Rem Koolhaas Projects For Prada:

Architecture and the Image at the Turn of the 21st Century Sanja Rodeš, 2024-06-28 This book examines architecture image and media relationships as productive for architecture and architectural discourses By arguing that the relationships between architecture and media cannot be dismissed via linear criticism of architecture and media or image these relations are instead seen as a part of a sphere a mediasphere of complex relationships In lieu of anything like a consensus on the contemporary condition of architecture referring to the late twentieth and the twenty first centuries the starting point of this book is that the relationships between architecture media and images continue to multiply owing to continuous technological advancements Contemporary architecture considered in this book is related to the selected circumstances of high visibility where architectural images are propelled into visibility and conflated with non architectural images This takes architecture outside of architectural only discourse and into the public realm By granting higher visibility to both the architectural images and architecture in the public realm architecture can also be influenced by the various perceptions of the general public and can enter public consciousness via non architectural media With increased visibility architecture s far reaching presence calls for more structured analysis of its nature and potential As the analysed architecture in this book is associated with the discourses outside of architecture some of which relate to terrorism natural disaster and branding and consumption the limits of contemporary architectural discipline are questioned and extended This book is written for academics and students in architectural history theory and criticism particularly those interested in visual and media studies

Projects for Prada

Rem Koolhaas, 2001 Designing Pornotopia Rick Poynor, 2006 Following the discussion of Poynor s previous anthology *Obey the Giant* *Designing Pornotopia* covers a wide area of subjects from magazines billboard advertising branding illustration photography tattoos and music graphics to architecture and includes interviews with architect Rem Koolhaas and maverick American graphic designer and performance artist Elliott Earls Along the way Poynor reassesses the early work of Peter Saville and tracks the seemingly unstoppable rise of Stefan Sagmeister among other graphic designers Poynor s concise riveting prose constantly challenges the reader with strong and through provoking arguments

Fashion and Art

Adam Geczy, Vicki Karaminas, 2013-08-15 For at least two centuries fashion and art have maintained a competitive love hate relationship Both fashion and art construct imaginary worlds and use a language of style to invigorate beliefs perceptions and ideas Until now the crossovers of fashion and art have received only scattered treatment and suffered from a dearth of theorization As an attempt to theorize the area this collection of new and updated essays is the most well rounded and authoritative to date Some of the world s foremost scholars in the field are assembled here to explore the art fashion nexus in numerous ways from aesthetics and performance to masquerade and media Original and inspiring this book will not only secure art fashion as a discrete area of study but also suggest new critical pathways for exploring their continuing cross pollination *Fashion and Art* is essential reading for students and scholars of fashion art history and theory cultural studies

