Remaking China's Public Philosophy For The Twenty First Century:

Remaking China's Public Philosophy for the Twenty-first Century Jinghao Zhou, 2003-08-30 In this book author Jinghao Zhou uses for the first time the prism of public philosophy to examine Chinese society modernization globalization and democratization as a whole Challenging conventional thinking in China studies he examines China systematically in seven aspects history ideology economy politics religion education and China's future and does so from both Eastern and Western perspectives The volume asserts that the remaking of China's public philosophy is the key for the nation to achieve both economic and political prosperity making the bold argument that this remaking can contribute profoundly not only to China's development but to international peace and development as well In *Remaking China's Public Philosophy for the Twenty First Century* author Jinghao Zhou uses for the first time the prism of public philosophy to examine Chinese society modernization globalization and democratization as a whole Challenging conventional thinking in China studies he examines China systematically in seven aspects history ideology economy politics religion education and China's future and does so from both Eastern and Western perspectives The volume asserts that the remaking of China's public philosophy the very principles and precepts it now takes for granted is the key for the nation to achieve both economic and political prosperity Zhou aims for a peaceful revolution of China's democratization while he explores a new paradigm in China studies making the bold argument that this remaking can contribute profoundly not only to China's development but to international peace and development as well

Chinese vs. Western Perspectives Jinghao Zhou, 2013-12-04 China is on the rise in the globalized world The relationship between China and the United States has become the most important global issue in the twenty first century It is urgent to understand what is happening in China and where China is heading However there are many misconceptions about China in the West which affect Westerners ability to objectively understand China and ultimately influence the making of foreign policy toward China The author attempts to challenge the misconceptions coming from both Western societies and China and offer an integrated picture of contemporary China through systematically examining the major aspects of contemporary Chinese society and culture with the most recent data and presents convincing arguments in eighteen chapters for spurring mutual understanding between China and the West The author intends this book to be an interdisciplinary and comprehensive guide to China for a general audience and it covers a wide variety of topics including history family population Chinese women economy environmental issues politics religion media U S China relations and other subjects This book demonstrates the author's extensive research and thoughtful examination of many sides of controversial issues related to China with a nice balance of Western and Chinese scholarship This is one of the few that are authored by scholars who originate from China and have their professional career in the United States but it is distinctive from the rest of studies on this subject in that the author is committed to examining today's China from Chinese as well as Western perspectives This is not only a scholarly book but also is suitable for general classes on China

Remaking China's Public

Philosophy and Chinese Women's Liberation Jinghao Zhou, 2006 Views women's liberation as a comprehensive project and part of the process of China's democratization by using the prism of public philosophy to examine Chinese women's liberation in a global context

Routledge Handbook of Politics in Asia Shiping Hua, 2018-03-15 The Routledge Handbook of Politics in Asia is designed to serve as a comprehensive reference guide to politics in Asia. Covering East South Southeast and Central Asia, this handbook brings together the work of leading international academics to cover the political histories, institutions, economies, and cultures of the region. Taking a comparative approach, it is divided into four parts including: A thorough introduction to the politics of the four regions of Asia from the perspectives of democratization, foreign policy, political economy, and political culture; An examination of the Big Three of Asia: China, India, and Japan, focusing on issues including post-Mao reform, China's new world outlook, Indian democracy, and Japanese foreign policy; A discussion of important contemporary issues such as human rights, the politics of the internet, security, nationalism, and geopolitics; An analysis of the relationship between politics and certain theoretical ideas such as Confucianism, Hinduism, socialist constitutionalism, and gender norms. As an invaluable and all-inclusive resource, this handbook will be useful for students, scholars, researchers, and practitioners of Asian politics and comparative politics.

China's Peaceful Rise in a Global Context Jinghao Zhou, 2010-04-02 China's rise has become inevitable, but there is no agreement about whether China will rise peacefully or pose a threat to the United States. The author asserts that both theories of China threat and peaceful rise failed to address China's central domestic problem. Thus, both theories are not convincing. This book attempts to develop a third view of China's rise from a domestic perspective and contends that China's potential threat to the existing global order is not derived from her rapid economic growth and military expansion but from her potential domestic chaos. A strong democratic China will contribute to the global peace, but the collapse of China will gravely threaten Western societies. The current Chinese political system directly contributes to this social instability and could possibly cause China's social crash. China's democratization is the key to ensure China's peaceful rise in a global context. However, the Party is still in power, and any attempt to dissolve the one-party system in present-day China has poor prospects. China must take a two-step gradual reform approach to complete the transition from an authoritarian regime to a democratic one. In the two-step theory, the first phase for promoting China's democratization includes exercising freedom of media, increasing the consciousness of citizen participation, and enacting religious rights. Through all these democratic exercises, China will gradually be able to achieve a fully democratic society. This two-step theory is crucial for the United States if it is to enact effective foreign policy toward China and for China to develop a democratic harmonious society.

