole Presidential Election of 2000 to the planet-riveting events of September 2001, there is plenty to pontificate about, and Van Gross MD certainly does that. But he'll get personal, satirical, educational, and wax poetic too. As the U.S. entered overseas wars in the early 2000s, its role in the Middle East, its incipient reformulation of race relations, and increasing attention paid to the Americas' only climate change and/or Al Gore would seem to be in the way of planetary chaos. Acknowledging a supporting cast of celebrities from politicians such as Bush and Fidel to performing artists that include Pete Rose and Mother Theresa, Van Gross MD propels forward from the spectacular insights of Oliver Sacks. This neurologist-commentator wows in the brain-mind-body arenas as well. Short essays and poems pack this volume and even take us back in history to how we got there. Lock in your W's everyone! It's the Van Gross MD Who, What, and Where Game, and as Sly Stone reminded us way back when: Everybody is a star.

Genocide and Victimology Yarin Eski, 2020-11-29 Genocide and Victimology examines genocide in its diverse features from different yet connected perspectives to offer an interdisciplinary victimological imagination of genocide. It will include in its exploration critical and cultural victimologies and criminologies of genocide accompanied by and recognising the rich scholarship on genocide in the fields of religion and history, theatre studies and photography, philosophy and existentialism, post-colonialism and ethnography and biography. Bringing together theory with empirical research and drawing on a range of case studies such as the Treblinka extermination camp, the Bosnian and Rwandan genocides, the Sagkeeng First Nation in Manitoba, Canada, and genocidal violence in Syria and Iraq, this book engages the victimological imagination towards an interdisciplinary cosmopolitan victimology of genocide. Bundled and intertwined, the wide yet integrated variety of perspectives on genocide gives readers a victimological kaleidoscope to discover and for victimology hitherto unexplored theory and methodology. This way, readers can develop their own more epistemologically, theoretically, and methodologically robust victimology of genocide, a victimology of genocide as envisioned by Nicole Rafter. The book hopes to canvas an understanding and a starting point for a diverse appreciation of genocide, victimhood, and survivorship from which the real post-genocidal harms and sites of post-traumatic stress disorder, courts and tribunals, and overall meaningful justice will benefit. Written in a clear and direct style, this book will appeal to students and scholars in criminology, sociology, cultural studies.

Sara Pankenier Weld,2018-02-15 An Ecology of the Russian Avant Garde Picturebook takes a new approach to interpreting 1920s and 1930s picturebooks by prominent Russian writers artists and intellectuals by examining them within the ecological environment that first made them possible and then led to their demise It argues that naturalistic models of the complex interactions of dynamic systems offer effective tools for understanding the fraught interrelations of art and censorship in the early Soviet period Through illustrative case studies it mounts a close analysis of word and image and their synergistic interplay in avant garde picturebooks while also recontextualizing them within the ecology of their original environment where extraordinary countervailing forces played out a drama of which these books survive as telling artifacts Ultimately it argues that the Russian avant garde picturebook offers a uniquely illustrative example of literary ecology that sheds light on issues of creativity and censorship politics and art more broadly as well