and related fields *Merchants of Style* Natasha Degen, 2023-05-17 Looking at Andy Warhol's legacy as maker and muse this book offers a critical examination of the coalescence of commerce and style *Merchants of Style* explores the accelerating convergence of art and fashion looking at the interplay of artists and designers and the role of institutions both public and commercial that have brought about this marriage of aesthetic industries The book argues that one figure more than any other anticipated this moment Andy Warhol Beginning with an overview of art and fashion's deeply entwined histories and then picking up where Warhol left off *Merchants of Style* tells the story of art's emboldened forays into commerce and fashion's growing embrace of art As the two industries draw closer together than ever before this book addresses urgent questions about what this union means and what the future holds **Architecture for a Free Subjectivity** Dr Simone Brott, 2013-06-28 *Architecture for a Free Subjectivity* reformulates the French philosopher Gilles Deleuze's model of subjectivity for architecture by surveying the prolific effects of architectural encounter and the spaces that figure in them For Deleuze and his Lacanian collaborator Félix Guattari subjectivity does not refer to a person but to the potential for and event of matter becoming subject and the myriad ways for this to take place By extension this book theorizes architecture as a self-actuating or creative agency for the liberation of purely impersonal effects Imagine a chemical reaction a riot in the banlieues indeed a walk through a city Simone Brott declares that the architectural object does not merely take part in the production of subjectivity but that it constitutes its own This book is to date the only attempt to develop Deleuze's philosophy of subjectivity in singularly architectural terms Through a screening of modern and postmodern American and European works this provocative volume draws the reader into a close encounter with architectural interiors film scenes and other arrangements while interrogating the discourses of subjectivity surrounding them and the evacuation of the subject in the contemporary discussion The impersonal effects of architecture radically changes the methodology just as it reimagines architectural subjectivity for the twenty-first century *The Interiors Theory Primer* William Mangold, 2025-07-31 In a world where life is increasingly defined by the spaces we inhabit understanding interiors is essential to understanding ourselves *The Interiors Theory Primer* maps the intellectual terrain of interior design and spatial experience introducing readers to key concepts that shape how people occupy interior spaces Organized into three parts this book begins with foundational concerns such as place identity materiality and atmosphere and then examines the boundaries and expertise of the discipline before turning to critical and emerging topics like biophilia virtuality and social justice Each chapter presents a focused literature review of a major theme in interiors theory supported by key design precedents and suggestions for further reading Drawing on a wide range of scholarship *The Interiors Theory Primer* offers a coherent framework for understanding interiors as a distinct interdisciplinary field deeply embedded in the human condition Accessible to students useful to professionals and provocative for scholars *The Interiors Theory Primer* argues that the designed environments in which we live work and gather deserve greater attention not only for their aesthetic and functional qualities but also for their powerful

role in shaping contemporary life **The Asian Modern** C. J. Wan-ling Wee, 2007 How does one comprehend the phenomenon of the modernization of an Asian society in a globalized East Asian context With this opening question the author proceeds to give an account of how the modernization processes for postcolonial societies in Asia such as those of India Malaysia and Singapore are fraught with collaborations and conflicts between different socio political historical economic and cultural agents *Fashion and Contemporaneity* Laura Petican, 2019-01-04 This book represents the voices of scholars fashion designers bloggers and artists who speak to the pervasive nature of fashion in matters of politics history economics sociology religion culture art and identity Dialogically open the volume offers a broad apprehension of visual matter in the global contemporary context with fashion at its core exploring its metamorphosing media oriented and disordered modes of being in the early twenty first century The book s contributors consider topics of universal import stemming from the realm of fashion its dissemination and impact from institutional corporate collective and individual perspectives reflecting on the morphing interchanging and revolutionary quality of the visual realm as the basis for continued research in fashion studies Contributors are Shari Tamar Akal Jess Berry Naomi Braithwaite Claire Eldred Sarah Heaton Hilde Heim Demetra Kolakis Sarah Mole Lynn S Neal Laura Petican Cecilia Winterhalter Manrutt Wongkaew **The Fashion Handbook** Tim Jackson, David Shaw, 2004-09-20 The Fashion Handbook is the indispensable guide to the fashion industry It explores the varied and diverse aspects of the business bringing together critical concepts with practical information about the industry s structure and core skills as well as offering advice on real working practices and providing information about careers and training Tracing the development of the fashion industry this book looks at how fashion can be understood from both social and cultural perspectives Each chapter contributes to the knowledge of a particular academic or vocational area either through building on existing research or through the dissemination of new research undertaken into specialist vocational disciplines The Fashion Handbook uses case studies interviews and profiles and includes chapters written by recognised academics and fashion industry experts Specialist topics include fashion culture luxury brands fashion journalism fashion buying design and manufacturing retailing PR and styling The Fashion Handbook includes a unique and wide overview of the fashion industry chapters on specialist topics contributions from recognised experts in both academia and the fashion industry expert advice on careers in fashion retailing A must for all students of the fashion world **Prada** Rem Koolhaas, Jens Hommert, Office for Metropolitan Architecture, 2001 Published to accompany the exhibition held at the Fondazione Prada Milan 2 March 8 April 2001 **Commodification And Spectacle in Architecture** William S. Saunders, More than ever architectural design is seen as a means to promote commercial goals rather than as an end in itself Frank Gehry s Guggenheim Museum in Bilbao for example simply cannot be considered apart from its intended role as a catalyst for the economic revitalization of Bilbao and its ability to attract tourist dollars regardless of its architectural merits A built environment intended to seduce consumers is more likely to offer instant gratification than to invite independent thought and