Why Is The China Model Losing Its Power? - Challenges And Opportunities Of The Second Global Competition Jinghao Zhou, 2020-07-23 History has proved that communism failed at many levels during the first global competition between the capitalist and socialist camps during the Cold War. As a result, the socialist camp was dissolved. China is one of the few communist countries to survive in the twenty

first century The Chinese economy was on the verge of collapse in the 1970s but began to take off in the early 1980s guided by the China model China became the world's second largest economy in 2010 and has quickly expanded its enormous global market and political influence The second global competition between the capitalist countries and China has started The second global competition is in fact between the China model and the Washington Consensus Will Western hegemonies end as the result of the second global competition Will China be able to rewrite the international rules Will the Chinese communist political system collapse during the competition What should the West do to the China model This book will explore the implications of the China model in the context of the second global competition and argues that the downturn of the China model and China's global expansion are the two sides of the same coin The China model is losing its power but not broken China would be able to become even stronger if it could reshape the philosophical foundation of the China model The future of Western hegemony will depend on how the West understands the China model and deals with it This book

addresses these aspects and more **Great Power Competition as the New Normal of China-US Relations** Jinghao Zhou, 2022-09-01 Will China US relations come back to the normal track Does the confrontational approach work for China US relations This book argues that it is an unrealistic hope to bring China US relations back to the so called normal track because the great power competition will be a new normal of China US relations and the USA will gain more from strategic competition than cooperation in the long run This book shows that the strategy of great power cooperation through competition is more positive and constructive than the approaches of peaceful coexist and maximum pressure This book does not intend to provide policy recommendations for governments to consider but mainly to explain why the great power competition is inevitable and why it is necessary to continuously work with China in some areas through strategic competition This book alarms the importance of understanding the nature of the Chinese Communist Party during the great power competition and aims to motivate both sides to revisit their foreign policy practice and come up with a better foreign policy strategy of handling China US relations *The Routledge International Handbook of Religious Education* Derek

Davis, Elena Miroshnikova, 2013-02-01 How and what to teach about religion is controversial in every country The Routledge International Handbook of Religious Education is the first book to comprehensively address the range of ways that major countries around the world teach religion in public and private educational institutions It discusses how three models in particular seem to dominate the landscape Countries with strong cultural traditions focused on a majority religion tend to adopt an identification model where instruction is provided only in the tenets of the majority religion often to the detriment of other religions and their adherents Countries with traditions that differentiate church and state tend to adopt a separation model thus either offering instruction in a wide range of religions or in some cases teaching very little about religion intentionally leaving it to religious institutions and the home setting to provide religious instruction Still other countries attempt managed pluralism in which neither one nor many but rather a limited handful of major religious traditions are

taught Inevitably there are countries which do not fit any of these dominant models and the range of methods touched upon in this book will surprise even the most enlightened reader Religious instruction by educational institutions in 53 countries and regions of the world are explored by experts native to each country These chapters discuss Legal parameters in terms of subjective versus objective instruction in religion Constitutional statutory social and political contexts to religious approaches Distinctions between the kinds of instruction permitted in elementary and secondary schools versus what is allowed in institutions of higher learning Regional assessments which provide a welcome overview and comparison This comprehensive and authoritative volume will appeal to educators scholars religious leaders politicians and others interested in how religion and education interface around the world

Business Leadership Development in China Shuang Ren, Robert Wood, Ying Zhu, 2015-03-24 This book argues that China's businesses and hence China's future economic development face a huge crisis in that there is a considerable leadership gap in China with a shortage of competent business leaders at a time when new leadership skills are required urgently as China's businesses evolve rapidly and engage ever more with the global economy Moreover the book argues training is an undervalued and often marginalised activity in Chinese companies The book outlines the nature of this problem and goes on to demonstrate that there is a new breed of manager emerging in China aware of the need to upgrade management skills moving away from skills appropriate in traditional industrial firms and emphasising more flexibility positive engagement with workers and competence in the market economy The book includes an evaluation of different management approaches in China reports on extensive original research including interviews with practising managers and sets out how self development in widespread deep and important

China's Long and Winding Road to Modernization Fu-Lai Tony Yu, Diana S. Kwan, 2023-09-05 China's Long and Winding Road to Modernization Uncertainty Learning and Policy Change interprets contemporary China's economic transformation from Austrian and evolutionary perspectives Fu Lai Tony Yu and Diana S Kwan incorporate culture institutions government agents and entrepreneurship to understand economic change in China In this book the authors emphasize the roles of uncertainty learning and experimentation in policy making Topics discussed range from a presentation of theoretical frameworks to understand China's economic transformation an account of China's economic management during 1950-1978 the economic reformation after 1979 concurrent with Deng Xiaoping's Open Door Policy and China's rise as a global power These topics culminate in the final section of the book which suggests a path for China's modernization

