Marriage, Divorce, Widowhood, and Remarriage by Family Characteristics, June 1975 Paul C. Glick, United States. Bureau of the Census, 1977 *Child Support* Ross Finnie, Institute for Research on Public Policy, 1994 Child support is currently in a period of major change in Canada Most provinces have recently adopted enforcement programs to help ensure that non custodial parents make the payments due This document presents guideline options regarding child support It provides information on

the following topics the economics of divorced families in Canada the current system of child support the different approaches to child support guidelines child support and economic well being the implementation of child support guidelines and guideline simulations *Handbook of Marriage and the Family* Suzanne K. Steinmetz, Marvin B. Sussman, 2013-11-11

The lucid straightforward Preface of this Handbook by the two editors and the comprehensive perspectives offered in the Introduction by one of them leave little for a Foreword to add It is therefore limited to two relevant but not intrinsically related points vis a vis research on marriage and the family in the interval since the first Handbook Christensen 1964 appeared namely the impact on this research of the politicization of the New Right and of the Feminist Enlightenment beginning in the mid sixties about the time of the first Handbook In the late 1930s Willard Waller noted Fifty years or more ago about 1890 most people had the greatest respect for the institution called the family and wished to learn nothing whatever about it Everything that concerned the life of men and women and their children was shrouded from the light Today much of that has been changed Gone is the concealment of the way in which life begins gone the irrational sanctity of the home The aura of sentiment which once protected the family from discussion clings to it no more We want to learn as much about it as we can and to understand it as thoroughly as possible for there is a rising recognition in America that vast numbers of its families are sick from internal frustrations and from external buffeting We are engaged in the process of reconstructing our family institutions through criticism and discussion 1938 pp 3 4

Divorced Families Constance R. Ahrons, Roy H. Rodgers, 1987 This book describes some of the expectable difficulties for couples at different life cycle stages those with young children childless couples and midlife and aging couples and offers guidance for making the most of the transition from separation to remarriage *Starting a Second Family* Janet Elizabeth O'Keeffe, 1988 *Analysing American Advice Books for Single Mothers Raising Sons* Berit Åström, 2023-02-07 Although single fathers as primary caregivers are on the rise most single parent households in the US are headed by women These women are a lucrative market for parenting books and most of these books are aimed at single mothers raising sons This intersectional study analyses the way in which these advice books draw on mother blame language misconceptions of neuropsychological research and traditional conceptualisations of masculinity and femininity to convince the mother readers that they are unable to raise a son to be a man The study further connects the advice books to a cultural backlash against ideas of involved fatherhood and caring masculinity exploring how the authors argue for a return to traditional family structures

Bulletin of the United States Bureau of Labor Statistics. no. 217, 1918, 1918 [Social Security Bulletin](#), 1950 **Family Ties and Aging** Ingrid Arnet Connidis, 2010 This advanced textbook covers issues of family ties and aging broadly the goal being to provide an integrated and thorough representation of what we know from the current research Whereas books on families and aging have traditionally focused on ties to a spouse and to children and grandchildren Family Ties Aging is more extensive and more reflective of contemporary society The text includes groups and relationships that typically receive short shrift

exploring such neglected populations as single divorced and childless older people and their family relationships as well as sibling relationships among the elderly live in partnerships not formalized by marriage and the kinds of family ties forged by gay and lesbian persons over the life course The book weaves the vast range of information we now have about the many facets of family relationships and aging into a critical comprehensive and integrated whole *Senate documents* ,1892

Stepfamilies Alan Booth,Judy Dunn,Judith F. Dunn,2014-04-08 Stepfamilies represent an increasing number of American households and shape the upbringing of countless stepchildren Despite their prominence in society our knowledge about these families is very limited To address this deficit the editors have drawn together the work of 16 nationally known scholars to deal with four questions Marriages that create stepfamilies Why do they occur Fail Succeed How do stepfamilies function as child rearing environments How do stepfamilies function as sources of support in later life Building research and policy agendas What is needed In seeking answers to these questions the book bridges the disciplines of psychology sociology social psychology child development demography law and policy Readers will gain an understanding of the current knowledge about stepfamilies obtain an appreciation of the diverse views on a variety of stepfamily issues learn about existing and anticipated laws and policies that affect stepfamilies and acquire ideas on needed research and policy agendas Chapter authors are leading figures in psychology sociology demography human development and family law their contributions are valuable to researchers teachers and students as well as policymakers and legislatures **Stepfamily Relationships**

Lawrence H. Ganong,Marilyn Coleman,2011-06-27 This volume focuses on a wide range of behaviors and outcomes in stepfamily relationships both positive and negative The authors use the normative adaptive perspective to seek out and study adaptive well functioning stepfamilies and find how they differ from those who struggle to cope It will be a welcome text and reference for all those who study and work with stepfamilies and families in general *Handbook of Parenting: Being and becoming a parent* Marc H. Bornstein,2002 Despite the fact that most people become parents and everyone who has ever lived has had parents parenting remains a mystifying subject about which almost everyone has opinions but about which few people agree Striking permutations on the theme of parenting are emerging single parenthood blended families lesbian and gay parents and teen versus fifties first time moms and dads Divided into four volumes the Handbook of Parenting is concerned with different types of parents basic characteristics of parenting forces that shape parenting problems faced by parents and the practical sides of parenting Contributors have worked in different ways toward understanding all of these diverse aspects of parenting and look to the most recent research and thinking in the field to shed light on many topics every parent has wondered about Because development is too subtle dynamic and intricate to admit that parental caregiving alone determines the course and outcome of ontogeny **Remarried Family Relationships** Lawrence H. Ganong,Marilyn

Coleman,1994-05-11 This volume provides extensive coverage and the most up to date information available for students and scholars in social psychology interpersonal communication family studies clinical psychology counseling and gender studies