reflection But how harmful if at all is this unprecedented commercialization of architecture Framed with a provocative introduction by Kenneth Frampton the contributions to *Commodification and Spectacle in Architecture* stake out a variety of positions in the debate over the extent to which it is possible or desirable to escape from resist or suggest plausible alternatives to the dominant culture of consumer capitalism Rejecting any dreamy nostalgia for an idealized present or past in which design is completely divorced from commerce and in some cases celebrating the pleasures of spectacle the individual essays range from indictments of particular architects and critiques of the profession to broader concerns about what the phenomenon of commodification means for the practice of democracy and the health of society Bringing together an impressive and varied group of critics and practitioners *Commodification and Spectacle in Architecture* will help to sharpen the discussion of how design can respond to our hypercommodified culture Contributors Michael Benedikt Luis Fernandez Galiano Thomas Frank Kevin Ervin Kelley Daniel Naegele Rick Poynor Michael Sorkin Wouter Vanstiphout William S Saunders is editor of *Harvard Design Magazine* and assistant dean for external relations at the Harvard Design School He is the author of *Modern Architecture Photographs* by Ezra Stoller Kenneth Frampton is Ware Professor of Architecture at Columbia University Graduate School of Architecture Planning and Preservation and author of many books including *Labour Work and Architecture* **Construction Materials Manual** Manfred Hegger, Volker Auch-Schwelk, Matthias

Fuchs, Thorsten Rosenkranz, 2013-02-12 Until now the few existing systematic texts on construction materials have primarily been directed at building engineers An overview for architects which also considers the importance of construction materials in the sensory perception of architecture including tactile qualities smell color and surface structure has not been available With the publication of the *Construction Materials Manual* all that has changed As a basic work aimed equally at the questions and perspectives of architects and building engineers it will bring together all of the above mentioned viewpoints It addresses fundamental questions of sustainability including life span environmental impact and material cycles while also presenting material innovations All of the principal conventional and innovative construction materials are comprehensively documented with attention to their production manufacture fabrication treatment surfaces connections and characteristics International examples help to illustrate their use in architecture where a building's appearance is often defined by a single material Thus the *Construction Materials Manual* will support the daily work of architects and engineers in the choice of construction materials in a comprehensive and at the same time vivid and stimulating manner *Architecture in the Age of Mediatizing Technologies* Sang Lee, 2024-10-31 This book offers a novel perspective on contemporary architecture exploring its position in mediatization attained through technological apparatuses It introduces the novel concepts of apparatus centrality and mediatization of architecture which have significant disciplinary and cultural ramifications Highlighting key technological and theoretical developments the book's narrative traces the transformation of architecture from the modernist era to the present digital age En route it reflects on how architecture becomes a crucial element of shifting dispositives

through its confluence with technologies of aestheticization and virtualization and by emblemizing ecological ideals It also illuminates the reconfiguring of architectural practice through examining surprising interactions and analogies between architecture and music whose developments in notation and codification continually change the relationship between composer and performer The book explores how architecture is reshaped by broader theory and practice in media and ultimately serves as a cognitive agent It underscores that architecture profoundly influences our phantasmagoric image driven affective world through its increasingly apparatus centric approach to conception design production and mediatization Architecture in the Age of Mediatizing Technologies brings into focus the behavior of architecture in mediatization for researchers and advanced students in architectural design theory and history As an investigation into the interdisciplinary impact of architecture in a mediatized culture at large it also provides a valuable resource for cultural and media studies