China's Greatest Statesman Roy K. McCall, 2015-10-13 Huaian born Zhou Enlai was contemporary China's greatest statesman spymaster and negotiator the one Henry Kissinger could not out negotiate The Peoples Republic of China would not exist today without Zhou's skill as communicator and administrator Yet Zhou had one fatal flaw which cost him his adopted children his colleagues and the career of Xi Zhongxun father of President Xi Jinping While Zhou left Huaian another group came to his birthplace to serve through medicine education and evangelism China's revolutionaries gained power the missionaries influence Influence

transcended power and contrasted power politics vs quiet service This book can also be read backwards through the index which organizes over 100 footnotes and historical details For example President Xi Jinxings father despite rescuing survivors of the Long March was three decades later unfairly associated with the Gao Gang affair and denounced by the people he rescued Another side story is the role of former missionary retreat Kuling on Lu Shan On Lu Shan George C Marshall negotiated with Jiang Kaishek and Zhou Enlai At a Lu Shan conference during the Great Leap Forward Mao Zedong joked about being overweight and called his second son crazy

Issues of Contemporary Art and Aesthetics in Chinese Context Eva Kit Wah Man, 2015-08-17 This book discusses how China's transformations in the last century have shaped its arts and its philosophical aesthetics For instance how have political economic and cultural changes shaped its aesthetic developments Further how have its long standing beliefs and traditions clashed with modernizing desires and forces and how have these changes materialized in artistic manifestations In addition to answering these questions this book also brings Chinese philosophical concepts on aesthetics into dialogue with those of the West making an important contribution to the fields of art comparative aesthetics and philosophy

Heritage Tourism in China Hongliang Yan, 2017-01-25 This book offers new approaches and insights into the relationships between heritage tourism and notions of modernity identity building and sustainable development in China It demonstrates that the role of the state politics institutional arrangements and tradition have a considerable impact on perceptions of these notions The volume contributes to current debates on tradition and modernity the study of heritage tourism the negotiated power between stakeholders in tourism planning and policy making and the study of China's society The approach and findings of the book are of value to those interested in the continuities and changes in Chinese society and to graduate students and researchers in tourism cultural studies and China studies

The Logic of Chinese Politics Sabrina Ching Yuen Luk, Peter W. Preston, 2016-09-30 Europe and China have a long intermingled history reaching back to the earliest phases of the shift to the modern world In the twenty first century Europe and China are rediscovering their interlinked histories and reestablishing relationships One aspect of this process involves cutting through received images of China and this book presents a clear concise scholarly review of the logic of Chinese politics

Chinese Heritage Sites and their Audiences Rouran Zhang, 2020-03-17 Chinese Heritage Sites and their Audiences provides a Chinese perspective on tourists relationship to heritage Contributing to ongoing debates within heritage and tourism studies the book offers insights into how and why visitors engage with such sites Drawing on interviews with domestic tourists local residents and heritage officials at the World Heritage sites of West Lake Xidi and Hongcun Zhang argues that tourists have agency when they visit heritage sites they are doing cultural social and emotional work whilst also negotiating cultural meanings Providing an examination of the complex interactions between locals and tourists the author then considers how tourists navigate and interpret heritage sites Finally Zhang examines whether the government or locally controlled tourism enterprises are more effective in facilitating meaningful cultural interaction between tourists and locals Overall the book

demonstrates the interrelation between tourism and heritage and the tensions that are created when the ways in which sites are used differ from the expectations of UNESCO and national or regional site managers Chinese Heritage Sites and their Audiences pays particular attention to ongoing debates about heritage performances the importance of emotions and the agency of tourists and will thus appeal to academics and students engaged in the study of heritage tourism landscape architecture and anthropology

Cross-Cultural Reflections on Chinese Aesthetics, Gender, Embodiment and Learning Eva Kit Wah Man, 2020-01-29 This book gathers research and writings that reflect on traditional and current global issues related to art and aesthetics gender perspectives body theories knowledge and learning It illustrates these core dimensions which are bringing together philosophy tradition and cultural studies and laying the groundwork for comparative research and dialogues between aesthetics Chinese philosophies Western feminist studies and cross cultural thought Pursuing an interdisciplinary approach the book also integrates philosophical enquiries with cultural anthropology and contextual studies As implied in the title the main methodologies are cross cultural and comparative studies which touch on performances in art and aesthetics social existence and education and show that philosophical enquiries aesthetical representation and gender politics are simultaneously historical living and contextual The book gathers a wealth of cross cultural reflections on philosophical aesthetics gender existence and cultural traditions The critical thinking within will benefit undergraduates postgraduates and researchers in the area of comparative philosophies It blends academic rigor with personal reflection which is a critical practice in feminist philosophy itself
